## 2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

### 2024-25 School Description and Mission Statement

As members of the Juvenile Court and Community Schools (JCCS), we are committed to high expectations, social justice, and equity for all students. We value diversity and strive to eradicate institutionalized racism and discrimination in all forms. Our priority is to raise the achievement of all students through the elimination of the racialized opportunity gap that negatively impacts our students of color. We accomplish this through the delivery of culturally and linguistically responsive standards-driven instruction, courageous and advocacy-oriented leadership, and relevant professional learning. All JCCS community members stand personally committed and professionally accountable for the achievement of this mission.

## 2024-25 School Description and Mission Statement

The Juvenile Court Schools provide educational opportunities for students waiting for disposition or adjudication through the San Diego County Court systems. As the Court School, our school name is San Diego SOAR (Success, Opportunity, Achievement, and Results) Academy. Our faculty and staff work in collaboration with the San Diego County Probation Department and other partner agencies that assist and seek to improve and strengthen the instructional programs and daily operations at both school sites. While it may be necessary for the court to adjudicate a student within a secure facility or a structured program, there remains an emphasis on education, rehabilitation, and restoring relationships within trauma-informed programs. Each program is designed to assist our students in developing discipline, values, and a work ethic that will guide them toward becoming productive citizens who are also ready for their next academic, vocational, college, or career placement.

### Facilities Overview:

Twenty-four-hour maximum-security facilities:

San Diego SOAR Academy is a co-educational facility located at the Youth Transition Campus. SOAR Academy at East Mesa is a secure placement for co-educational youth located in Otay Mesa and near the international border. Post-disposition commitments/programming are based upon assessments completed by the San Diego County Probation Department.

### Programming at the YTC

\*Students have a pre-disposition status

\*Urban Camp is a placement for young men and women between the ages of 13-19. Students are in placement between three to nine months.

\*Young men adjudicated to the HOPE program are in placement between six and fifteen months.

\*The YOU program is for adjudicated young women who will be in placement between six and fifteen months.

\*YDA- Young women who are post-disposition with a secure track commitment. These students were formally sent to the California Department of Justice. These students may be in placement until their 25th birthday.

### Programming at East Mesa

\*Students have a pre-disposition status

\*Students who have a post-disposition status who are waiting to enter a program at the YTC

\*Students who are post-disposition with a secure track commitment. These students were formally sent to the California Department of Juvenile Justice. These students may be in placement until their 25th birthday.

The Court Schools operate a year-round educational program for students. SOAR Academy has 33 teachers who are fully certificated, credentialed, and highly qualified per the State of California. In addition, 34 staff members support the Court Schools. This staff includes general education teachers, education specialists (special education), Career Technical Education teachers, school counselors, classroom assistants, special education teacher assistants, English Language Learner assistants, student transition specialists, school office assistants, student support specialists, registrars, and school principals.

Students are enrolled in courses as per the student's personal learning plan. Each classroom provides a full inclusion learning environment for students of different grade levels, at promise, multilingual, and/or with disabilities. The majority of our students are enrolled in grades 9 through 12. Our goal as educators is to provide each of our students with quality, equitable academic and vocational experiences to equip them for a successful re-entry into the community. We believe it is incumbent upon our staff to implement strategies for a safe learning environment; promote meaningful learning experiences; conduct ourselves professionally and ethically; hold all individuals accountable; implement data-based decision-making systems; maintain effective communication; and model collaborative practices. Professional development opportunities enable staff members to differentiate instruction, assist students in accomplishing their personal learning goals, and recover and complete credits that lead to a high school diploma or a California High School Equivalency Credential upon passing the HiSET.

Court School goals are aligned with the goals of the San Diego County Office of Education's Local Control and Accountability Plan (LCAP):

Goal 1. Improved Student Achievement

Goal 2. Enhanced Engagement with Educational Partners

Goal 3. Increase Postsecondary Planning and Preparation

Goal 4. Support the integration and transition of students who are at-promise (formerly at-risk), expelled, English learners, incarcerated, and foster youth to be prepared to succeed in college and career.

Goal 5. Improved Dashboard Metrics: Increase the number of students who graduate high school, and improve college and career readiness and post secondary planning.

## 2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All textbooks and instructional materials used within San Diego County Court Schools are aligned with the state standards and frameworks and in grades K through 8 have been selected from the state-adopted list of standards-based materials. San Diego County Court Schools follow the State Board of Education's adoption cycle for core content materials. JCCS holds a public hearing annually to determine that each JCCS program has sufficient and quality textbooks or instructional materials, pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are provided their own textbooks in core subjects for use in the classroom and to take home to complete required homework assignments. Additional information regarding state-adopted instructional materials can be obtained from the JCCS office.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	4	0	47	49	46	47
<b>Mathematics</b> (grades 3-8 and 11)	4	0	36	38	34	35

## 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 Career Technical Education Programs

The SDCOE JCCS Career Technical Education department provides CTE classes and grant-funded career readiness opportunities for high school youth. In our Court Schools, students can select from CTE programming based on their supervised facility. At Youth Transition Campus, students take a work readiness course and can choose from CTE Culinary Arts, CTE Graphic Arts, and CTE Horticulture. Our Culinary Arts program is now a pre-apprenticeship program in collaboration with Kitchens for Good, where students receive a professional culinary knife set and uniform upon completion of the pre-apprenticeship. At GRF, students are offered work readiness courses, as well as CTE Graphic Arts and Production. Additionally, we are currently in the planning stages of a CTE Green Technology program to provide students with skills in sustainable energy and environmental practices. The CTE Department is also working to reintroduce the CTE Culinary Arts program at East Mesa Juvenile Detention Facility.

