

PROJECT: Troy School District
Bid Package T2

DATE: January 13, 2025

TO: All Known Plan Holders

The purpose of this addendum is to clarify information that has been gathered after the release of the drawings and specifications for the Troy School District Bid Package T2. The following information is included in the Contract Documents.

Network Infrastructure Specifications Revision

Specifications section 27 2100 – Network Infrastructure has been revised for clarification as follows:

1. Part 2 – Products, Section 2.3 – Edge Switches
 - A. Provide powered stackable switches in each TR. Configuration shall be based upon the Cisco 9200L series, layer 3 switches.
 - B. **Two 10 GbE Fiber uplinks from each closet to building aggregation switch.**
 - C. 48-port 740 W PoE+ switches or switches as shown in the equipment schedule.
 - D. All ports support IEEE 802.3at-2009 Power over Ethernet (PoE+)
 - E. Provide optics, modules, and cables to interconnect all switches.

Base Bid Edge Equipment Schedule:

Switch Model	Quantity
Cisco C9200L-48P-4X	63
Cisco C9200L-48P-4G	65
Cisco 9300L-48UXG4X	63
Total number of edge switches	191
