About Us

The House Next Door began as a grassroots organization when several members of the community came together in the early 1970's. The agency opened to help families address the challenging issues in their community. The agency was then licensed by the State of Florida to provide community based prevention and intervention services.

The goal of the agency is to promote the heathy development of all people through enhanced family and community relationships. The programs at The House Next Door serve children in their schools, the community and in their homes.

The purpose of the agency is to recognize every member of the family is important, accounted for and included… children, teens, and adults as individuals, adults as parents and families as families. The core components of all of the programs at The House Next Door are family education, support, and counseling to strengthen the family unit. This, in turn, strengthens the community.

ALPHA
School-Based Program

The Alpha Program is an alternative educational and counseling Program designed to serve 4th through 8th grade students having difficulties in the regular classroom setting. Alpha assesses and addresses risk factors in the children's environment, which may contribute to their problems.

The teachers and guidance counselors in the elementary schools make referrals to Alpha, based on knowledge of a child's academic performance and behavior.

Students usually remain in the program for one school year. Alpha staff works with each child to develop individualized participation plans, which establish both academic and behavioral goals. Individual and group counseling, along with academic instruction are provided to meet these goals.

Many students experience academic difficulties prior to entering the program. Alpha counselors will work closely with the classroom teacher to meet specific learning styles of the student. Each student is pre and post tested to measure progress.

The Alpha counselors are available to the students, parents and teachers throughout the year.
