- We are putting the schedule together for semester 2 peer tutors and would love to add more tutors. If you have an open period next semester and would like to spend 1, 2, 3, 4, or 5 days a week tutoring other students during that open period, we would love to know. We are especially in need of period 2 and 4 and looking for tutors in English and Social Studies but will take others as well. You tell us the subjects you are comfortable tutoring and how many days a week you are interested in supporting your peers. You will get volunteer credit for this that you can apply toward a half a credit. It looks great on your transcript and may help you get scholarships to college in the future. Please let Ms. Andersen, School Counselor know of your availability so we can get you into the schedule for next semester.
