

NOTICE OF CONSTRUCTION

Wood Middle School Construction and Modernization

Measure B Facilities Bond Project

UPDATE

In October, Alameda Unified School District (AUSD) notified you that there would be pile driving at Wood Middle School, 420 Grand Street. We are now informing you of the next (and final) phase of pile driving.

This next phase will begin January 13, 2025 and continue through mid-March 2025. (The end date is subject to change based on weather conditions.) Pile driving will cause a noise disturbance during construction hours. The entire construction project is expected to be completed in time for the 2026-2027 school year.

This complete rebuilding of the Wood campus will include:

- A new two-story classroom building, administration/library building, and gymnasium
- Removal of the current primary classroom building
- New landscaping, including green spaces
- A new access road connecting Otis Drive to Grand Street

For more information, visit our website at www.alamedaunified.org and search for "Wood Middle School construction." If you have any questions, please contact the AUSD Construction Department at (510) 337-7020 or by email at construction@alamedaunified.org.

We understand construction may cause some disruption, but we are excited to be building a modern learning facility that will benefit students and the community for years to come.
