INTERNATIONAL STUDENT ENGLISH ACQUISITION

International Students will learn English through immersion at school. Students are required to speak English at all times while at school and are encouraged to speak English at home.

During the first semester of school, emphasis will be placed on vocabulary development and language acquisition. During this time, students whom the school has determined would benefit from English tutoring will be required to enroll in some type of after-school English tutoring program. English tutoring programs are offered by various organizations throughout the community.

During the second semester of school, most International Students will be able to focus primarily on academics. By this time, it is expected that the student will have acquired enough English to receive regular classroom instruction and participate in class work, homework, and assessments.

The student's grades will be modified to reflect achievement with respect to their vocabulary development and additional content and skills appropriate for the student's proficiency in English.
