NEEDS ASSESSMENT: IDENTIFYING PRIORITIES

"In most schools, conducting a comprehensive needs assessment will result in the identification of a large number of issues that could be addressed to improve the achievement of students. However, no school should attempt to address every identified need in a single year. Most planning experts suggest that schools prioritize their major issues and address no more than three of the most important..."

Description of how strategy/strategies will provide

The school provides opportunities for all children, including subgroups of students, to meet the challenging Missouri Learning Standards through a Comprehensive, Integrated 3-Tiered (Ci3T) model of support. The Ci3T model is a data-informed, graduated system of support constructed to address academic, behavioral, and social-emotional domains. The central goal is to support all learners in inclusive environments by relying on the expertise and collaboration among classroom teachers, special education teachers, academic interventionists, English Language Teachers, instructional specialist, counselor, social worker and the behavior success specialist. Teams meet several times throughout the year to review school-wide data, identify strengths and weaknesses, analyze trends, and implement strategies to meet the needs of all students. Academic, behavioral and social-emotional curriculum is implemented in all classrooms with secondary and tertiary instruction available for students not demonstrating success with the universal curriculum. Universal tools (such as extended time and small group testing) for district and state assessments are assigned by the team based on IEP mandates, language levels, individual students needs. English Language (EL) students are assessed yearly and specialized EL teachers deliver professional development to staff regarding high-yield strategies for student success.
