Regarding: Superintendent Calendar Highlights

The purpose of this communication is to inform the Board of notable calendar items:

- Held interviews for the following positions: Director, School Leadership, Executive Director, Purchasing and Chief Information Officer
- Gave interview with Great Day, KMPH FOX, regarding start of school year
- Participated in a call with California Department of Finance to provide feedback on LCAP process
- Recorded interview with, Alexan Balekian, KSEE 24, to air on Sunday Morning Matters
- Spoke at the bus driver in-service
- Site visits to Addams, McLane, Nutrition Center, Slater, Starr, Thomas and Transportation
- Met with Trustees, District Staff and Fresno Police Department to discuss Student Resource Officers
- Attended Parent University 10 Year Anniversary Event

RE: *SSC's Sacramento Weekly Update*

Summer Recess

It was another relatively quiet week in Sacramento as the Legislature is finishing up the third week of their month-long Summer Recess. The Legislature will officially return to action on Monday, August 12, 2019, and will have just five weeks to get bills through the second house to Governor Gavin Newsom's desk.

PPIC Releases July 2019 Statewide Survey

On Monday, July 29, 2019, the Public Policy Institute of California (PPIC) released its monthly survey, which focused primarily on Californians views of environmental issues. While none of the questions directly relate to public education, the data still provides a glimpse of public perception about some of the other important issues facing the state.

The survey was conducted only weeks after Governor Gavin Newsom signed the 2019–20 State Budget Act into law, the first State Budget in his tenure as Governor. Despite a solid majority (56%) indicating that they approved of the Governor's revised State Budget plan in PPIC's May survey, the July polling finds that Newsom's approval ratings among likely voters remains unchanged at 47%. However, Newsom's disapproval rating among likely voters increased by two percentage points to 39%, while the other 14% of likely voters said that they do not know whether they approve or disapprove of the Governor's job performance.

The Legislature's approval rating rebounded from its low May numbers. According to the July data, 40% of likely voters now approve of the Legislature's job performance, a six point increase from May. However, a plurality of likely voters (48%) said that they disapprove of the way California's legislative branch is handling its job, with the other 12% saying they did not know.

With the state's 2020 Primary Election only seven months away, the survey also asked Democratic likely voters and independents who leaned Democratic,

which candidate they prefer. The results were split with U.S. Senator Kamala Harris (D-CA) as the current frontrunner at 19%, followed closely by U.S. Senator Elizabeth Warren (D-MA) at 15%, U.S. Senator Bernie Sanders (D-VT) at 12%, and former Vice President Joe Biden at 11%. California lawmakers passed a measure in 2017 that moved the state's primary election up by three months (from June to March), meaning that the 2020 primary will be the first time that California will be included among the "Super Tuesday" states.

In terms of the environment, nearly two-thirds (64%) of likely voters say that the threat of global warming has already begun and almost three-fourths (74%) of likely voters view global warming as a very serious (56%) or somewhat serious (18%) threat to the economy and quality of life for the state's future. These numbers correspond to the 71% of Californians that expressed that they are very concerned about wildfires that are more severe as a result of global warming and the 59% of likely voters who think that global warming has contributed to the state's recent catastrophic wildfires.

The survey also asked Californians about wildfire legislation that Governor Newsom recently signed into law. [Assembly Bill 1054](#) (Chapter 79/2019), signed by Governor Newsom on July 12, 2019, as part of a wildfire bill package, establishes a wildfire fund that will provide investor-owned utilities with at least \$21 billion to pay for future wildfire damages. The fund will be evenly split between utility investors and rate payers with ratepayers covering their half via a fifteen year extension of an existing monthly charge that was set to expire in 2021. Despite some of the bill's controversial measures, the survey finds that half (50%) of likely voters favor the new fund, while 41% disapprove, and 9% do not know.

The full results of the July 2019 PPIC survey, including how Californians feel about President Donald Trump, Congress, and other environmental issues can be found [here](#).

Special Election Set for 1st Assembly District on August 27

On June 19, 2019, Governor Gavin Newsom officially issued a proclamation declaring a Special Election for the 1st Assembly District of California. The primary will take place on Tuesday, August 27, 2019, and if no candidate receives a majority of the vote, the top two vote-getters will face off in a Special General Election on Tuesday, November 5, 2019.

The Special Election became necessary after then-Assemblymember Brian Dahle (R-Bieber) defeated fellow Republican Assemblymember Kevin Kiley (R-Rocklin) in the June 4, 2019, Special Election for the 1st Senate District. Since that election, Senator Dahle's former Assembly District has been vacant.

Five candidates met the July 3 deadline to formally declare for the open Assembly seat. Of those five candidates, four are Republican and only one is Democrat. Republicans are expected to hold on to the district, as the seat has been safely Republican since the 2011 redistricting by the California Citizens Redistricting Commission.

While Republicans are expected to retain the seat, Democrats will continue to hold a comfortable supermajority in both houses, regardless of the result. The current Assembly makeup is 61 Democrats to 18 Republicans while the Senate consists of 29 Democrats to 11 Republicans.

Robert Miyashiro

Note: It's important to note that since California controls its own school funding system, the state would not be required to reduce supplemental and concentration dollars under the Local Control Funding Formula, even if the federal government changes eligibility for the National School Lunch Program.

500,000 Children Could Lose Free School Meals Under Trump Administration Proposal

By Lola Fadulu
The New York Times
July 30, 2019

WASHINGTON — More than 500,000 children would lose automatic eligibility for free school meals under a rule proposed last week by the Agriculture Department intended to tighten access to food stamps.

The impact on school meals, revealed by Representative Robert C. Scott, Democrat of Virginia and the chairman of the House Committee on Education and Labor, was not disclosed when the proposed food stamp rule was published last week. Agriculture officials said the new rule would close a loophole that they said allowed people with high incomes and accumulated assets to receive food stamps. The Agriculture Department said the proposal would cut off an estimated 3 million people from food stamps, a figure that critics said would include tens of thousands of working poor families.

But the department said nothing about children from those same households who would automatically lose eligibility for free meals at school.

“It would very much be a double whammy for those children,” said Lisa Davis, the senior vice president of the No Kid Hungry campaign.

Mr. Scott said his staff members were made aware that students would lose their automatic eligibility for free school meals in a phone call on July 22 with staff members from the Agriculture Department. In a letter, he implored Sonny Perdue, the agriculture secretary, to disclose the figures as part of the department’s regulatory impact analysis, and restart the 60-day comment period.

“The effect on school meal eligibility represents an important technical finding that must be made public so that stakeholders have the opportunity to comment on all aspects of the rule’s impact,” Mr. Scott wrote.

The Agriculture Department has not revealed the number of children who could be affected by the proposal.

The department has said that the proposed rule for the Supplemental Nutrition Assistance Program, commonly known as food stamps, “ensures SNAP benefits go to those who meet the eligibility criteria as outlined by Congress, not millionaires or those who simply received a referral to a nonworking 800 number.”

To justify the rule, conservatives point to a millionaire from Minnesota, Rob Undersander, who said he received food stamps for 19 months even though he had significant assets.

Jonathan Butcher, a senior policy analyst at the conservative Heritage Foundation, said that the rule would ensure that the government was “providing resources to the children who are in need and not providing resources to those who are not in need.”

Right now, households that receive benefits or services from another federal welfare program, Temporary Assistance for Needy Families, are automatically eligible for food stamps in 39 states, the District of Columbia, Guam and the Virgin Islands. In some of those states, households with gross incomes up to 200 percent of the poverty line — which would be about \$50,000 for a family of four — are automatically eligible for food stamps. Children in those households are automatically eligible for free school meals, too; over 8 million children were directly certified for free school meals in this way in the 2016-17 school year. Not all of those who automatically qualify for food stamps or free school meals necessarily receive them though.

Under the proposal, fewer families would automatically qualify for food stamps, and in turn, fewer children would get free school meals. Children in households with gross incomes between 185 percent and 200 percent of the poverty line would no longer be automatically eligible for any food assistance at school. And children in households with gross incomes between 130 percent and 185 percent of the poverty line would be eligible for only reduced-price meals. Families would be charged a maximum of 30 cents for breakfast and 40 cents for lunch.

“Even that reduced price fee is very, very burdensome on families that are struggling to make ends meet,” Ms. Davis said.

The Agriculture Department estimates that schools serve about 34 million free and reduced-priced breakfast and lunch meals a day. Critics of the change worry that losing free school meals would negatively affect the children’s academic performance and health.

Healthy school meals “are proven to support academic success, obesity prevention and overall student health,” said Gay Anderson, the president of the School Nutrition Association.

Critics also worry that the proposal would worsen the debts already being accrued by families who have a hard time paying their school lunch fees. Episodes of “lunch shaming” — when children are publicly reprimanded for being unable to pay a school lunch bill, including by having their food thrown away — have occurred and have received news media coverage. This month, a Pennsylvania school district sent 1,000 letters to parents with outstanding lunch debt, threatening to take them to court and warning that their children could end up in foster care.

A cafeteria worker in New Hampshire said she was fired this year after she said she fed a student who could not pay. Other school districts have been criticized for serving students alternative meals, like cold cheese sandwiches, or for not feeding students at all if they are behind in their lunch payments.

Note: Glen Thomas, former Education Secretary under Governor Schwarzenegger, passed away last Friday at the age of 72.

Remembering Glen Thomas, Who Helped Shape California's Academic Standards

He served as Gov. Schwarzenegger's last education secretary.

By John Fensterwald
EdSource
July 31, 2019

In the [last column that he wrote for EdSource](#), in January, Glen Thomas listed the 10 elements that would be in his Marshall Plan for underperforming schools that he was proposing.

Thomas, who died on Friday at age 72 after a lengthy struggle with cancer, acknowledged that nothing on the list should be surprising, given 50 years of research in education: Clear expectations. Aligned curriculum. Teacher support. Assessment data. Quality preschool.

Sue Burr, a friend and associate of Thomas for many years, said the list includes areas in which Thomas himself made big contributions and serves as a testimony to his five decades as a leader in education in California.

Thomas rose to the job of assistant superintendent for curriculum and instruction, his area of expertise, at the California Department of Education, where he also served for a decade as executive secretary of the State Curriculum Commission. From 1998 to 2007, he was executive director of the California County Superintendents Educational Services Association, the organization that serves the state's county superintendents. In 2009, he became Gov. Arnold Schwarzenegger's last secretary of education, a largely advisory position that Gov. Jerry Brown discontinued after he took office.

Glen Thomas

Thomas' influence extended beyond job titles to two generations of colleagues he advised and mentored over the years, say his many admirers.

