

ONEIDA-HERKIMER-MADISON BOCES

PORTABLE PLANETARIUM

Explore the wonders of the universe with our Portable Planetarium service! The Planetarium experience includes a five meter inflatable dome, digital projection system and high quality Starry Night software. Our expert presenter will bring the stars to you, creating an immersive and educational experience for students of all grade levels!

PRESENTATION TOPICS

Presentations are approximately 45-minutes in length and cover a variety of topics. Full-day presentations consist of five to six 45-minute sessions and half-day presentations consist of three consecutive 45-minute sessions. Current topics focus on Earth and Space Sciences but additional topic areas will be added as they become available.

CURRENT TOPICS INCLUDE:

- Night and Day
- Lunar Phases
- Changes in Seasons
- Solar and Lunar Eclipses
- Constellations
- The Solar System

SERVICE COSTS

The Portable Planetarium is \$650 for a full-day and \$325 for a half-day. Payment can be supported as an aid driving adjustment to service or through an invoice.

COLLABORATION

Our team will happily work with the teachers to modify programs to create highly engaging lessons that meet the needs of all your students.

STANDARDS ALIGNED

Each presentation aligns with the New York State Science Learning Standards, helping to enhance concepts that are not as easily approached in a traditional classroom setting.
