ALBUQUERQUE AVIATION ACADEMY NEWSLETTER

JANUARY 16, 2025

## Important Update: Changes to Testing Procedures This Semester

Attention, students and families! Starting this semester, we are implementing a new testing schedule to support consistent learning and progress throughout the term.

### Key Updates:

- Students will be assigned specific days to take each unit test.
- Tests will not be postponed, so it is essential to stay on track with Edgenuity coursework.

Think of Edgenuity as your textbook with assignments that can be completed at school AND at home. However, just like in a traditional school setting, you cannot fall behind and attempt to cram all your tests at the end of the semester. This approach does not support effective learning or academic success! Let's work together to stay on schedule and make the most of our learning experience.

Thank you for your cooperation!

## Squid Game Not Permitted!

At Albuquerque Aviation Academy we have a zero tolerance policy against violence of any fashion. Squid Game is an extremely violent dystopian show on Netflix. Mimicking the ideas and games in this show is not appropriate and will not be condoned at school.

Click [here](#) for more information!

## Important Semester Dates

The last day to submit a Course Change Request Form is Friday, January 31st.

Last day to drop a class without an F is March 14th (HS only).

1/21-3/7 Access for ELL's Testing (PED Assigned Students Only)

4/2 SAT & Science Testing for 11th Graders

4/7-4/17 iMSSA and Science Testing for Middle School

**NO SCHOOL**

**Monday, January 20th**

We are excited to share an important update regarding how you can stay informed about your student's progress. Did you know you can check your student's academic progress at any time on Edgenuity? This includes viewing the number of tests they've completed, how many they still need to take, and whether they missed a testing day for specific classes while on campus. Staying informed helps ensure your student stays on track for success and spells any rumors you may receive from your students that our teachers "do not let them take tests." Testing days are assigned this year to keep everyone on track!

Looking at this semester, we will also be sending home paper progress reports on a regular basis. These progress reports will require a parent or guardian signature and will count as a grade in your student's homeroom class. This change emphasizes the importance of reviewing and discussing your student's progress regularly.

We appreciate your partnership in supporting your student's education. If you have any questions or need assistance accessing progress information, please don't hesitate to reach out to us. Thank you for your continued involvement and support.

### This Week's Essential:

Have you heard your kiddo talking about our Weekly Essential?

## During assemblies, do not yell out to friends or talk to others.

# Calling All Outstanding High School STEM STUDENTS

## Are you an standout STEM student ready to showcase your skills and passion?

The National Museum of Nuclear Science & History is pleased to announce the Outstanding STEM Student Award. We are seeking two exceptional students enthusiastic about science, technology, engineering, and mathematics. The award recipients will be invited to attend our 2025 Einstein Gala.

To apply, high school students must submit a 500 word essay detailing why you believe you are an outstanding STEM student. Highlight your achievements, projects and what drives your passion for STEM. Two selected recipients will receive recognition at New Mexico's biggest science Party, the Einstein gala and support for their future endeavors.

**Deadline for submissions: January 31, 2025.**

Final decisions announced week of February 10, 2025

**For more information: [nuclearmuseum.org](http://nuclearmuseum.org)**

## Award Criteria

- Must be a current high school student
- Submit a 500-word writing sample
- Submit one letter of support from a mentor/teacher
- Commit to being present at the March 22nd Einstein Gala