“There was subtlety about his leadership — getting people to change their own expectations and to ask more of themselves to work in greater capacity than before,” said Tom Adams, who followed Thomas in supervising curriculum frameworks and retired this year as deputy state superintendent.

“You could call on him for good advice. He was wise, patient and understanding of how the system worked,” said Sacramento County Superintendent Dave Gordon, a longtime friend who worked with Thomas at the Department of Education. “Glen was very effective in overcoming political gridlock. He could get the job done in a way that was consistently gracious.”

“He was influential because he was highly respected,” Burr said.

A psychology graduate of Biola University, an evangelical Christian university in La Mirada, California, Thomas got his master's degree in special education from Washington State University and his doctorate in education curriculum policy from the University of Southern California. After working with migrant children in Stanislaus County, Thomas joined the Department of Education. His expertise was in curriculum development when, under State Superintendent of Public Instruction Bill Honig, California was becoming a national leader in the academic standards movement.

Adams credited Thomas with reaching out to researchers at the University of California and national experts with different perspectives, such as history professor Diane Ravitch, for the first history and social science framework. He brought in teachers to serve on advisory committees and established an open process in adopting standards and curriculum frameworks. "He set a tone that no matter who was on committees, he was there to serve them," Adams said.

As head of the county superintendents organization, he encouraged county offices to take a larger role in training teachers in new academic standards and in teaching using state-adopted textbooks.

"County offices were viewed as dinosaurs. He brought them to the fore as we moved toward a devolution of state oversight before the Local Control Funding Formula," said Gary Hart, a former state senator and education secretary for Gov. Gray Davis.

Thomas became secretary of education in the last years of the Schwarzenegger administration, during the recession that brought deep cuts to education funding. One of his biggest challenges was to negotiate the adoption of the Common Core standards by a highly charged advisory committee under a tight deadline in the summer of 2010. Committee members included skeptics Schwarzenegger appointed and proponents named by the Legislature.

"It was a great example of how Glen transcended the political culture," Gordon said.

"He was apolitical in valuing diverse points of view," said Burr, who worked closely with Thomas before succeeding him as director at the superintendents' association. "I didn't know he was a Republican until he went to work for Schwarzenegger."

Thomas lived in Sacramento, where he and his wife, Connie, a 1st-grade teacher, raised two daughters. A memorial service for him will be held at 2 p.m. Aug. 4 at Fremont Presbyterian Church, 5770 Carlson Drive in Sacramento.

Note: On July 11, 2019, CalPERS reported that preliminary investment earnings for the 2018–19 fiscal year were 6.7%, falling below its forecasted 7% return.

CalPERS Loss Triggers More Debt Payment Reform

By Ed Mendel
Calpensions.com
July 29, 2019

Investments earning 6.7 percent during the fiscal year that ended June 30 might seem like a good return, particularly after an alarming stock market drop at the end of last year.

But for CalPERS it's a loss that creates new pension debt.

The big pension system currently needs earnings of at least 7 percent to balance its books for the year. So the small loss, .3 percent, creates a new layer of debt to add to the many layers of debt from previous years with investment losses.

The difference this year, however, is that under a reform adopted by the CalPERS board last year new debt from investment losses will be paid off over 20 years instead of 30 years, saving money in the long run.

The .3 percent loss will mean different dollar amounts of new debt when applied to the roughly 3,000 CalPERS pension plans, which vary in size and funding status. The plans cover state workers, most cities and counties, special districts, and non-teaching school employees.

As the CalPERS charts below show, under the previous policy the cost of paying off an investment loss of \$1 million would be \$2.7 million over 30 years. Under the new policy, the cost drops to \$2 million over 20 years.

The new policy is the second CalPERS reform since 2013, when the 30-year policy replaced an "open" or "rolling" policy to pay off or "amortize" debt from investment losses. The debt could be refinanced each year and theoretically might never be paid off.

"We moved a notch from basically 'unacceptable' to 'not recommended,'" Scott Terando, CalPERS chief actuary, told the board in November 2017, referring to how the switch from open to 30-year amortization is viewed under professional group guidelines.

Most California public pension systems use 15 to 20-year payment periods. Among 17 systems listed in a CalPERS staff report two years ago only the Los Angeles County Retirement Association had a 30-year payment period.

CalPERS board approval of 20-year debt payment was difficult because short-term employer costs would increase. Cities said rates, already at all-time highs and projected to increase, were forcing layoffs, program cuts and threatening the solvency of some cities.

Employer rate increases also can face resistance from powerful public employee unions, often a force on the 13-member CalPERS board. Some union officials argue that taking money off the bargaining table should be negotiated.

Failure to promptly pay down debt is one reason CalPERS funding has not recovered from heavy investment losses during a stock market crash and financial crisis a decade ago, despite a bull market of record length.

Pension funds that quickly recovered, such as the Wisconsin and Dutch systems regarded by some as models, not only promptly pay off debt from investment losses but also can cut pension payments to retirees if needed.

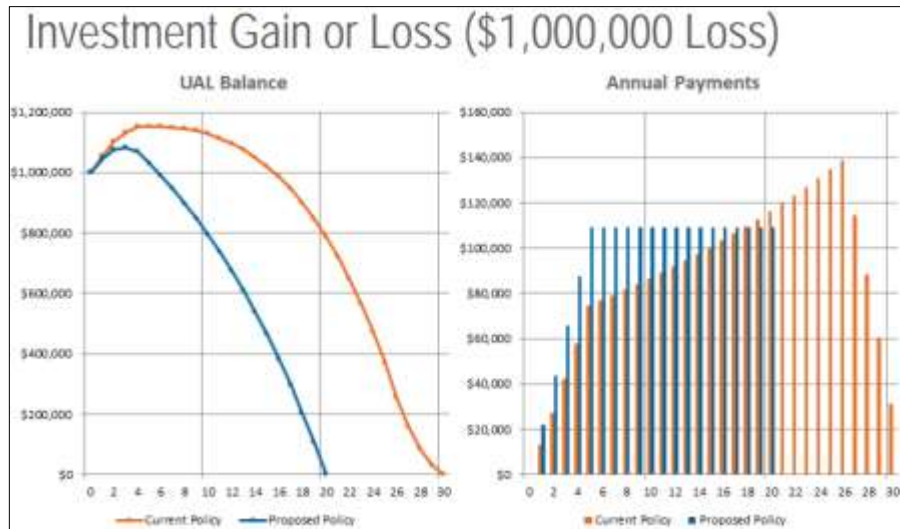

The CalPERS investment fund plunged from about \$260 billion in 2007 to \$160 billion in 2009. The funding level fell from 100 percent of the projected assets needed to pay future pensions to 61 percent.

Now CalPERS is still only 70 percent funded, even with investments valued at \$375 billion last week. Though CalPERS rebounded from losses to full funding in the past, conditions have changed. The loss was unusually large and CalPERS is a maturing system.

Retirees will soon outnumber active workers. Investment funds have grown much larger than the payroll on which employer rates are based. So replacing a loss requires an employer rate increase that takes a much bigger bite out of employer budgets.

The failure to get back to 100 percent funding, or even the traditional minimum of at least 80 percent funding, leaves CalPERS little cushion to absorb a deep economic downturn or major stock market drop.

At only 70 percent, CalPERS funding is more likely to drop below 50 percent, a red line experts say could be a crippling blow making a return to full funding difficult if not impossible.

Investment Gain or Loss (\$1,000,000 Loss)							
Policy	Period	Ramp		Escalation Rate	Initial Payment	Year 5 Payment	Total Payments
		Up	Down				
Current	30	5	5	3%	\$13,257	\$74,606	\$2.7 Million
Proposed	20	5	0	0%	\$21,864	\$109,320	\$2.0 Million

The CalPERS debt or unfunded liability, \$139 billion, is a slippery number. It would soar if the current earnings forecast used to discount future pension debt, 7 percent, was lowered to what critics say is a more likely return.

Pension debt also varies with how it's paid off. Under the previous 30-year CalPERS policy, debt continued to grow ("negative amortization") until about year 17. Then growing payments began to cover the interest and reduce the principle or original amount of the debt.

An important part of the new 20-year CalPERS policy is a payment switch from "level percentage of pay," which grows with the increase in salaries, to a "level dollar amount" that covers the interest and immediately starts reducing debt.

At the request of cities the CalPERS board changed the proposed 20-year policy to phase in the level dollar amount over five years, easing the strain of rising rates on local government budgets but also allowing debt to continue growing for five years. (see chart)

As with previous policies, CalPERS treats investment losses differently than debt resulting from “assumption” changes such as a lower discount rate, longer expected life spans, and increases in pension benefits.

The new 20-year policy for assumption changes doesn’t have a payment phase in allowing debt to grow for five years. In the example of paying off a \$1 million debt, not having a phase in drops the total cost from \$2 million to \$1.8 million.

Many of the 3,000 CalPERS plans have a dozen or more layers of debt, each with its own amortization period. In a single year one or more layers may be added, while one or more layers may be paid off.

CalPERS encourages early payments by showing savings from shortening amortization periods to 20 years formerly and now to 15 years and 10 years. Employers have the option of collapsing several debt layers into one new layer for a “fresh start” on amortization.

If employers are struggling to make their CalPERS payments, the new policy has a “hardship” provision that, when criteria is met, allows debt payments to be extended, cutting costs in the short term but increasing them in the long run.

In years when investment earnings exceed the 7 percent target, the gain is used to reduce debt. Because losses can be reduced by future gains, CalPERS has treated losses differently than assumption changes.

“Ideally, the positives and the negatives offset one another,” Terando, the chief actuary, said last week. “So you have a loss one year followed by a gain the next year. As you amortize those, they are offsetting payments.”

Under a new “risk mitigation” policy that begins this fiscal year, when investment earnings exceed 9 percent the discount rate will be lowered slightly, dropping more as the amount over 9 percent increases.

The goal is to slowly allow a shift to lower-yielding investments with less risk of a big loss like the one a decade ago. Employer contributions would not be raised until two years after the gain over 9 percent.

A similar two-year lag, needed by actuaries to check the data for the 3,000 plans and give employers some advance notice, means the .3 percent loss last fiscal year will not begin raising employer contributions until fiscal 2021-22.

Since the funding problem began in 2007, CalPERS liabilities have increased roughly 6 1/2 percent a year while assets increased about 3 1/2 percent a year, Terando said. But since the stock market crash, assets have been growing faster than liabilities the last eight to ten years.

After sinking to 61 percent the funding level has been increasing at the rate of about 1 percent year. Terando said CalPERS has tried to improve funding at a reasonable pace while keeping employer contribution rates affordable.

When the funding level was 61 percent, said Randall Dziubek, deputy chief actuary, the CalPERS discount rate was 7 3/4 percent and the estimates of expected life spans were well off the mark.

