## School Messenger

This system will be used to get building wide announcements such as:  
Late Start, Emergency Dismiss, etc.  
Formats: School Messenger App  
Website (QR code)

## Safe Arrival and Attendance

This system works within School Messenger yet is different. If your student is not in school and we have not been notified, you will get a phone call from Conestoga School Messenger letting you know your student is absent. You will update their reason for absence by using the prompts provided. You can use this at anytime to let us know your student will be gone- even weeks in advance.

### How?

Call: 1-866-318-3482 and follow the prompts using your phone number registered with the school  
App: SM Home from above

Please note: you will no longer call the office because the system will "tell" Power School

## My Power Hub (new Power School update)

You can use this to communicate directly with your student's teacher but you can also email the teacher.

### How?

Use the QR code and bookmark that site  
App: coming soon

## Why these changes?

CHANGE

These systems work directly with Power School which is the system we use to register your students. If the information is correct in Power School, it should be correct in these systems!

## Does the system not recognize you?

Please email us at [info@conestogacougars.org](mailto:info@conestogacougars.org) with your name, phone number(s) and email(s) you are using so we can verify the correct information is in Power School. This also means, if you get new contact information, you need to let us know ASAP.