CTE teachers work closely with other departments to ensure curriculum alignment. The program's success is evaluated based on student enrollment, course completions, and industry credentials earned, as measured through our yearly data gathering in CONAPP. JCCS CTE also offers Drivers Education for qualifying students and the Workability I grant, which provides eligible students with grant-funded services, including paid internships, work-based learning, mentoring, and supportive services. The CTE Advisory Council, led by the CTE Department, brings together a diverse group of local industry partners to guide and support our programs. These partners represent a wide range of sectors, including building and construction, green technology, horticulture, culinary arts, public service, entrepreneurship, graphic arts and design, arts media and entertainment, audio technology, education and child development, family services, nonprofits, event management, and local museums and arts

organizations. We also collaborate with the local workforce investment board to ensure our programs align with the evolving job market. All CTE teachers and staff actively participate in both organizational all-staff and council meetings, ensuring a strong connection between classroom learning and industry needs.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2024-25 Opportunities for Parental Involvement

Our Student and Family Engagement (SAFE) team provides regular workshops related to student attendance, legal issues faced by students, parenting, and informational parent meetings. SAFE also connects families with community-based organizations to increase access to medical/dental treatment, housing, mental health, food pantries, transportation, childcare and legal support to enhance the overall health and well-being of our students and families. Parents are strongly encouraged to participate as members of the School Site Council, English Learners' Advisory Committee, Local Control and Accountability Plan, California Community Schools Partnership Program, and other focus groups. The school has jointly developed with parents a written parental involvement policy. This involvement policy specifies:

- Policy involvement for parents
- Joint accountability for student attendance
- Shared responsibilities for high student academic achievement
- Building capacity for involvement
- Accessibility

Parent workshops and participation in committee work has been facilitated via in-person opportunities and online platforms to ensure continuity of communication on educational resources and student progress, support available to families, and school/district planning.

## Professional Development

During the 2023-24 school year, all Juvenile Court and Community School (JCCS) programs participated in a variety of professional learning to support teacher and staff development. These professional learnings included certificated and/or classified staff representation from all of the regions supported by JCCS, including Community Schools, Court Schools, San Pasqual Academy (SPA), and Monarch School. These professional learning opportunities focused on deepening our capacity for transformation teaching and learning and creating a positive school environment to support student success. Based on multiple measures of student achievement data, both at the state and local level, a strong emphasis is placed on content-area

## Professional Development

knowledge and pedagogical skills to improve student outcomes in English Language Arts (ELA), mathematics, and English Language Development (ELD). These opportunities are also aligned to the 2021-24 LCAP goals, specifically LCAP Goal 1 Excellence in Teaching and Learning and LCAP Goal 4 Support All Students.

To support curriculum, instruction, and assessment (CI&A), teachers and staff from each region participated in:

All-staff development days, in order to set and revisit vision and goals for the school year

Quarterly meetings to review and prepare for the upcoming quarter, as aligned to the JCCS Cross Content Scope and Sequence. These include curriculum (content) information and instructional practices across the four content areas.

Ongoing specialized training on the ELD standards and strategies of implementation to ensure the greatest impact for English Learners (Equity for Language Learners Collaborative - ELLIC; now referred to as the ELD Collaborative).

Training for English Language Development Assistants (ELD-A) to deepen knowledge and practice for classroom support

Ongoing training for Language Tree, an online program used to support our time for designated English Learner Development  
Ethnic Studies Division Curriculum Committee (DCC) to ensure understanding and best practices of Ethnic Studies, as well as develop curriculum ahead of the scheduled state deadline for the 2026-27 school year

Ongoing training and support for adopted curriculum across content areas, i.e.

for science/STEAM teachers to meaningfully plan and utilize the Discovery Ed curriculum

for our History/Social Studies DCC to meaningfully plan and utilize the IMPACT curriculum for grades 6-8, US History, World History, Government, and Economics

for math teachers to meaningfully plan and utilize the Pearson/Savvas curriculum

Specialized independent study (IS) teacher meetings to customize curriculum and instruction for students on independent study

Participate in the ELA DCC to pilot and adopt a new curriculum for the 2024-25 school year

Responsive support for the California Healthy Youth Act so that students can meaningfully participate in the "Rights, Respect, and Responsibilities" curriculum

Supporting opportunities to attain the Seal of Civic Engagement

Additionally, all teachers have access to our cadre of instructional coaches (i.e. CI&A team) who have both a regional and content area focus.

Reading Intervention

All coaches also support the intentional design of social emotional learning. There is also representation from the CI&A team, and support to teachers/staff, with Positive Behavior Intervention and Supports (PBIS), Ethnic Studies, and other areas as needed.

To support positive school culture and to ensure our schools are welcoming spaces to support all students, teachers and staff from each region participated in and/or engaged with:

Regional level meetings to reinforce Positive Behavior Intervention and Supports

JCCS wide meetings for PBIS teams to receive ongoing training and supports

Continued support and training, as needed i.e. new staff, of restorative practices to develop and refine common language, philosophies, and practices to support students and families and decrease exclusionary practices

District Equity Leadership Team (DELT) continues to create and implement systems of support for students' academic and behavioral needs.

Ongoing training and implementation of the PERTS survey, which is a survey tool that increases student engagement and elevates student voice. As a feedback tool, we hope to improve chronic absenteeism rates, increase positive school culture, enhance school safety for all staff and students, be responsive to student voices and needs, and monitor mental health and social-emotional learning. This aligns with our LCAP, WASC, and SPSA goals.

Teachers and staff at SPA, Community Schools, and Court Schools continued to receive reading and writing intervention training for REWARDS curriculum and reading intervention instructional strategies to integrate across content areas from a Reading Intervention Consultant and Instructional Coach.

In 2023-24, Soar YTC and East Mesa both received silver Tier 1 PBIS recognition.