“So really we were not 61 percent funded,” said Dziubek. “We were probably 50 percent funded, if we knew then what we know now. So there really has been more of a recovery than what it looks like.”

Fresno Unified School District
Board Communication

BC Number AS-2

From the Office of the Superintendent
To the Members of the Board of Education
Prepared by: Ruth F. Quinto, Deputy Superintendent/CFO
Phone Number: 457-6225
Cabinet Approval: 

Date: August 09, 2019

Regarding: District's Bond Rating Affirmed by Moody's Investor's Service and the General Obligation Measure X Bond Sale

The purpose of this communication is to inform the Board that Fresno Unified School District's Aa3 rating was affirmed by Moody's Investor's Service and to provide the Board an update on the issuance and sale of Measure X General Obligation Bonds.

In the Moody's Investors Service update to potential investors dated July 25, 2019, the credit opinion labeled the district's outlook as "stable". Moody's noted, "the district has historically outperformed projections, and satisfactory financial performance is supported by the district's adopted reserve policy. Favorably, a three-year settlement agreement through fiscal 2022 with the teachers' union, under which teachers will share in a portion of cost-of-living increases in state funding, enhances budgeting certainty." The rating report also stated factors contributing to "the district's ability to maintain stable operations."

In the summary, the Moody's report noted the district's elevated debt, pension and other post-employment benefits (OPEB) challenges are partially offset by increasing balances in an OPEB trust.

The complete report issued by Moody's Investors Services is attached.

Subsequently, on August 8, 2019, Fresno Unified School District completed a successful sale of the General Obligation Bond, Election of 2016, Series B in the amount of \$75,000,000 to provide funds for educational facility improvements. The district's lead underwriter noted the "diversity of orders and participation by several credit-sensitive investors and favorable interest rates speaks to a strong underlying tax base and management". Due to the favorable timing of the bond sale, and favorable interest rates, the savings from June 2019 and up to last week was approximately \$13.1 million and \$7.0 million, respectively. Overall the finalized sale had 3.2 times the orders over the offering, which indicates a high volume of investors for Fresno Unified Bonds.

The district's assessed valuation growth over last year was 3.4% and the tax rate of \$188.86 per \$100,000 assessed valuation was confirmed by the County to remain unchanged.

If you have any questions or require additional information, please call Ruthie Quinto at 457-6226.

Fresno Unified School District, CA

Update to credit analysis

Summary

[Fresno Unified School District](#) (Aa3 stable) benefits from a large tax base for which growth is outpacing state averages, and a satisfactory financial position that has significantly benefitted from higher state aid allotments despite declines in enrollment. Following an operating deficit in fiscal 2018, largely reflecting a spend down of one-time state aid, continued operating deficits are conservatively projected through fiscal 2022. However, the district has historically outperformed projections, and satisfactory financial performance is supported by the district's adopted reserve policy. Favorably, a three-year settlement agreement through fiscal 2022 with the teachers' union under which teachers will share in a portion of cost-of-living increases in state funding, enhances budgeting certainty. The district's debt, pension and OPEB liabilities remain elevated, with slower debt amortization, although the district has made modest contributions into an OPEB trust.

Credit strengths

- » Large and growing tax base
- » Reserve policies that should help preserve a stable financial position
- » Settled teacher contracts that reduce budget uncertainty

Credit challenges

- » Projected operating deficits through fiscal 2022
- » High debt burden with slow amortization
- » Below average socioeconomic profile with high rates of poverty
- » Rising pension and OPEB costs

Rating outlook

The stable outlook reflects expectations for continued tax base expansion, stabilized enrollment figures, and the district's ability to maintain stable operations with slower growth in state aid with continued outperformance of budgeted figures.

Factors that could lead to an upgrade

- » Trend of significant growth in assessed valuation
- » Significant improvement in socioeconomic measures
- » Sustained strengthening in the district's financial position

Factors that could lead to a downgrade

- » Deterioration in the district's financial position, including reserve levels and/or cash position below the current forecast or reserve policy
- » Significant increase in the district's debt burden

Profile

Fresno Unified School District serves the [City of Fresno](#) (A3 stable), a small portion of the City of Clovis, and unincorporated areas of Fresno County. The district is the fourth largest public school district in California by enrollment serving approximately 74,247 students including preschool (fiscal 2019) in 103 schools.

Detailed credit considerations

Economy and tax base: growing, substantial tax base with increasing employment but low income levels

Fresno Unified School District's sizeable tax base should continue to expand, supported by job and housing growth that rank among the highest in the state. Job growth in the logistics industry has been particularly strong, attracted by Fresno's favorable land costs and location within a day's drive of nearly the entire state. Amazon, Ulta Beauty and Gap have opened distribution centers that are expected to add a total of around 3,500 new jobs, diversifying employment away from the area's historical concentration in agriculture. Hiring in health care and hospitality has also been strong, outpacing state figures. While not a significant component of the district's

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the ratings tab on the issuer/entity page on www.moody's.com for the most updated credit rating action information and rating history.

tax base, steady demand for products from the area's large agriculture and food-processing industries has supported employment growth.

Despite expanding employment however, average hourly earnings have not increased over the last two years. Wealth levels remain low and continue to edge downward, with a median family income at 57.8% of the US, which is typical of agricultural areas and falls below similarly rated districts. At 7.1% as of June 2019, the area's unemployment rate exceeds that of the state (4.1%) and US (3.8%), and a third of the population falls below the poverty line.

The district's assessed value (AV) fell sharply during the recession, and only regained its prior peak in fiscal 2017. Recent growth, however, has been stronger, with sustained, average annual increases of 4% over the past six years, as AV has grown from a recession low of \$16.8 billion to over \$21.3 billion in fiscal 2019. Rising employment has supported appreciation in housing prices, and housing permits are expected to trend higher over the next few years. The median housing price within the City of Fresno, currently equal to \$255,000, increased 6.3% in April 2019 over the prior year. AV per capita, however, remains low at \$54,670.

Nevertheless, AV will continue to increase given the positive trends in single-family home prices in the area. The district's tax base is diverse, with the ten largest taxpayers comprising a low 3.2% of the district's total 2019 AV. The largest taxpayers consist of commercial, multi-family and industrial property owners.

Financial operations and reserves: reduced state aid growth will be challenging, but uncertainty around future financial performance reduced by multi-year labor agreement and adopted reserve policy

After reaching a peak in fiscal 2017, ending reserve levels are projected to decline through fiscal 2022, as the district spends down one-time state aid allocations, implements wage increases, and addresses rising special education and pension costs. Favorably, however, a three-year labor agreement and the district's conservative budgeting practices reduce future uncertainty and should help ensure that ending reserves remain within the district's adopted policy maintaining a reserve ranging between 5% and 10%. This exceeds the state minimum requirement of 2% for the district. Management asserts that the reserve for economic uncertainty should be at least 10% when revenues to the district from the state are strong, and historically reserve levels have been consistent with this approach.

The district is entitled to significant additional funding under the Local Control Funding Formula (LCFF), which increased revenues to the district through at least fiscal 2019. The district has a high unduplicated count of 88.9%, which entitles the district to supplemental and concentration funding from the state. One-time funding equaled \$15.7 million in fiscal 2017, \$9.8 million in fiscal 2018, and \$5 million in fiscal 2019, although the district has conservatively assumed no one-time revenues in its fiscal 2020 budget. District management has prudently allocated these resources for one-time purposes and added to reserves for years of greater economic uncertainty. Both practices help support long-term financial stability.

Notably, the district ended fiscal 2018 with a general fund reserve of \$149 million, representing 16.1% of revenues. While this falls somewhat below a median for similarly rated districts nationally of closer to 21%, this in part reflects that large scale of the district. Unaudited results for fiscal 2019 reflect an operating deficit of \$11.7 million reducing this figure to 14% of revenues, with consecutive operating deficits through fiscal 2022, reflecting further reductions to 4.6%, or just slightly above the state required minimum of 2%. However, the district typically outperforms its projections and has maintained reserves in line with its adopted policy. Nevertheless, the district's financial position and expectations for continued out performance of budgeted figures will remain a salient factor in future reviews and could result in weakened credit quality.

Favorably, current projections include a three-year labor contract through fiscal 2022 that reduces the uncertainty of future performance, accommodate increases in benefit costs and strengthens the upside performance potential for budget to actual figures. Following a 3% increase for fiscal 2019, the three year-agreement provides a 1.5% one-time pay increase and then awards teachers 1% of any state cost-of-living (COLA) adjustment less amounts set aside for benefit increases, up to a maximum of 3% annually. The district estimates that in fiscal 2020, out of a total \$19.7 million COLA increase, teachers will be awarded \$5.9 million in pay increases. In a year in which labor negotiations have resulted in impasse or strikes, the district's ability to negotiate a long-term contract with benefits linked to both COLA benefit adjustments is supportive of credit quality.

In common with other urban districts within the state, long-term financial stability will in part hinge on stabilizing enrollment. District average daily attendance (ADA), a key metric in determining the amount of state funding the district receives, has stabilized, although

additional declines of 2% in total are conservatively projected over the next ten years. Not included in future projections is enrollment in the district's new pre-school program, which should help to increase future enrollment as well as academic stability.

Charter school enrollment remains a factor for the district as well, although not to the same extent as with other urban districts across the country. Currently, around 8% of district students are enrolled in charter schools, which largely attract students seeking specialized curriculum or environments. The district has implemented a number of programs to compete with charter school offerings including strong magnet programs, and a dual enrollment program with Fresno's community college. Positively, over 1,000 students are enrolled from outside the district, indicating the strength of the district's offerings.

LIQUIDITY

The district's liquidity remains favorable, and has generally improved along with reserve levels. Net cash and investments exceeded \$350 million or a favorable 26% of revenues in fiscal 2018, falling slightly below a statewide median of 28.5% for Aa3-rated school districts. Enhancing the district's liquidity is approximately \$60 million of other funds available for the district, if needed, to manage any liquidity issues. Historically, the district has successfully managed its cash without loans from the county or issuance of short-term notes.

Liquidity is expected to remain stable, and the district's borrowable liquidity will continue to benefit its operations.

Debt and pensions: elevated debt, pension and OPEB liabilities partially offset by increasing balances in an OPEB trust

The district's debt levels will remain relatively high given remaining authorization of \$90 million from Measure X. Overall debt burden exceeds 4% inclusive of the anticipated issuance of the Election of 2016, Series B bonds, exceeding a median of 3% for similarly rated districts nationally.

