Parent Partners & District Updates

Updates from Parent Partners

- **Parent and Administrator Meeting Proposal** - Parents have suggested organizing a meeting between the VVE/BCE administration and parents. This meeting will focus on a Q&A session regarding the blended campus initiative. It will include multiple follow-up discussions as the blended learning program is implemented. Including the possibility of a submission form for questions ahead of time will assist with the efficiency of the meeting.

Movie Screening Options

- Options were discussed for a disability-awareness movie screening for the community. *The Ride Ahead* was named as a strong contender so research will begin on logistics for a possible screening and community event later in the spring (possibility early April)
- Consider casting invitations to the community at large, provide a link for “free” tickets to get a head count in consideration of space needs

- What follow-up can be had after the screening for continued learning?

Summer Camps Options

- This list will be shared with the community via multiple means. Options are always evolving.

Best Buddies - discussion was tabled to allow our Best Buddies instructional coach to participate.
