

Sports Aviation Foundation
Minden NV

Students,

Are you interested in Aviation?

Would you like to learn how Science, Technology, Engineering, and Math (STEM), are applied in aviation?

Is an aviation career something you would like to pursue but would like some help to learn how to get there? Is being a pilot a goal you would like to achieve?

Come and learn from people who have developed these skills and be part of a team that is building a full scale airplane at the Minden airport. Now in our 11th year building since 2014.

If you would like to be part of the team, and participate in this project, contact Don Dixon at dondwd007@gmail.com or at 775-721-0173