DEBT STRUCTURE

All of the district's debt is fixed-rate. Amortization is slightly below average with 36.2% of principal repaid over the next ten years. The district's debt includes capital appreciation bonds structured with the objective of maintaining an estimated aggregate tax rate target of less than \$188.86 per \$100,000 of AV and assumes AV growth of 2.0% for 2019-20 and 3% annually thereafter. These assumptions are realistic given the district's historical growth trends.

DEBT-RELATED DERIVATIVES

The district has no debt-related derivatives.

PENSIONS AND OPEB

While fixed costs are currently manageable, pension-driven budgetary pressures could prove burdensome given the district's above average pension and OPEB liabilities. In fiscal 2018, fixed costs for the district including pension and OPEB contributions totaled 11.9% of general fund revenues, a still manageable, but increasing figure.

Moody's adjusted net pension liability (ANPL) for the district, under our methodology for adjusting reported pension data, exceeds \$2.3 billion, or an above-average 2.2 times three-year average operating revenues.

The district's fiscal 2018 pension contribution of \$74 million equals an improved 78% of Moody's "tread water" indicator, highlighting pension costs that could remain a budget pressure. The "tread water" indicator measures the annual contribution required to prevent the reported net pension liability from growing, under reported assumptions. Contributions below our "tread water" indicator, as is the case for Fresno USD, fail to pay down accumulated pension liabilities.

The district's OPEB liability remains exceptionally high at 1.3 times operating revenues and will continue to be a budgetary burden on the district's long term financial operations, although continued contributions to an OPEB trust and recent adjustments to the district's OPEB plan improve the long-term outlook for this obligation.

Importantly, management adjusted its OPEB offering to new employees in July 2005, which capped costs and limited long-term benefits. Additionally, the district continues to contribute to an OPEB trust, with a current balance of close to \$48.4 million, up from an initial transfer of \$20 million made in 2014. Given the size of the OPEB liability, we expect that it will remain a budgetary burden, but one that district management is willing to address and will likely manage effectively.

Management and governance

OPERATING HISTORY

The district's five-year average of operating revenues to expenditures equals 1.02x through fiscal 2018, demonstrating strengthened financial performance supported by increased state aid. However, this figure is likely to weaken going forward given operating deficits beginning in fiscal 2018 that are projected to continue through fiscal 2022.

INSTITUTIONAL FRAMEWORK

California school districts have an institutional framework score of "A," or moderate. Districts' ability to raise revenues is moderate, since funding levels are set by the state and local revenue-raising is limited to voter-approved parcel taxes or fundraising. Revenue predictability is moderate, with highly predictable property tax revenues offset by the state's ability to make unexpected funding and disbursement reductions. Expenditures primarily consist of personnel costs, which are highly predictable. Districts have a moderate ability to reduce expenditures due to pressures from collective bargaining and state rules that effect the timing of staff reductions.

Rating methodology and scorecard factors

The [US Local Government General Obligation Debt methodology](#) includes a scorecard, a tool providing a composite score of a local government's credit profile based on the weighted factors we consider most important, universal and measurable, as well as possible notching factors dependent on individual credit strengths and weaknesses. Its purpose is not to determine the final rating, but rather to provide a standard platform from which to analyze and compare local government credits.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$2,700,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657 AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for ratings opinions and services rendered by it fees ranging from JPY125,000 to approximately JPY250,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Fresno Unified School District
Board Communication

BC Number C-1

From the Office of the Superintendent
To the Members of the Board of Education
Prepared by: Amy Idsvoog, Executive Officer 
Cabinet Approval:

Date: August 09, 2019

Phone Number: 457-3498

Regarding: Active Assailant Response Plan

The purpose of this communication is to provide the Board details around the district's communication procedures in the event of an active assailant incident. The information provided below supports the district's existing crisis communication procedures as outlined in a board communication on April 12, 2019. The active assailant response plan was established in conjunction with Fresno Unified's district-wide Run Hide Fight training.

The Fresno County Sherriff's Department first conducted the district's Run Hide Fight training via live stream video on August 8, 2018. The hour-long training was recorded and placed on the Safety and Security Department website. It is required viewing for new hires and is available to watch as a staff refresher training.

In addition, the Fresno County Sherriff's Department provided principals with a second-tier training on August 27, 2018. Site leaders were then responsible for conducting the same training with their staff by September 28, 2018.

In Fall 2018, in conjunction with the Fresno Police Department, student resource officers (SRO) and student neighborhood resource officers (SNRO) conducted age appropriate assemblies with students in grades 7-12. The assembly focused on the theme of "see something, say something" and showed a short video describing what to do in the event of an active assailant on campus. That training will be repeated this school year. This video has also been added to new hire orientation as an introduction to our district-wide training. Employees are then required to return to their departments/sites and watch the hour-long training video as part of their onboarding process.

In addition, school site safety plans require schools to conduct lockdown, fire and earthquake drills throughout the year. Lockdown drills are required four times a year before/after school, at lunch, and during instructional time.

In the event of an active assailant, a response plan is in place. The plan outline includes:

Step 1: News of a potential active assailant is received by public information officer (PIO), who alerts safety manager, chief information officer (CIO) and superintendent.

Step 2: PIO, safety manager, CIO and superintendent immediately respond to the incident. For safety reasons, we ask that district staff, including district leadership and Board members, refrain from responding to the scene. Leaders will need to remain with their department teams to assist in keeping staff informed, safe and calm.

Step 3: Communications sends first message with preliminary information to instructional superintendents, cabinet and Board members. The message will serve as initial talking points and provide future instructions. Similar messaging will then go out to staff and parents via Rapid Alert, School Messenger, fresnounified.org and social media.

Step 4: Remaining members of the communications team will establish a command center location, craft ongoing messaging, monitor social media and news reports and deploy the response team as needed.

The team includes:

- Equity and Access for district data purposes
- Food Services
- Health Services/American Sign Language
- Human Resources
- IT support for website, ATLAS, Lawson and equipment needs
- Legal
- Maintenance/Operations/Safety
- Psych support
- Parent University for Hmong and Spanish translators to assist with messaging
- Transportation

Local law enforcement will serve as incident commanders. Information may be slow based on the scope of the incident. Police will speak to media and provide initial updates, which we will then share through our communication tools.

Step 5: Response team will prepare and execute a large-scale reunification when permitted.

Step 6: End-of-day debrief will take place and an outline for next steps provided, including updated talking points, messaging, site and department supports.

The active assailant response team met on July 31, 2019 prior to the start of school to review the plan and update the team's contact list.

Should you have any questions, please contact Amy Ildsvoog at 457-3498.

Approved by Superintendent
Robert G. Nelson Ed.D.

Regarding: Academic Performance: 2018/19 Smarter Balanced Assessment Consortium and English Language Proficiency Assessment for California

The purpose of this communication is to provide the Board with information regarding academic metrics for Fresno Unified School District.

The metrics included in this presentation are:

- Five years of Smarter Balance Assessment Consortium (SBAC) performance data in English Language Arts (ELA) and mathematics; 2018/19 SBAC data is preliminary with 97% of scores reported
 - Proficiency
 - Proficiency represents students who received a scale score that met or exceeded achievement level standards for that grade level and content area
 - Distance from Standard (DFS)
 - DFS is a growth metric calculated by taking each student's scale score on ELA, and separately, math, and subtracting it from the scale score needed to meet standards for that grade level. The student DFS results are then averaged across students in a district, school, or student group, to get the overall DFS result. DFS represents the average distance between all student test scores and the lowest possible scale score for the standard met achievement level for that grade level and content area. The Academic Indicator on the California Dashboard is based on DFS.
- 2018/19 English Language Proficiency Assessment for California performance data

Several reports are also included:

- SBAC ELA Performance, Status, and Change by Region and School (D1)
- SBAC Math Performance, Status, and Change by Region and School (D1)
- SBAC ELA Performance, Status, and Change by Student Group by Region and School (D3A)
- SBAC Math Performance, Status, and Change by Student Group by Region and School (D3A)

If you have further questions or require additional information, please contact Lindsay Sanders at (559) 457-3471.

Approved by Superintendent
Robert G. Nelson Ed.D.

DISPROPORTIONALITY CALCULATION

- Recently, CDE has adopted a new risk ratio (disproportionality) that we have begun to implement.
- Previously we looked at how many students in a particular population group was being represented in a specific data measure... i.e. unique students suspended. We would compare that to how they were represented in the overall district population.
- CDE's method looks how a particular population group is represented in a specific data measure (unique students suspended) as well as how they are represented in the overall population. That is then compared to all students not in that specific population group but who are represented in that specific data measure (unique students suspended) as well as how all students not in that specific population group are represented in the overall population of the district.
- Ideally, we would want each group to have a disproportionality ratio of 1.0. This means that the population group is being equally represented in that specific data measure as they are in our total population. The higher the ratio the higher they are being represented. For example, a ratio of 2.0, means that particular population group is being represented twice as much in the specific data measure as they are in our total population.

$$\left(\frac{\text{Students suspended in a specific race/ethnicity group}}{\text{Students in the same race/ethnicity group in general education}} \right) \times 100$$

$$\left(\frac{\text{Students suspended **NOT** in a specific race/ethnicity group}}{\text{Students **NOT** in the same race/ethnicity group in general education}} \right) \times 100$$

DISPROPORTIONALITY CALCULATION FOR ELA SBAC: BY ETHNICITY/RACE, 2017/18-2018-19

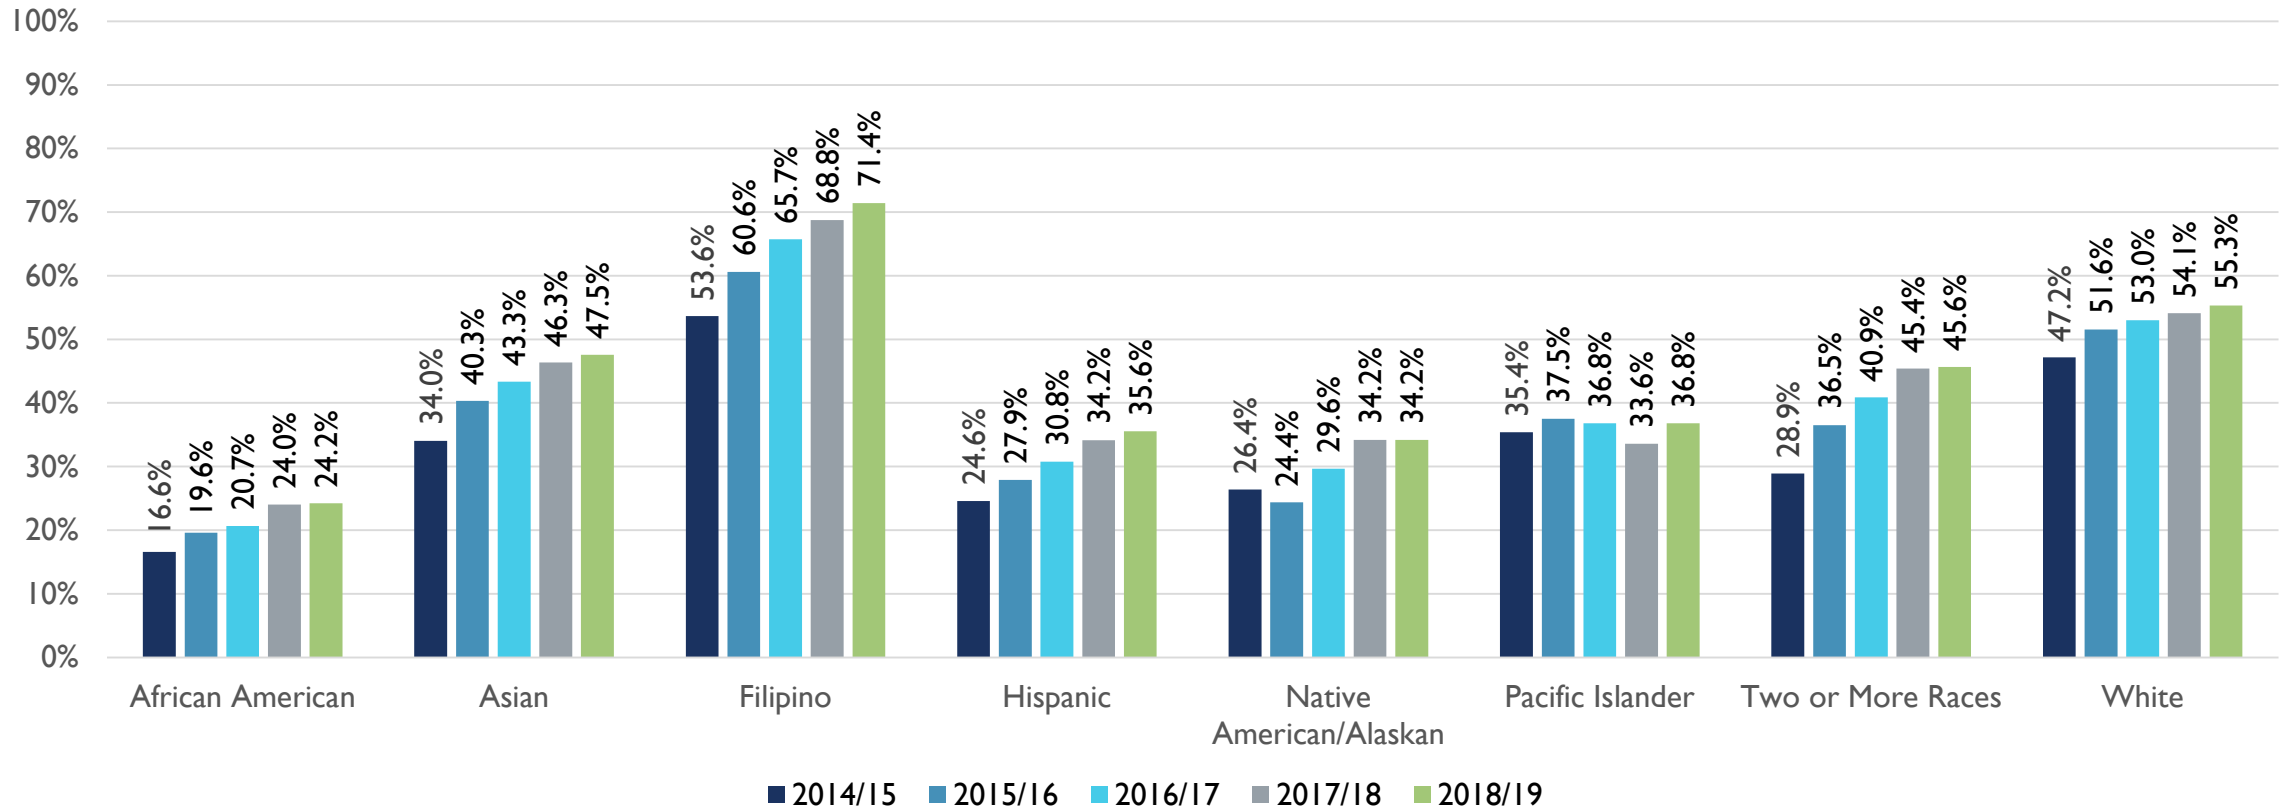

Race/Ethnicity	5-Year Proficiency					Disproportionality

2018/19 ELPAC PERFORMANCE

ELPAC SUMMATIVE ASSESSMENT

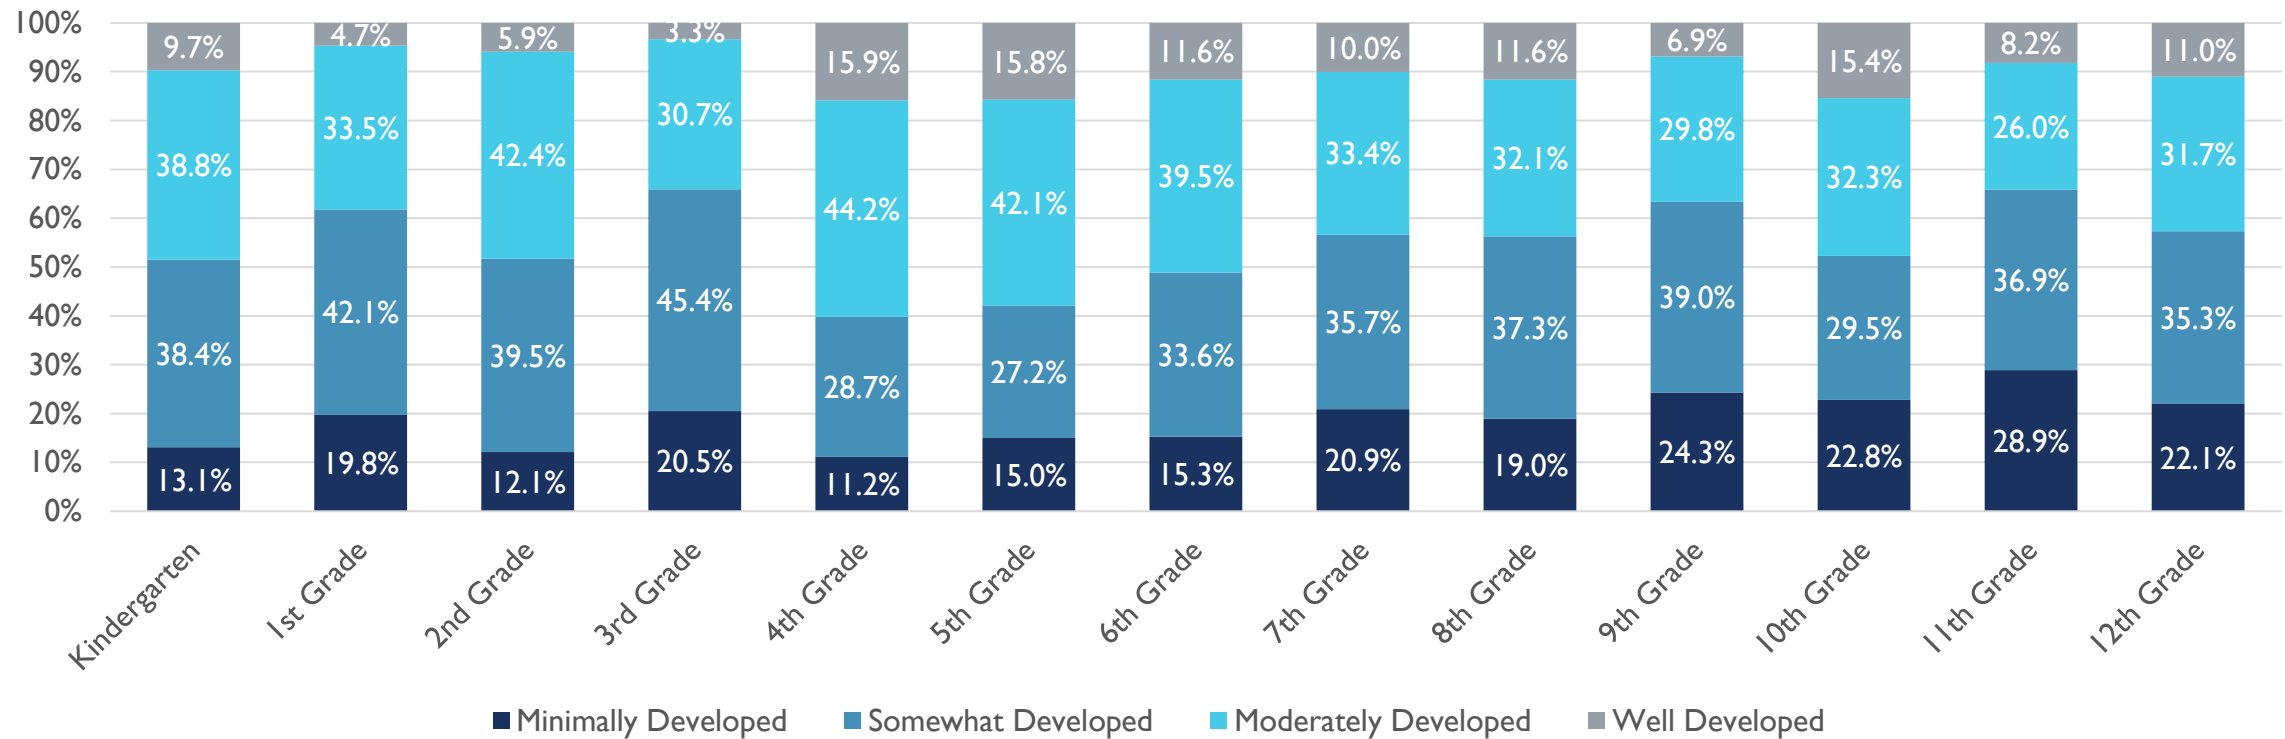

- Only students identified as English Learners take the ELPAC Summative Assessment
- ELPAC Summative Assessment has four performance levels:
 - Level 1: English learners at this level have **minimally developed** oral (listening and speaking) and written (reading and writing) English skills
 - This test performance level corresponds to the “Emerging” proficiency level, as described in the California English Language Development (ELD) Standards.
 - Level 2: English learners at this level have **somewhat developed** oral and written skills
 - This test performance level corresponds to the mid- to low-range of the “Expanding” proficiency level, as described in the ELD Standards.
 - Level 3: English learners at this level have **moderately developed** oral and written skills
 - This test performance level corresponds to the lower range of the “Bridging” proficiency level through the upper range of the “Expanding” proficiency level, as described in the ELD Standards.
 - Level 4: English learners at this level have **well developed** oral and written skills
 - This test performance level corresponds to the upper range of the “Bridging” proficiency level, as described in the ELD Standards.

Math Status for Distance from Standard	
Grades K-8	Grade 11
Very High = 35 points or more	Very High = 25 points or more
High = 0 to 34.9 points	High = 0 to 24.9 points
Medium = -25 to less than 0 points	Medium = -0.1 to -60.0 points
Low = -95 to -25.1 points	Low = -115 to -60.1 points
Very Low = -95.1 points or less	Very Low = -115.1 points or less

Change for Average Distance from Standard ¹
Increased Significantly = Increased by 15 points or more
Increased = Increased by 3 to 14.9 points
Maintained = Declined by -2.9 or increased by 2.9 points
Declined = Declined by -3 to -15 points
Declined Significantly = Declined by more than -15.1 points

1 - These terms are defined by the California Dashboard and school sites must have 2 years of data in order to have a color.

*The results for groups with less than 11 test takers should be interpreted with caution.

**The Average Distance from Standard values are rounded to the nearest tenths place.

Blank cells indicate that no students participated in the assessment.
This report includes preliminary data for the 2018-19 school year.

ELA Status for Distance from Standard ¹	
Grades K-8	Grade 11
Very High = 45 points or more	Very High = 75 points or more
High = 10 to 44.9 points	High = 30 to 74.9 points
Medium = -5 to 9.9 points	Medium = -0.9 to 29.9 points
Low = -70 to -5.1 points	Low = -45 to -1 points
Very Low = -70.1 points or less	Very Low = -45.1 points or less

1 - These terms are defined by the California Dashboard and school sites must have 2 years of data in order to have a color.

Change for Average Distance from Standard ¹
Increased Significantly = Increased by 15 points or more
Increased = Increased by 3 to 14.9 points
Maintained = Declined by -2.9 or increased by 2.9 points
Declined = Declined by -3 to -15 points
Declined Significantly = Declined by more than -15.1 points

*The results for groups with less than 11 test takers should be interpreted with caution. Blank cells indicate that no students participated in the assessment.

**The Average Distance from Standard values are rounded to the nearest tenths place. This report includes preliminary data for the 2018-19 school year.

Fresno Unified School District
Board Communication

BC Number EA-2

From the Office of the Superintendent

Date: August 09, 2019

To the Members of the Board of Education

Prepared by: Andrew Scherrer, Executive Director of Equity & Access

Phone Number: 457-3842

Cabinet Approval:

Regarding: Dimensions of Equity Update(s)

The purpose of this communication is to provide the Board an update regarding Equity and Access's Dimensions of Equity (DofE) Steering Committee, and outlined actions for the 2019/20 school year and beyond in order continue an interdepartmental approach to building coherence and ensuring equity is the intentional result of all district-wide decisions.

The DofE recommended an Equity Board Policy (0415) to the Board for approval after receiving CSBA recommendations, as well as input from students, parents, and community members. In order to support the Equity Board Policy, the DofE is engaging in building an Administrative Regulation (AR) that includes steps to ensure translation of the policy into action. One initial element of the AR is the foundational NAVEX Diversity and Inclusion training to our 700+ site and district leaders throughout the system by the end of the first quarter of the 2019/20 school year.

The AR will also include the systemization of processes, curriculum, and vendors related to equity, diversity, and inclusion through an MTSS framework in order to consistently evaluate opportunities and resources for use. Tiers are as follows:

- Tier 1 is the DofE provided trainings regarding Cultural Proficiency, as well as fundamental resources and training across the district in phases. Phases include NAVEX in the first quarter, leader training to all principals and additional administrators over four sessions throughout the year, and the introduction and side-by-side planning of Teaching Tolerance's student-oriented Social Justice standards with a DofE Student Committee, teacher groups, and in collaboration with Curriculum and Instruction.
- Tier 2 is framed by differentiation and intervention, and will include a menu of supports, resources, and optional professional learning available in response to needs and interests across the district. These supports will be assessed by the DofE and processed as Tier 2 avenues in times of both pro-action as well as response.
- Tier 3 will be a cross-departmental investigation and response team determined by region and guided by the DofE. The design of the response team will be completed for second semester of 2019/20 in order to allow for Tier 2 resources to be evaluated then utilized as part of the response.

The DofE Advisory Team has been attending Cultural Proficiency Trainer-of-Trainer trainings in order to coordinate the process of introducing this work into our system. These trainings began in September 2018 and will culminate in September 2019. The remainder of the committee has committed to the same trainings. These trainings will begin in October 2019. The DofE Steering Committee will use monthly meetings to continue the strategic rollout of equity work through the remaining avenues of Certificated Staff, Classified, Staff, Parents/Guardians, Community Members, and Students. The

committee is committed to engaging all groups with strategic partnership, subcommittees, and interdepartmental partnerships.

Date: _____

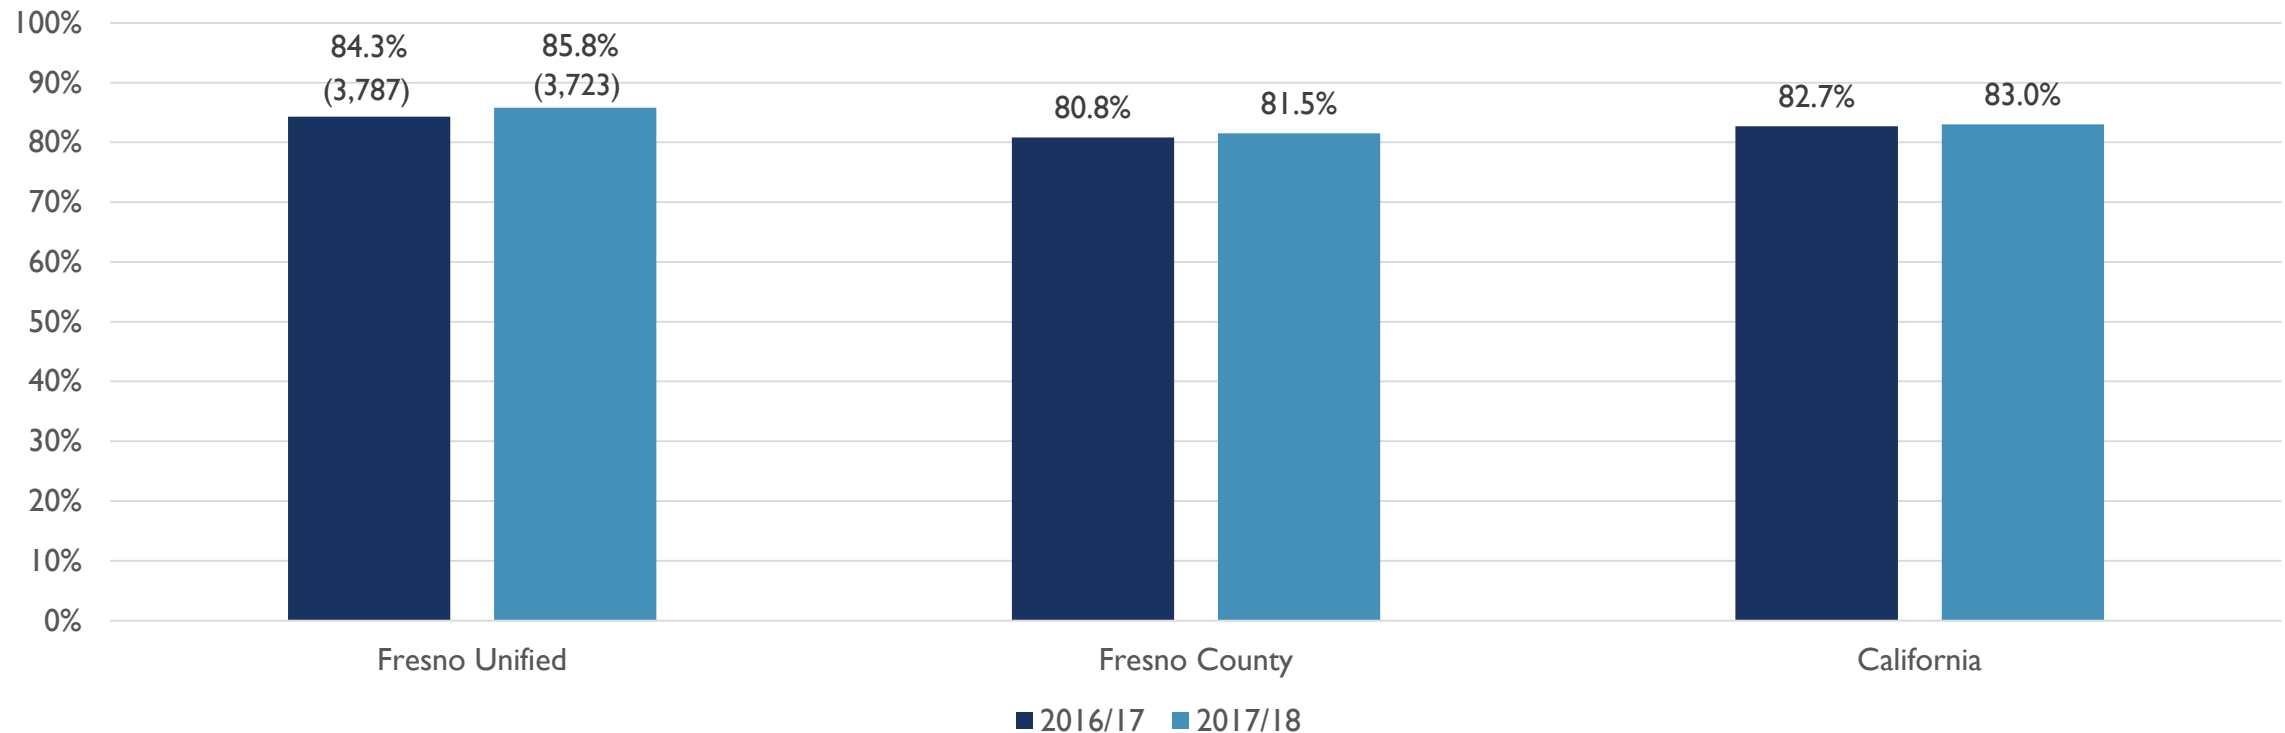

COLLEGE AND CAREER PERFORMANCE GRADUATION RATES 2016/17 TO 2017/18

PREPARED BY EQUITY AND ACCESS

AUGUST 9, 2019

GRADUATION RATES: OVERALL DISTRICT, 2016/17-2017/18

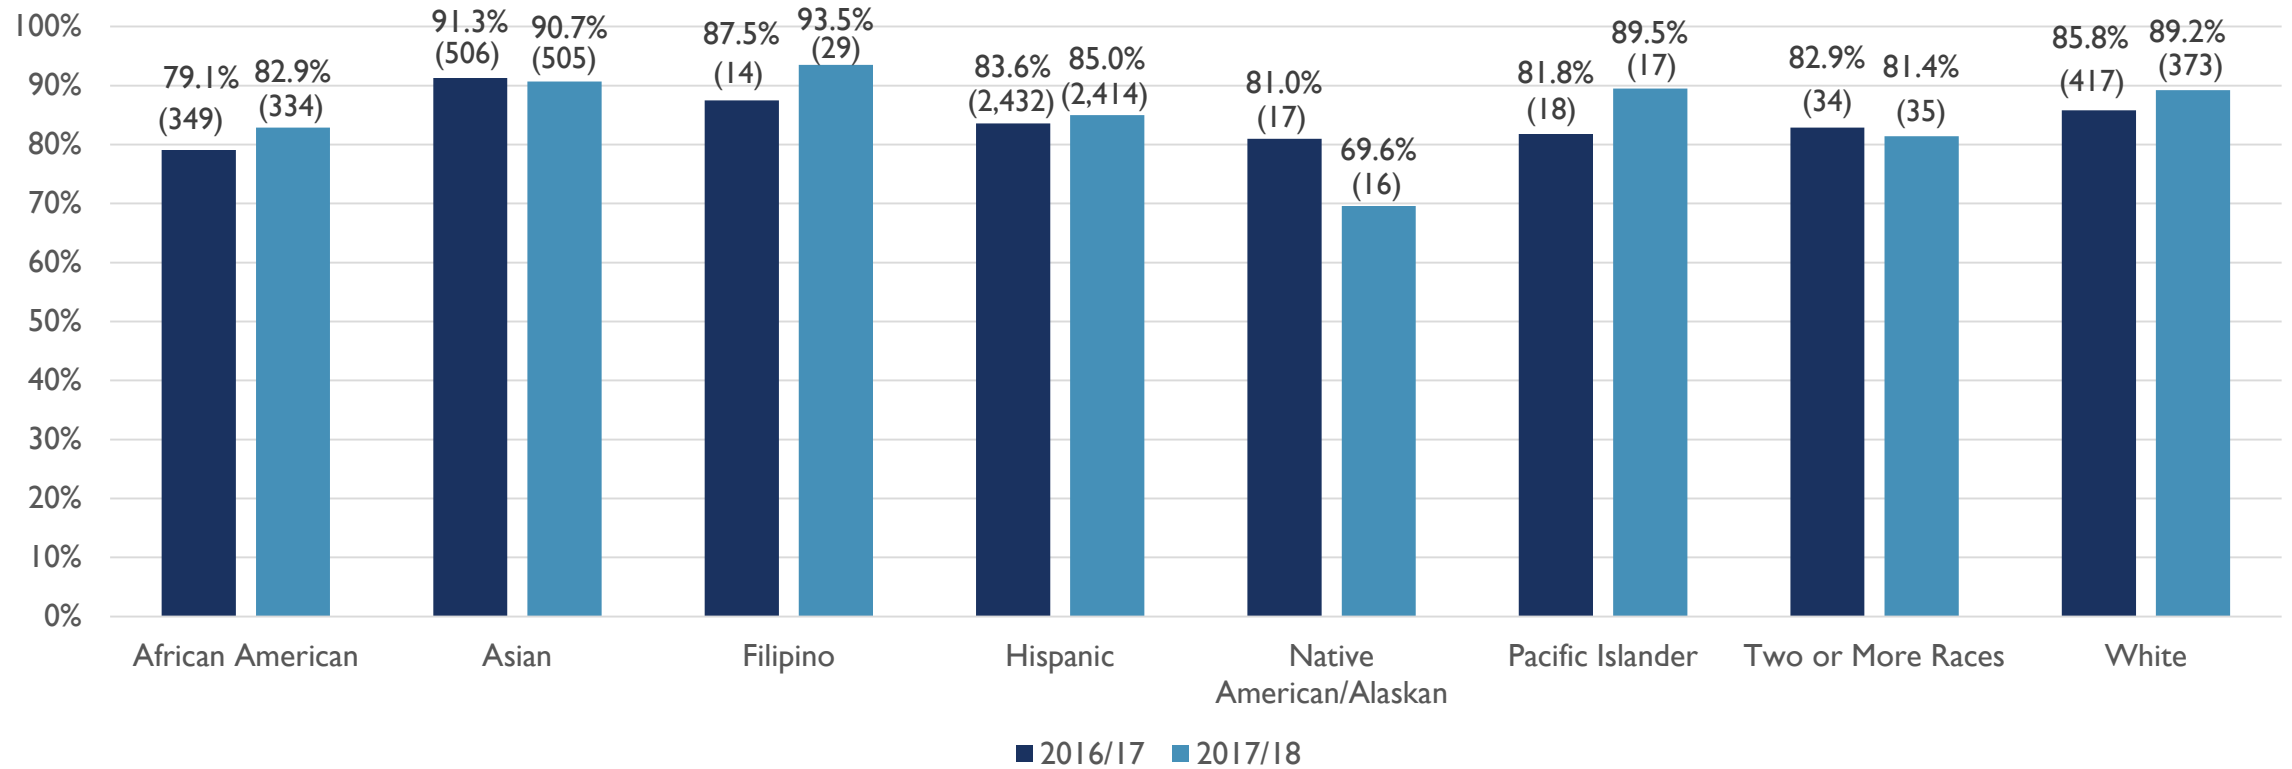

*Note: In 2016/17, CDE changed the graduation factoring so we have 2 years of data to compare.
Please note that Fresno County includes Fresno Unified*

GRADUATION RATES: OVERALL DISTRICT BY SCHOOL SITE, 2016/17-2017/18

School Site	2016/17	2017/18
Bullard High	93.7%	95.2%
Cambridge High	30.7%	28.0%
Design Science High	100.0%	98.3%
Dewolf High	43.0%	32.8%
Duncan Polytech High	99.1%	99.0%
Edison High	94.1%	93.9%
Fresno High	91.9%	90.4%
Hoover High	86.5%	86.9%
JE Young Academic High	57.0%	66.4%
McLane High	88.0%	88.0%
Patiño Entrepreneurship High	N/A	100.0%
Roosevelt High	86.9%	90.7%
Sunnyside High	93.1%	93.1%

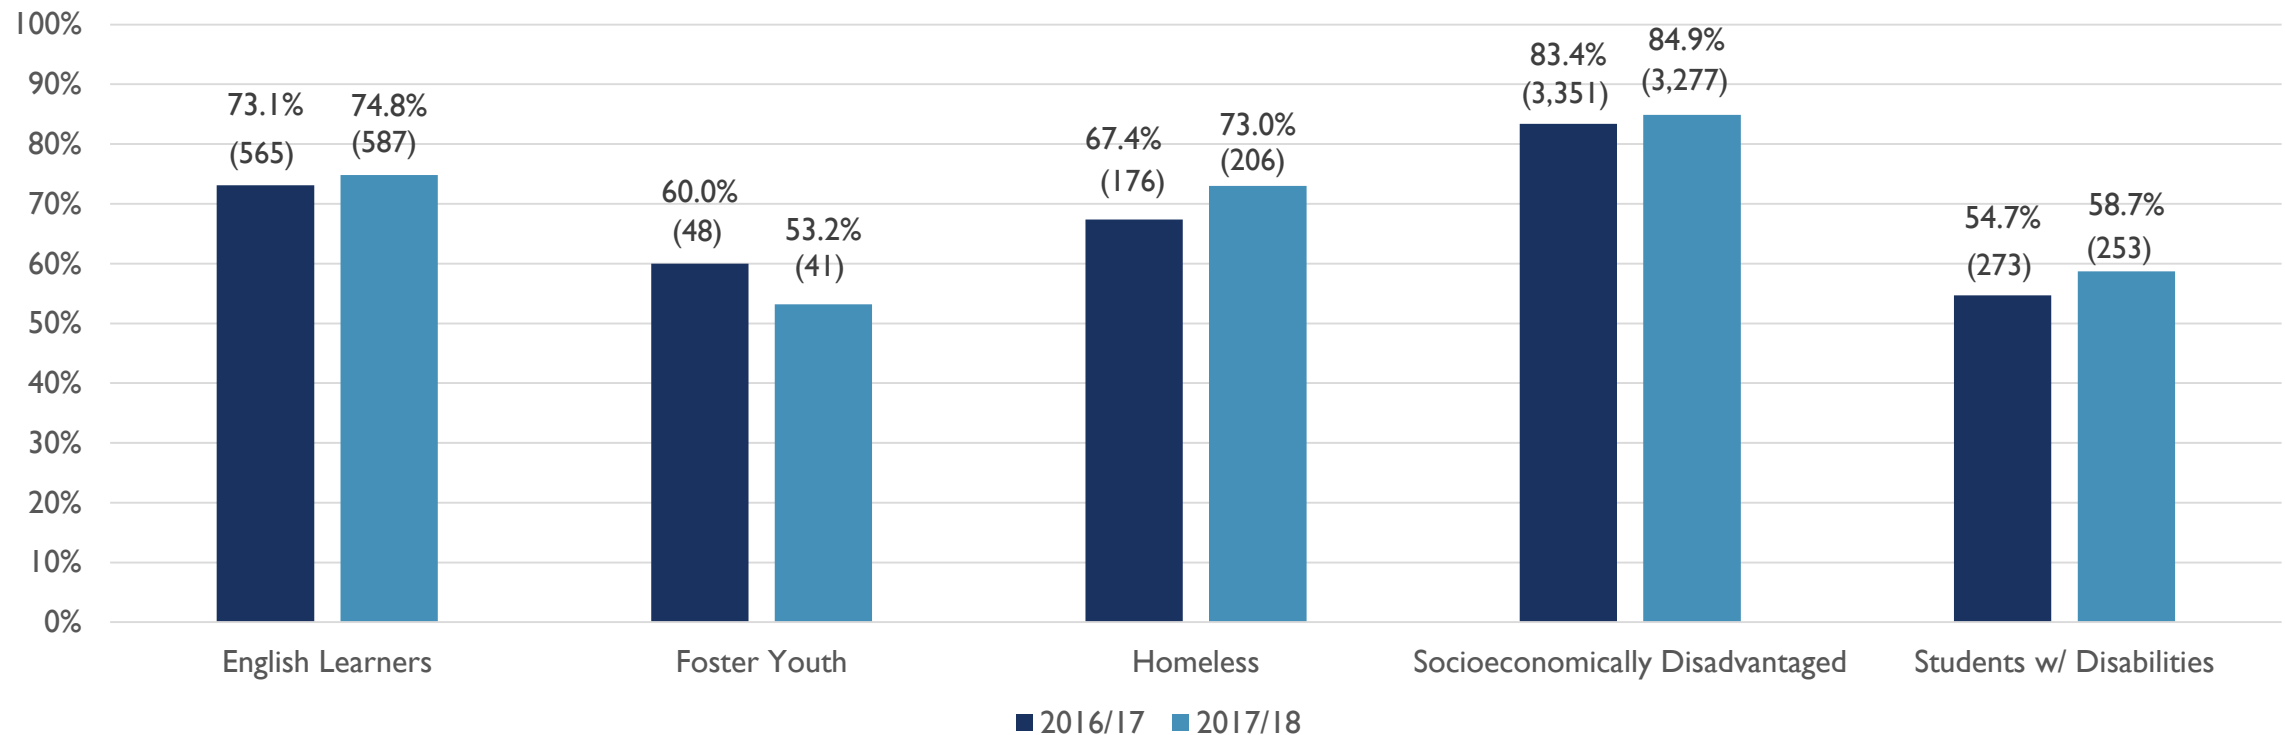

Note: In 2016/17, CDE changed the graduation factoring so we have 2 years of data to compare. Patiño had its first graduating class in 2017/18 therefore there is no data for 2016/17.

GRADUATION RATES: OVERALL DISTRICT BY RACE/ETHNICITY, 2016/17-2017/18

Note: In 2016/17, CDE changed the graduation factoring so we have 2 years of data to compare.

GRADUATION RATES: OVERALL DISTRICT BY STUDENT GROUPS, 2016/17-2017/18

Note: In 2016/17, CDE changed the graduation factoring so we have 2 years of data to compare.
 In 2016/17 1.2% (56 Students) Earned a Special Education Certificate of Completion.
 In 2017/18 1.4% (60 Students) Earned a Special Education Certificate of Completion.

Regarding: Solar Energy Projects Update

The purpose of this communication is to provide the Board updated information on the district's solar energy projects. The district's solar partner, ForeFront Power, has been making steady progress at all sites and continues to push forward on the work it controls. Completion of projects requires receiving final approvals from PG&E, which has been challenging. Information on each project is provided below.

- Bullard, Edison and Sunnyside – Bullard's canopy array has been complete for some time, and the Edison and Sunnyside canopies are 95% complete. These projects require action by PG&E's services planning group, which is independent of the solar interconnection team and has a significant workload. Therefore, it is difficult to identify a timeline for operation at these sites; the August-November 2020 timeframe is targeted.
- Chavez Adult School – Start of canopy construction is planned for September 2019 with operation targeted for the first quarter of 2020.
- Fresno High – The project was on track for completion in July, before it became known that one of the two existing building rooftop solar arrays did not receive PG&E clearance at original installation. Revision of electrical plans was required, resulting in delay awaiting PG&E approval. The system is expected to be operational in the first quarter of 2020.
- Hoover – PG&E required upgrades are underway and the system is expected to be in operation by February 2020.
- McLane and Roosevelt – The projects have cleared PG&E's interconnection approval process. Required transformers are on order, subject to delivery lead times. The systems are expected to be operational in the first quarter of 2020.
- Nutrition Center – Start of canopy construction planned for October 2019.
- Service Center (Transportation Yard) – Construction of canopies is underway with operation targeted for the first quarter of 2020.

While there have been challenges and delays, ForeFront has continued to invest in Fresno Unified's solar projects and shares the district's desire to energize the systems and reap the benefits of utility cost avoidance. Forefront will realize return on its investment only when the systems are operational. We will continue to update the Board as more information is available.

If you have questions or need further information, please contact Karin Temple at 457-3134.

Regarding: Update on Summer Facility Improvement Projects

The purpose of this communication is to provide the Board information on school facility improvement projects that commenced over summer break. Due to the brief summer construction period, not all projects were planned to be completed. Information on projects and impacts is provided below.

Major Construction

- Addams – The Health and Wellness Center is under construction and targeted for completion in October. A portion of the preschool parking lot, off Lafayette, is closed.
- Bullard Talent – Safety and parking lot improvements are complete.
- Cooper – New cafeteria AC to be complete and in service August 9.
- Design Science at Fresno City College – Classroom, office and support space improvements are ready for school opening.
- Fresno High – Installation of new HVAC equipment in locker rooms and weight room continues with completion expected in October. Mitigations have been coordinated with site staff.
- McLane – Pool complex construction continues. The area is fenced for safety and security.
- McLane – Stadium artificial turf will be ready for the first football game on August 23.
- Phoenix Secondary (Church/Orangewood) – Targeted for February 2020 completion.
- Pyle – New early learning restroom will be open August 17. A play structure will be installed and the surrounding grass will be restored into the fall.
- Roeding – New cafeteria AC to be complete and in service August 9.
- Slater – New classroom buildings and site improvements are complete and occupied. A grass area is blocked off to allow the grass to establish.
- Starr – Classroom improvements to promote inclusion are ready for start of school.
- Sunnyside – New stadium scoreboard will be ready for the first football game.
- Viking – New cafeteria AC is operational while work continues on modifications to ductwork.
- Wawona – Portable classrooms will be ready for start of school. Construction of new permanent classrooms, play courts and fencing will continue for some time, with the play courts anticipated to be complete in September. Work areas are fenced for safety and security. Parking on Thorne is impacted for construction access and early learning access will be from Gettysburg only. Some grass areas will be re-establishing into the fall.

Portables for Enrollment and Program Expansion

- Calwa, Ewing, King, Kirk, Vang Pao, Wilson – Classrooms will be ready for start of school.
- Phoenix Elementary – New social/emotional support staff offices will be ready by August 17.
- Sunset – Classrooms will be ready for start of school, fire lane surface complete in September.

Deferred Maintenance and Facility Infrastructure Improvements/Replacement

- HVAC/Energy Management Controls – Baird, Balderas, Bullard Talent, Centennial, Cooper, Fremont, Greenberg, Leavenworth, Malloch, McLane, Tehipite, Terronez, Wishon
- Exterior Paint – Burroughs, Dailey, DeWolf, Greenberg, Kings Canyon, Starr, Terronez, Williams, Yokomi
- Public Address System – Edison, Ewing, Jefferson, Leavenworth, Norseman, Powers, Roeding, Sunnyside, Tehipite, Viking
- Gym Bleachers – Duncan, Kings Canyon, Tehipite, Yosemite
- Gym Lockers – Fresno High
- Gym Floor – Edison
- Gym Scoreboards – Duncan, Edison, McLane, Roosevelt, Sunnyside
- Gym Audio/Visual Systems – Duncan, Fresno High, Hoover, McLane, Roosevelt
- Play Structures – Aynesworth, Eaton
- Asphalt – Centennial, Del Mar, Easterby, Homan, Kratt
- Roofing – Fresno High

Other

- All elementary school security camera projects are complete or substantially complete.
- Lighting retrofit (energy efficiency) projects at 31 schools are substantially complete.
- High school restroom improvements continue (partitions, hand dryers, mirrors, paint).

If you have questions or need further information, please contact Karin Temple at 457-3134.

Regarding: Implementation of the Global California 2030 Initiative, Learning World Languages

The purpose of this communication is to provide the Board information regarding the implementation of the Global California 2030 Initiative launched by the California Department of Education in 2018. This initiative seeks to better prepare students to succeed in the changing economy and to strengthen California's own rich mixture of cultures and languages by expanding opportunities for students to learn a second and possibly a third language. Fresno Unified recognizes students who speak languages other than English as assets that will enhance language learning opportunities for English-only students as they continue to learn English and nurture the advanced learning of their own native languages.

Fresno Unified is committed to graduating all students with a minimum of conversational fluency in a language other than English by 2030. To this end, the district currently employs various language programs including traditional bilingual, dual language immersion, and world language courses in secondary schools. Beginning this year, language learning opportunities will be expanded in after school settings at various schools as follows:

- Spanish Literacy, Technology, and the Arts at Addams Elementary School
- Arabic Immersion at Vinland Elementary School
- French Preparation at Heaton Elementary School
- Mixtecan Language and Culture at Hidalgo, Yosemite, and McLane
- Punjabi Language and Culture at Storey Elementary School

In addition to learning a second language, the goals of these programs include developing cross-cultural competencies, engagement of parents and community partners in educating Fresno's children, and use of these language learning programs to explore highly effective practices to consider as additional programs are offered in the coming years.

More information regarding these programs will be provided on an ongoing basis as the implementation advances.

If you have any questions or require additional information, please contact Sandra Toscano at 457-3648.

Regarding: Comprehensive Sexual Health Education Information Request

The purpose of this communication is to provide the Board information regarding comprehensive sexual health education in response to a Board member request. Items requested are as follows: Information about whether an outside provider is used for delivering lessons and, if so, what lessons; and a request for a copy of the parent information letter and information on how it is provided to parents.

Fresno Barrios Unidos (FBU) continues to be the outside provider that partners with Fresno Unified to deliver the required lessons of the Board approved *Positive Prevention Plus* curriculum in middle and high schools. This information was shared in a Board Communication dated May 24, 2019. FBU teaches five lessons. Lesson topics taught by FBU in middle school: human trafficking, preventing an unplanned pregnancy, teen pregnancy choices and responsibilities, preventing sexually transmitted infections (STI), and recognizing and reducing risks. Lesson topics taught by classroom teachers in middle school: understanding change, exploring friendships, bullying and abuse, myths and stereotypes about HIV infection, HIV/AIDS epidemic, media and peer pressure, HIV/STI testing and community resources, and goal setting. Lesson topics taught by FBU in high school: human trafficking, preventing an unplanned pregnancy, teen pregnancy, preventing STI, and protection and communication. Lessons taught by classroom teachers in high school: life planning, healthy relationships and relationship abuse, myths and stereotypes about HIV, HIV/AIDS epidemic, media and peer pressure, accessing community resources, and steps to success.

Schools are provided with a parent letter in English, Spanish, and Hmong with information for parents regarding upcoming comprehensive sexual health education lessons and direction about what to do if they do not wish for their child to participate. Michele Pacheco, Comprehensive Sexual Health Education Manager, meets with an administrator from each site annually to share expectations regarding sending the notification letters home to parents a minimum of two to three weeks prior to the start of the lessons. Sites also make curriculum available to parents to view prior to instruction. Attached is a copy of the parent information letter.

If you have any questions or require additional information, please contact Michele Pacheco at 457-3554.
