About PSJA Early College

Through PSJA ISD's nationally recognized Early College Program in partnership with South Texas College and other higher-education institutions, high school students can graduate with up to an Associate Degree or 60 college credit hours before their high school graduation free of cost.

All PSJA ISD high schools are designated Early College, which makes them innovative high schools that allow students to attend college and high school simultaneously. Early College High Schools offer rigorous instruction and provide academic, social and emotional support services to help students succeed.

PSJA COLLEGE & CAREER ROAD-MAP

What are the PSJA Academies?

Offered through the PSJA Early College Program, the PSJA Academies provide additional hands-on learning in various specific fields of study supporting students as they work to obtain a Certificate or an Associate Degree from South Texas College. Through a cohort approach, students build positive relationships, receive rigorous instruction; as well as receive academic, emotional and social support to successfully complete the coursework.

Students enrolled in the PSJA Academies continue to attend their home high school. They travel to the Academies' site only for designated hours for academy coursework.

PSJA ISD students from any district high school are eligible to apply to be part of the PSJA Academies.

Who can apply?

The PSJA Academies available through the PSJA Early College Program are open to all PSJA ISD High Schools in grades 11th & 12th. Interested students must apply their 10th grade year.
