## Super Important-

If at any time you did not receive credit for a class—grade of F, I, W or NC  
Then do NOT mark it off as completed.

If it is on this Credit Check form, then it is a requirement for your diploma.

You are going to need to retake this class and earn the credit in order to graduate!

Contact your counselor so you can retake it this Spring or Summer---or be sure to register for the class for next year so you have all your graduation requirements!!!!

SCIENCE (3 credits)	

# PE and Health

- **1.50 credits (Three trimester classes) of Physical Education is a graduation requirement.**
- **Health – a .50 credit of Health is required.**  
You can find this in your ninth-grade year.

*Hint: If you were in a different district in ninth and tenth grade then you may not have taken Health yet. If you can not find Health on your transcript, then you are going to need to take it next year as a senior. It is a requirement for a diploma.*

# Science

A minimum of three years (6 trimesters) of Science are required for your diploma.

- Most of you took Biology A and B as a Freshman

Other Sciences that you may have taken include:

- Chemistry
  - Physics
  - AP or CiHS Biology
  - Anatomy and Physiology
  - Human Impact
  - Robotics
  - Pre-Engineering
  - CiHS Environmental Science
- 
- Many of you are completing your third year of science either this trimester or the next trimester. If you are taking a science now or have it scheduled for next trimester, then you can put a mark in the science box indicating that you are “Taking” it now.

# Career and Technical Education

You need 2 trimesters

## **What classes count as a “CTE” credit?**

Look on your transcript

– any class marked with a PVO code counts as a CTE credit

or

Look on the Course Offering Sheet

– any class marked with an asterisk counts as a CTE.

# Fine Arts

## What Counts as a Fine Art?

- Band
- Orchestra
- Choir
- Piano
- Art
- Ceramics
- Drama
- Photography
- Visual Communications  
and Digital Design
- Video Foundations  
and Production
- Digital Sound Production
- Website Design
- Game Design
- Journalism
- Yearbook

*Website Design, Game Design, Journalism and Yearbook will count as fine arts for meeting your high school diploma however they do not fulfill the fine art requirement for university admissions.*

PPR Stands for  
“Personal Pathway”

FINE ARTS (2 credits, one of which may be PPR)

WORLD LANGUAGE or PPR (2 credits)

You get to make a choice:  
Personal Pathway or  
2 credits of a World Language

# What is the PPR?

## PERSONALIZED PATHWAY

Personalized pathway is for students who are passionate about a field that does not require a 4-year education, they can take 3 credits that will prepare them for a field to replace the 2 credits of World Language and 2nd credit of Fine Art.

Example 1: A student who wishes to go directly to a 4-year university would need to earn:

- 2.0 credits of World Language
- 1.0 additional credit of Fine Art

Example 2: A student who plans to become a graphic designer, and will attend a 2-year college to start, could take:

- 1.0 credit of Visual Communications
- 1.0 credit of Website Design
- 1.0 credit of Introduction to Marketing

# World Language

Two years of a World Language are required for admission to a 4-year university.

For University Admissions the two years must be the same language.

Competitive universities prefer three or four years of the same language.

## World Language Exam

If you can speak, read and write another language then you can earn credit!

This exam is offered once each Fall and again in the Spring.

Exams are available in over 100 different languages!

# Electives – What is an “Elective”

There is no magic list of electives

An “Elective” is simply classes that you take in addition to the basic requirements.

Your elective choices should prepare you for: **“What are you graduating to?”**

- Two-year Community Colleges
- Four-year Colleges and Universities
- Career/Technical Trade Schools
- Apprenticeship
- Military
- Employment
- Courses that don’t necessarily apply to any of the above, but look like something you’d like to try (you never know where it might lead!)

If you are planning to apply directly to a four-year university then your electives are going to be:

**MINIMUM COLLEGE ADMISSIONS STANDARDS**  
at Washington's Public Four-Year Colleges

**REQUIRED CREDITS**

- 4 credits of English
- 3 credits of math including Algebra 2
- Senior year quantitative math
- 3 credits of social science
- 3 credits of science
- 2 credits of world languages
- 1 credit of fine arts

**More: Math, Science and World Languages**

**Make yourself academically competitive while still maintaining a strong gpa and a healthy balance.**

**Meeting the minimum entrance requirements does not guarantee admittance.**

**Some colleges have additional requirements, so visit their websites to see what else they require.**

# What are you trying to graduate to?

What would your electives be if:

- You want to do something in Construction?
- You want to join the Marines?
- You want to start your own business?
- You want to work at Boeing?
- You want to be a Nursing Assistant?
- You want to pursue a career in the Performing Arts?

