Standing Medication Order Parent Consent

7th and 8th Grade Students ONLY: Please check medication for permission

_____ Acetaminophen 1-2 tablet 325mg/chewable tablet 160mg (dosed by weight) for pain, headache._
_____ Tums/antacid (420mg calcium per tablet)
_____ Midol Complete 1-2 tablets

Dear Parents/Guardians,

The Pennsylvania school health guidelines and the State Board of Nursing in Pennsylvania require written orders from a physician or nurse practitioner for a student to receive medication in school. This includes over-the-counter medications. To help students with common complaints and minor injuries a standing order for Acetaminophen has been obtained. This means that a school physician wrote an order for school students to receive this medication within the following guidelines:

- Written approval will be required from the parent.
- No medication will be given more than two times during the school day.
- The nurse reserves the right to refuse to dispense medication at any time based on the assessment of the situation and every effort will be made to notify parents of this situation (i.e. repeated requests or overuse).
- This form must be signed and returned to the school. Please note this authorization is valid for the current school year and MUST be completed each school year.

I have read the standing order guidelines and I agree my student may receive this medication at school during the school day.
