2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 School Safety Plan

In compliance with Senate Bill 187 and Education Code 35294.6 each Westside School has developed a comprehensive safety plan. The elements of this plan include disaster preparedness and procedures. The Emergency Preparedness Plan is reviewed with the staff and students yearly. Routine emergency preparedness drills are conducted monthly to ensure the safety and well being of students and staff in the event that there is a need for such an evacuation.

D. Other SARC Information

Information Required in the SARC

The information in this section is required to be in the SARC but is not included in the state priorities for LCFF.

Fiscal Year 2023-24 Types of Services Funded

School psychologists, nurses, middle school counselors and specialists in Speech/Language/Hearing and adaptive physical education are available to provide a wide variety of support services for students.

Student Study and Child Study Teams assist students experiencing academic difficulty, those with special needs, assessing eligibility for placement in special classes and recommending specialized services as needed. Special services and classes are offered for students with learning disabilities as well as other students with exceptional needs.

An extended school year program is available for those students with disabilities who qualify.

Additional support services are available for English Learners. These services are also available for students participate in our Home School program.

187 students received Supplemental Educational Services, additional academic instruction designed to increase the academic achievement of students in schools that have not met State targets for increasing student achievement (adequate yearly

Professional Development

Professional Development

Westside Union School District offers professional development and training opportunities to teachers, administrators, and para-educators.

The goal of professional development is to provide staff members the support that they need to meet the educational needs of the diverse student population in Westside. To that end, we identified four major areas of instructional focus for the 2012-2013 and 2013-2014 school years:

- use of instructional strategies that promote active, meaningful student engagement for all learners
- effective first instruction using district-adopted materials
- utilization of learning objectives to promote student achievement
- effective use of data to guide and inform instruction

Our areas of instructional focus for the 2014-2015 school year are:

- critical reading and writing in and across all content areas
- Inquiry grounded in evidence from text and other sources
- Rigor and real-world application in all content areas
- Integration of technology by teachers and students through lesson presentations and student products

Professional learning activities at the site and district levels target these areas of focus.

Teachers participate annually in three districtwide grade level (at the elementary level) or department (at the middle school level) meetings during which they are provided the opportunity to share best practices with colleagues from other school sites.

Over the past three years more than 200 teachers and instructional administrators have attended a three-day AVID Summer Institute. There are AVID-trained teachers at each of the district’s twelve sites. AVID’s kindergarten through higher education system brings research-based curriculum and strategies to students each day that develop critical thinking, literacy, and math skills across all content areas.

During the spring and fall of 2014 all Kindergarten – 6th grade teachers and their site administrators received Number Talks training from Math Solutions, designed to strengthen students accuracy, efficiency, and flexibility with mental math and computation strategies.

Teachers and administrators at six sites continued their professional learning and coaching around direct explicit instruction with the TESS Consulting Group.

Instructional administrators meet monthly to share best practices related to areas of instructional focus and leadership for meaningful change in educational systems.

There are two programs offered to assist new and experienced teachers. The Beginning Teacher Support and Assessment Program (BTSA)/Induction, a state-mandated program, pairs beginning teachers with an experienced teacher while in the process of completing credential requirements. The Peer Assistance and Review (PAR) program is designed to improve the education of students by providing opportunities for additional training for all teachers. Westside teachers utilize these programs with the goal of accomplishing the highest level of success for our students.

Professional Qualifications of Teachers

District Board Policy (BP4000) and the Elementary and Secondary Education Act (ESEA) of 1965, as amended require that teachers in Westside Union School District be highly qualified and dedicated to the education and welfare of students. To be designated highly qualified, a teacher must have the proper credential for the class he/she is teaching and in addition, he/she must meet the subject-matter competency requirements of NCLB as determined by the California Commission for Teacher Credentialing. All Westside teachers meet the ESEA highly qualified teacher requirements. All are authorized to teach English Learners in California.
