

## Connecting a Personal Android Device to RSD Wireless

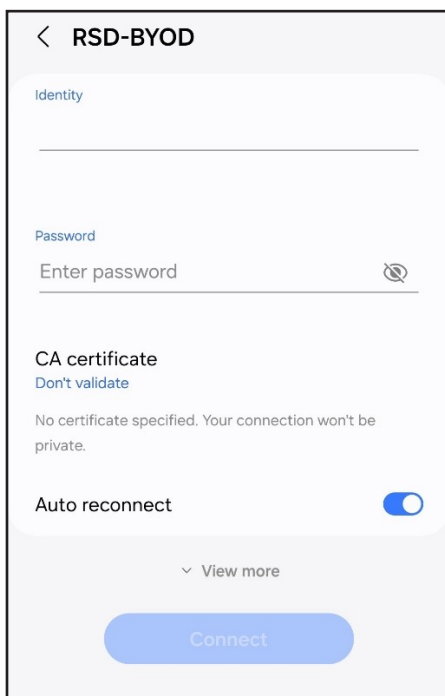

### What is BYOD?

BYOD stands for bring your own device. It refers to a policy that allows staff and students to bring and use their personal devices (such as smartphones, laptops, tablets, etc.) for work or educational purposes instead of using district-provided equipment.

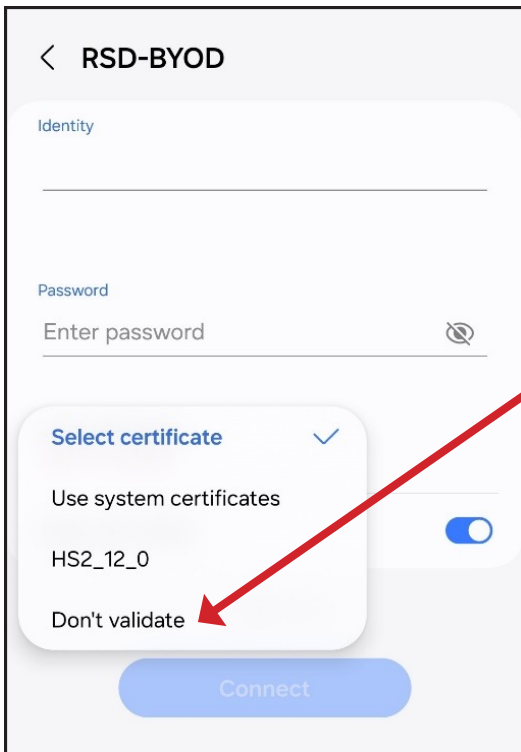

### How do I connect my personal Android device to the Richland School District Wireless?

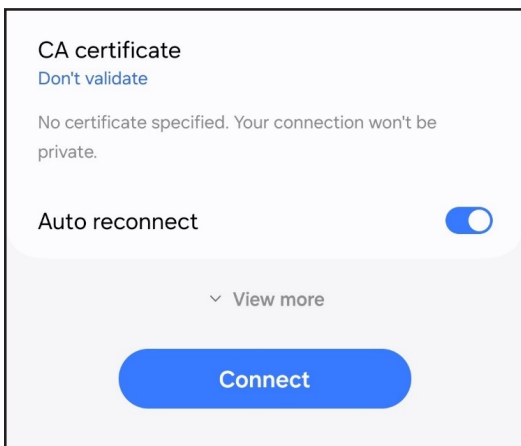

- Open your Wi-Fi settings and select RSD-BYOD from the list of available wireless networks.

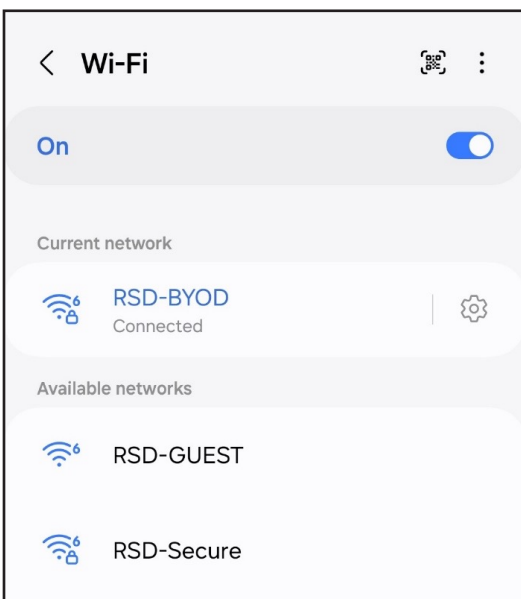

- Enter your student RSD email address into the *Identity* field.
- Enter your RSD email password into the *Password* field.

- In the *CA certificate* field, select **Don't validate**.

- Next, click **Connect**.

- Your device should now show RSD-BYOD is connected.
