Child Find

What is child find?

Child find refers to the policies and procedures in each state that ensure that all children with disabilities, birth through age 21, who live in the state and are in need of special education and related services or early intervention services are identified, located, and evaluated.

Child Find for Preschool Students Ages 3 – 5-year-old

The CCSD's Preschool Special Needs Assessment Department provides comprehensive evaluation services for any child ages three to five who is experiencing significant difficulties or delays in development, whether physical, mental or emotional.

This department also conducts comprehensive evaluations for children who have been receiving early intervention services through Babies Can't Wait (BCW) and are approaching 3 years of age at which point BCW services will end.

Areas of concern can include difficulties in developing speech and language skills, thinking skills, adaptive skills, motor skills, and social/emotional skills. A play-based assessment will be conducted to determine if a student qualifies for the Preschool Special Needs Program.
