CURRENT RESIDENT

Future Focus

Our elementary schools are 90%-98% full today. Our recent growth study confirms approximately 1,000 additional students over the next 10 years.

The updated Campus Master Plan provides solutions for current elementary school capacity needs, renovating original academic and athletic facilities, and preparing for the future space that will be required for increased student enrollment.

Access & Opportunity

Students have a multitude of events and opportunities available to them each school year. These range from The New Albany Lecture Series, showcasing both national and international personalities to grant-funded opportunities in the arts, robotics, and an author-in-residence program. Additionally, students can engage in hands-on learning experiences within the wetlands and nature preserve.
