Board of School Directors  
Kennett Consolidated School District  
300 East South Street  
Kennett Square, PA 19348

Dear Board Members:

It is with great pride that we present the 2024-2025 General Operating Budget for the Kennett Consolidated School District. Each year presents its own unique set of challenges – strategically managing the ever-growing demands on a finite budget with the ever-changing instructional needs of our wonderfully diverse student body. This year’s budget reflects the Board of Education and administration’s commitment to meeting and exceeding those instructional needs while continuing to be fiscally responsible to our taxpayers. The approval of the Budget, one that encompasses all of the District’s instructional, extracurricular, and athletic programs, is the culmination of a series of public Finance Committee meetings. The Superintendent and the Chief Financial Officer assume responsibility for data accuracy and completeness. This budget presents the District’s financial position, proposed operational plan, and all necessary disclosures.

The 2024-2025 General Operating Budget in the amount of \$104,187,402 requires a millage rate of 33.6498 mills, an increase of 2.82% or approximately \$168 per year for the average residential property owner. The District will not be seeking referendum exceptions from the Department of Education as the millage increase is less than the 5.3% Act 1 Index.

Several key factors have been taken into consideration during the budget development process. The District has conservatively budgeted state subsidies at 50% of the Governor Shapiro’s proposed education budget with the exception of the state’s share of the Pennsylvania School Employees’ Retirement System and Social Security contributions. Approving the District’s budget before the governor’s budget has been finalized presents its challenges.

The District’s State subsidies were increased to reflect additional 2023-24 allocations awarded in Basic Education and Special Education. Additionally, per the aforementioned, the 2024-25 State subsidies were budgeted at half of the proposed State allocation. It is important to note; the Pennsylvania School Employees Retirement System’s Contribution Rate decrease for the second straight year, dropping from 34.0% to 33.9%.

The budget recognizes local revenue sources increasing of \$1,085,462 excluding real estate taxes. The areas of local revenue increases include, interim taxes, earned income tax, interest earnings and property transfer tax. The remainder of the revenue necessary to fund the budget, \$2,132,515, was derived from the real estate tax increase and a \$390,000 appropriation of fund balance. State Sources increased by \$2,020,994 mostly Basic Education and Special Education Subsidies.

The District's cost drivers reflect our commitment to provide excellent educational opportunities and equality for all students. Due to the labor-intensive nature of our educational system, inflationary escalators to salary and benefits continue to be one of the budget's largest increase. However, contracted professional services which predominantly serve Pupil Services and Special Education experience the most significant growth requiring \$3,261,838 in new funds for next year. Additionally, \$390,000 was allocated from the budgetary reserve to contract three temporary positions to help ease the burden and implement procedures in the Pupil Services and Support Department. Other notable adjustments are the inclusion of Balanced Score Card initiatives, Degree Programs, and a continued commitment to funding technology equipment and capital improvements. The overall budget increase is \$5,570,947 or 5.65% increase over the current year.

For a complete overview of the 2024-2025 General Operating Budget, please visit our District website at <https://www.kcsd.org/services/business-office/business-office-downloads>.

With sincere gratitude to a School Board that gives unselfishly of its time and to the Kennett community that values strong schools, we are able to develop, implement, and maintain an excellent educational program. It remains our distinct pleasure and privilege to educate your children.

Sincerely,

---

D. Dusty Blakey, Ed.D.

**5900 BUDGETARY RESERVE:** This is not an expenditure function or account. It is strictly a budgetary account. In addition to the appropriations, it is a sound management practice to provide for operating contingencies through a budgetary reserve. Experience indicates that there are certain variables over which control is impossible regardless of the care with which the budget is prepared. These variables include unpredictable changes in the costs of goods and services, and the occurrences of events which are vaguely perceptible during the time of budget preparations, but which nevertheless, may require expenditures by the district during the year for which the budget is being prepared.

**800 Other Objects:** Money budgeted to this account will serve as a contingency when necessary funds will be transferred from this account of offset deficits.