Thus- anything can be an “Elective”.

- For some of you it may be more sciences and more math classes.
- For others it may be construction, strength training, business classes etc
- It is up to you and your future plans as to what courses you choose to fulfill your elective boxes.

# Look at your completed credit check.

- Any classes that are not marked off as either completed or that you are currently taking are required for your diploma.
- You MUST register for these classes if you want to graduate.

- You must have met the course prerequisite in order to register for the class.

## MATH PLACEMENT 2025-2026

- Math department recommendations: See asterisks \*\*  
It is recommended that students do not move on to the next class in the sequence until they have completed the previous class at the recommended grade level.

# Math - it is important

Even if you have already completed your three years of Math

– it is extremely wise to continue to take Math your Senior year.

- **University:** A senior year of math is required for direct admission.
- **Community College:** You want to be able to test into college level math. Tuition is expensive. Learn your math here for free.
- **Technical College/Apprenticeships:** Math skills are required for most trades.
- **Military:** As part of the recruiting process to join the military they will have you take a placement exam called the ASVAB. How you do on the ASVAB is used to determine the job that the military will train you to do. You want them to think you are smart so that you are trained for a good job.

Should I still register for classes at Lindbergh if I am wanting to do Running Start next year?

**YES!**

Register for Classes at Lindbergh even if you think you are going to transfer to Running Start!

