

Cypress-Fairbanks Independent School District

Carpenter Center

2024-2025

Mission Statement

The Adaptive Behavior Center is organized to provide a supportive environment for students who have experienced academic, emotional, and/or behavior problems at their home campus. The framework for student success centers around around academic tasks, social behavior skills, and pre-vocational skills needed for transition to home-campus or work.

Vision

Our goal at the Center is to ensure that all students are given an opportunity to learn, grow, and achieve academically and behaviorally. A Behavior Management System is in place to help students succeed by providing: appropriate educational tasks, rewards that are meaningful to students, appropriate teacher intervention, and the teaching of coping, socially acceptable and responsible behaviors.

Goals

Revised/Approved: September 24, 2024

District Goal 1: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.

District Performance Objective 1.1: The percentage of eligible students scoring at the Approaches, Meets, and Masters Level on the District Progress Monitoring (DPMs) assessments will increase by 2% at the Approaches Level and 3% at the Meets and Masters Levels each year.

Standard Expectations

The following activities will no longer appear in the *District Improvement Plan* or the *Campus Improvement Plans*, since they represent practices that are expected to happen in an ongoing manner to provide instructional “standard operating procedures.”

Curriculum and Instruction

- The District provides a common curriculum for all subjects at every grade level with appropriate learning experiences based on the Texas Essential Knowledge and Skills (TEKS) and ensures that all students, no matter which campus they attend, receive the same curriculum.
- The District curriculum staff updates and revises the curriculum regularly considering teacher input, state and district assessment data, and current research and best practices. The curriculum includes scope and sequence, pacing guides, instructional resources, model lessons, and assessment items that support the content area while addressing the needs of a diverse student population.
- The District curriculum resides in Schoology, the learning management system. Schoology is used to its fullest capacity: lesson planning, resource selection, assessments, data digging, and data interpretations for instructional decisions. Teacher teams, campus administrators and district staff use Performance Matters to disaggregate assessment data using various reports that allow them to view data at a district, campus, teacher, classroom and individual level.
- Teacher teams meet weekly (the appropriate number of times using Schoology) to plan collaboratively and develop effective, relevant lessons that focus on creating classroom experiences that meet students’ needs while maximizing first-time instruction and learning. These classroom experiences provide opportunities in which students
 - use technology (including but not limited to Chromebooks, online textbooks, animations/videos, simulations, reports, assessments, information graphics, probe ware, graphing calculators, programs, etc.) to support the learning of the TEKS;
 - generate and translate between multiple representations (graphs, diagrams, pictures, equations, tables, poems, advertisements, etc.);
 - develop academic language proficiency through speaking, reading, writing, and listening;
 - develop stamina to solve complex problems, read long passages and questions, and transfer knowledge to other situations and/or disciplines; and
 - have time to make sense of their learning (reflective journaling, student discourse, collaborative group work, Socratic seminars, etc.).
- The District provides and campuses follow student placement guidelines and scheduling protocols (Blue Book, Elementary Administrative Handbook, Master’s Scheduler Handbook, etc.) ensuring that students are placed in the appropriate classrooms/programs and are ready and able to achieve at high levels.

Monitoring

- Campus leaders use various strategies, processes, and/or procedures to monitor the standard expectations to ensure fidelity. Examples include but are not limited to
 - review of lesson plans;
 - participation in team planning by administrators;
 - participation in data review/data dig sessions; and
 - monitor Schoology use.
- Campus leaders gather data, and coach teams and individual teachers in order to improve the impact of first-time instruction and learning.

Assessment and Data Analysis

- The District develops and campuses administer assessments (District Progress Monitors, benchmark assessments, unit tests, check points, etc.) based on the established assessment calendars.
- Teacher teams review student data from multiple sources (DPMs, benchmark assessments, unit tests, check points, etc.) and develop a response that supports and defines methods for re-teaching and re-evaluating to ensure all students learn the content.
- Each teacher reviews data at the individual student level in an effort to adjust instruction and provide support so that every student has opportunity to master the content.

