Deer Valley Unified School District No. 97

REMINDER TO PARENTS/Guardians whose children are 11yrs old or will be turning 11 or 12yrs old

Your child will need their immunizations updated. These immunizations are mandated by the State of Arizona and DVUSD.

The state requires that all students receive their **Tdap and Meningitis** immunizations before their 12th birthday. These immunizations are normally given at your child's 11yr well check.

This letter is a gentle reminder that now is the time to make your child's 11yr. wellness check-up and receive the **Tdap and Meningitis** immunizations that they are going to need before they are 12yr's.

At this wellness check it is important that you ask your child's doctor to do a **Scoliosis check**. I am enclosing a Scoliosis Fact Sheet for you to review.

Your prompt attention to having your child immunized will be greatly appreciated.

.

When you make your appointment would you be so kind to **email or call me with the date,** so that I will not have to send or call you with continuous reminders.

Thank You!
