Schools are not required to use this specific form; however, any form used must comply with the following requirement:

Students who have missed 20 consecutive school days prior to the count day cannot be claimed for state funding unless there is a written agreement between a school official and the student's parent/guardian that outlines how a student's temporary absences will not cause a serious adverse effect on their educational progress. When this agreement is in place prior or immediately after the student's absences begin, the student can be claimed for two monthly count dates provided the student returns to school by the end of the school year.

When claiming a student for state funding, a copy of this form needs to be filed with the school monthly P223 enrollment report for audit purposes, and scanned and saved on the S drive each month the student is claimed for funding.
