

Questions

Tab No. 3 bullet #5: Can the district please clarify what type of documentation they are looking for in regard to "Documentation of design for presentation."

Answer: we are looking for documentation that reflects how they design projects and present these design details to their clients for review, comment and consideration.

Tab No. 4 bullet #3: Our firm does not use subconsultants for roofing services, do we still need to provide subconsultant references in this section?

Answer: Subconsultant references would relate to other engineers that you have needed to support your work such as windstorm engineers, structural engineers, etc.