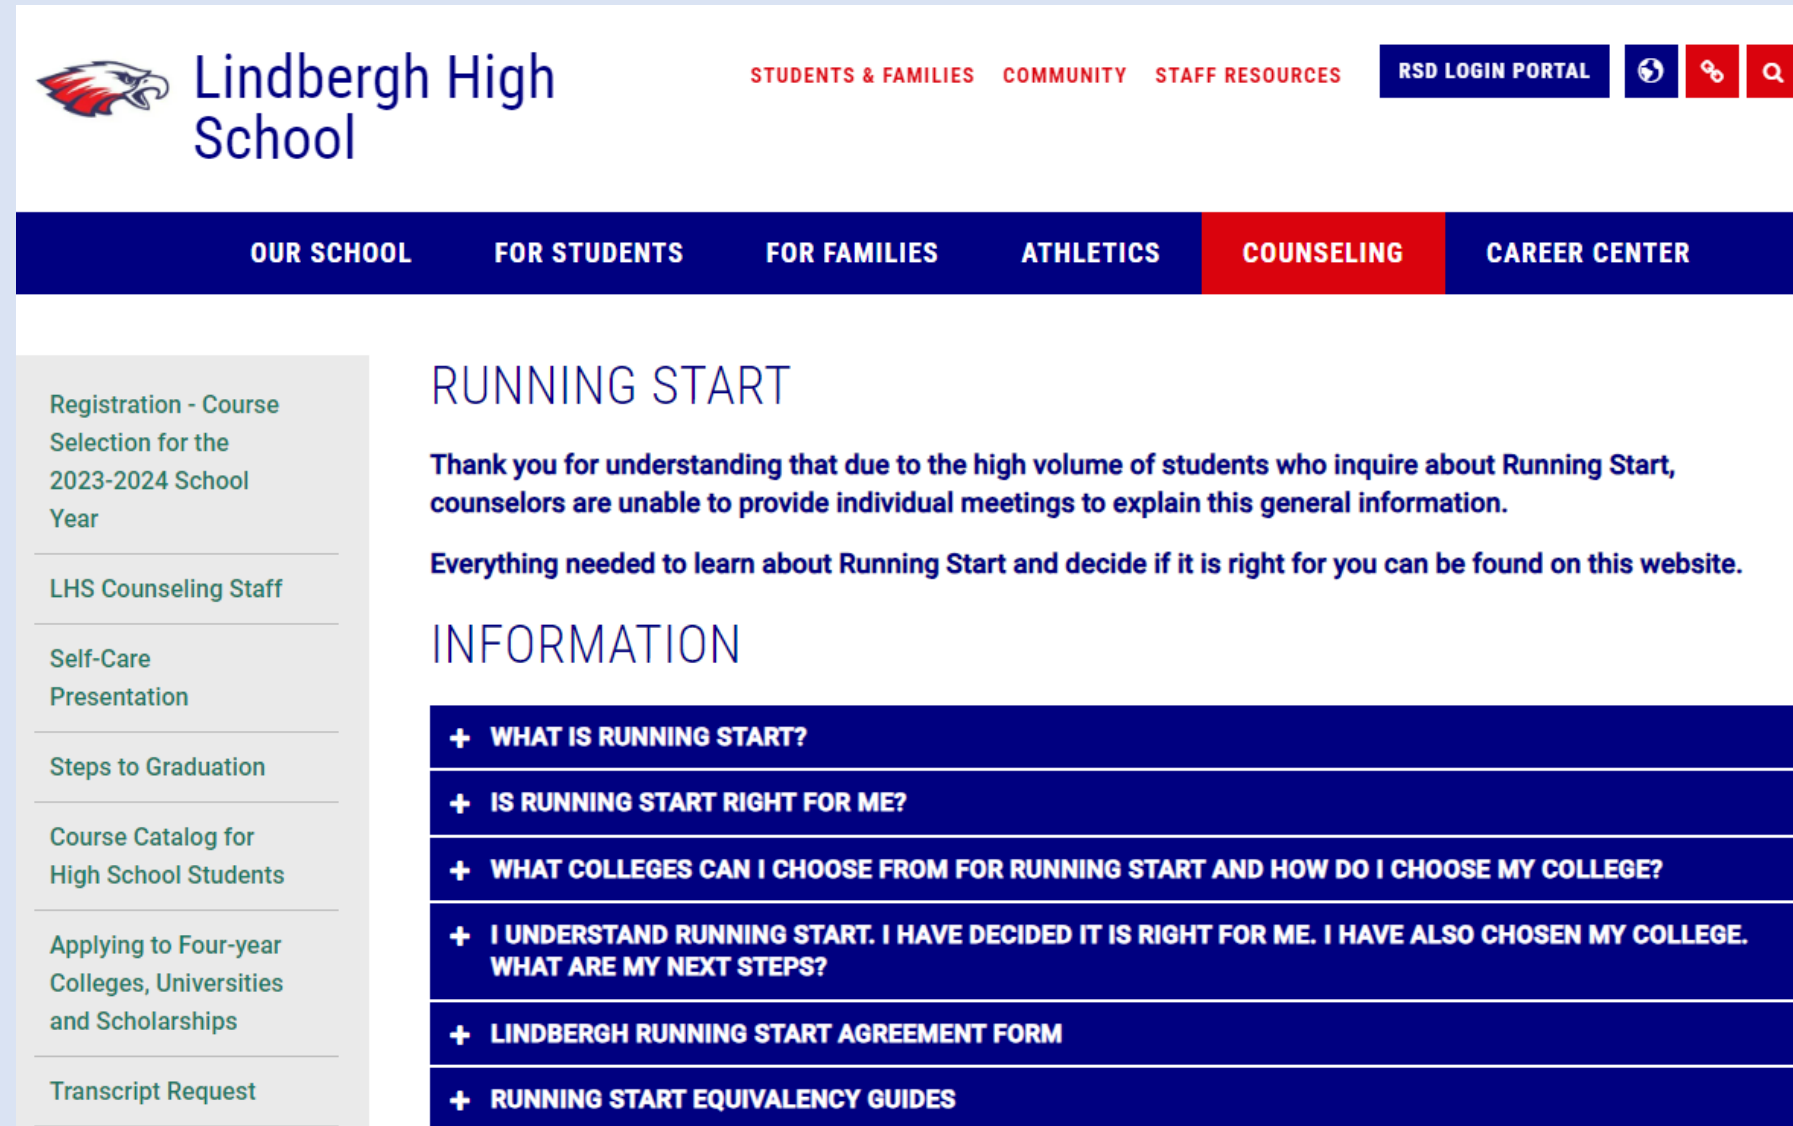

- If you decide that you are serious about enrolling in Running Start become aware of the registration dates for the community college you are wishing to attend. We have 5 different colleges in our area that students can choose from for Running Start. The earliest opening for fall applications is not until March.
- Do not gamble your diploma! Register for classes at Lindbergh just in case you do not get into Running Start.
- If you become successfully registered for Running Start later in the Spring, then your counselor will simply drop your Lindbergh Course Selections.
