SELECTING COURSES

Schedule a minimum of 6.0 credits

If scheduling 7.9 credits or higher without selecting a cyber course you will need to take a 3X2 PE, Jazz Band, or Show Choir opposite your Lab Science

Early Release for seniors or Full-time Cyber must be selected at the bottom of the scheduling page

Schedule any pending or failed graduation requirements unless summer school is in your plans

WHAT COURSES SHOULD YOU SELECT?

- **Courses that will prepare you to.....**
- Teach, Mentor, Coach or Guide young people or others
- Serve in Government and advance our communities and keep them running smoothly whether Local, State, or Federal level
- Provide for the Safety and Order of our communities by protecting people from crime, fire, and disasters or working in the court systems

Recommended Education & Training Electives

► Family Sociology

- Families, qualities of good relationships, pregnancy, child development, older adults

► CHS Child Development with Preschool

- CHS College credits available
- Advanced Experience option
- Child development, developing and implementing lesson plans, work one-on-one with preschool students, travel to elementary schools for a work-based field experience

► CHS Introduction to Special Education

- CHS College credits available
- Advanced Experience option
- Characteristics of students with special needs, modifications in teaching methods, classroom management techniques
- Assist students in multiple supports programs

Recommended Safety & Law Electives

▶ Adult Living

- Cyber option
- Personal finance, laundering, basic sewing, car care, and grocery techniques

▶ CHS Leadership and Career Development

- CHS College credits available
- Advanced Experience and cyber option
- Interview skills, resume building, and job shadow experience

▶ Food Chemistry

- ½ STEM credits
- Focus on micronutrients, acids and bases through the following labs: edible bubbles, homemade marshmallows, homemade ricotta, etc.

▶ Food Science and Nutrition

- ½ STEM credits
- Focus on macronutrients and scientific method through the following labs: lollipops, fruit roll ups, granola bars, ice cream in a bag, etc.

World Language Department Course Offerings

- We offer classes in French, German, Spanish, and Latin
- Honors-Level, Advanced Placement, and College in High School Courses in French, German, Spanish, and Latin.
- Cyber courses are also available for non-honors classes.
- Continue your language studies and/or try a new language in order to strengthen your college resume and show your commitment to academic rigor and to distinguish your application from others!

World Languages: Why take another year?

Not because you are going to be a language teacher, but rather because language study can equip you with essential:

SOFT SKILLS

- Developing communication and listening skills
- Having empathy toward other
- Possessing different values and points of view
- Being a good critical thinker & problem solver
- Making connections across complex ideas

AND IT ALSO

- Expands career opportunities
- Supports academic achievement (test scores [esp. math and science], increased ability to hypothesize, improved reading abilities).
- Improves your ability in your native language [better speaker and writer]
- Permits more meaningful travel and exploration
- Staves off dementia by up to 4 years

Fareed Zakaria: “A broad general education helps foster critical thinking and creativity. Exposure to a variety of fields produces synergy and cross fertilization. Yes, science and technology are crucial components of this education, but so are English and philosophy.”

English Options - Juniors

Full Year Course **OR** 2 Semester Classes

➤ Select one of these full year courses:
