The Virginia On-Time Graduation Rate expresses the percentage of students in a cohort who earned a Board of Education approved diploma within four years of entering high school for the first time. Percentages are based on longitudinal student-level data and account for student mobility and retention and promotion patterns.

The Graduation Rate as defined by the Board of Education:

On-Time Graduates in Year X

$$\frac{\text{On-Time Graduates in Year X}}{[(\# \text{ of 1st time entering 9th graders in year X - 4}) + (\text{Transfers in}) - (\text{Transfers out and deceased})]}$$

Sources: Percentages are based on the Virginia Department of Education State- and Division-Level Cohort Reports, Four-Year Rate (retrieved 1/14/2025). Percentages in subsequent reports may change as student records are updated throughout the year.
