HOW TO GET STARTED WITH ETHNIC STUDIES:
CURRICULUM DEVELOPMENT & IMPLEMENTATION

California Assembly Bill 101 requires all high schools must begin offering ethnic studies courses in the 2025-26 school year

Come and join us at SCOE to collaborate and engage with educators throughout Region 1 to share best practices in the development of robust Ethnic Studies coursework and programs. Work together to establish a shared foundation, common language, develop and implement curriculum, and align perspectives for future discussions while emphasizing critical reflection and tailored approaches within local contexts.