High School Content Area Standard Expectations

English Language Arts/Reading

- Utilize teaching and questioning strategies designed to promote higher-level thinking and maximize first-time instruction.
- Model reading with anchor passages and texts to increase students' confidence in comprehending, analyzing, and evaluating texts of varying complexity.
 - Provide opportunities for students to engage in independent choice reading to improve fluency and stamina. (may see "silent reading" at start or end of class for this purpose)
- Model and facilitate students engaging in the writing process (planning, drafting, revising, editing, publishing, and reflection).
 - Conduct informal and structured writing conferences to offer specific and actionable feedback to monitor progress and growth. (may see small groups here)
 - Encourage the application of varied sentence patterns and sophisticated vocabulary in writing.
- Create collaborative peer opportunities for students to clarify, solidify, or deepen their thinking.
- Use instructional practices and routines to create a classroom community that allows students to engage in their learning actively and safely.
- Use formal and informal data to drive instructional decisions for daily lesson plans, small groups, and necessary interventions.
- Utilize appropriate scaffolds to meet the unique needs of all learners (extended and reinforced).
- 1:1 Technology in the English classroom should provide opportunities for students to:
 - Engage with digital texts and resources to create and collaborate with peers.
 - Exercise digital literacy through judicious use of appropriate online resources for the research process.
 - Produce original products in a digital environment.

Mathematics

- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including justifications, similarities, and differences.
- Provide time for students to explain, justify, and defend their ideas.
- Use multiple representations (models, pictures, words, tables, graphs, equations, etc.) to make connections.
- Encourage students to use precise mathematical vocabulary.
- Use graphing technology and other technology to discover relationships and compare multiple representations.
- Incorporate the use of technology for student learning every day.
- 1:1 Technology in the math classroom should provide opportunities for students to:
 - Use the rule of thumb of a weekly average use of the following:
 - 55% paper resource, 35% digital resource, 10% flex
 - Use Chromebook devices to engage in digital creation and collaboration
 - Use technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice
 - Incorporate the use of digital tools such as Desmos, FluidMath, Geogebra, ClassFlow, Interactive Textbook, Schoology, Google Suite, etc.
 - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
 - Communicate and share products using digital tools such as Google Suites, WeVideo, FlipGrid, etc.

Science

- Incorporate the scientific and engineering practices (SEPs) 40% of instructional time
- Articulate learning outcomes
- Encourage sense-making and model creation
- Promote student voice
- Utilize phenomena
- Incorporate recurring themes and concepts (RTCs):
- Build on prior knowledge
- Provide appropriate and accessible steps
- Provide timely and actionable feedback
- 1:1 Technology in the science classroom should provide opportunities for students to:
 - use Chromebook devices to engage in face-to-face and digital collaboration;
 - locate and access information and resources stored in different platforms;
 - explore simulations;
 - collect and represent data using probeware and other digital tools;
 - analyze and interpret data using various digital tools;
 - communicate and share conclusions.

Social Studies

- Include questions designed to promote higher level thinking in discussions, daily activities, and assessments.
- Provide daily opportunities for student processing of information.
- Use a variety of facilitation modes to meet students' diverse needs.
- Use collaborative activities to process information and/or demonstrate content mastery.
- Ensure that students use problem-solving and decision-making skills in a variety of settings.
- Provide opportunities for student discourse and discussion.
- Incorporate the use of small group instruction to meet the needs of individual learners.
- 1:1 Technology in the social studies classroom should provide opportunities for students to:
 - engage in collaborative problem-solving activities and discussions
 - use research tools such as primary and secondary sources for in depth study and relevant applications
 - analyze visuals (cartoons, maps, images) using critical thinking skills
 - access differentiated content for readiness and skill level and/or interests
 - utilize devices for self-directed learning
 - demonstrate mastery by using various digital tools and creating a variety of products

LOTE

- Teach and speak in the target language significantly more than English in all levels (target 90%). Use strategies (i.e. visual cues, acting out, modeling, cognates, synonyms, etc.) to ensure student understanding and limit or avoid English translation.
- Use activities that move students beyond "word-level" performance. All students are working towards building sentences (Lvl. 1), strings of sentences (Lvl. 2), and paragraph-length narration (Lvl. 3+).
- Design instruction to discover grammar in a context instead of using isolated mechanical or rote drills.
- Use authentic real-world tasks that integrate listening, speaking, reading and writing. All tasks should support students' ability to use their language in real-world scenarios.
- Provide ongoing feedback as students work independently, in pairs, and in small groups.
- Use the TEKS proficiency targets to ensure instruction and assessment are at the appropriate performance expectation.
- 1:1 Technology in the LOTE classroom should provide opportunities for students to:
 - use Chromebook devices to engage in face to face and/or digital communication
 - locate and access information and resources stored in different platforms such as Schoology
 - receive immediate, individualized feedback
 - connect to speakers outside of the classroom
 - access real-world materials to showcase products, practices and perspectives from the target language culture(s)
 - increase opportunities for individuals participating in unrehearsed communication
