

## Course Title: Business Law

### Overview:

In Business Law, you will explore the legal principles that govern the world of business. Through a comprehensive study of topics such as contract law, employment law, ethics, and risk management, students will develop a strong foundation in understanding the legal framework of business practices. By engaging in interactive activities, case studies, and simulations, students will hone their critical thinking skills and learn how to apply legal concepts to real-world scenarios. This course will empower students to navigate the complexities of business law and ethics, preparing them for future endeavors in the field of business and beyond.

### Essential Questions:

- How do laws influence business decisions?
- How does the legal system ensure justice and order while balancing the rights and responsibilities of individuals and businesses?
- How does criminal law differ from civil law?
- How do criminal laws protect society and deter criminal behavior?
- How do civil laws regulate relationships between individuals and entities in society?
- Why is ethical behavior important in business?
- What are the consequences of unethical actions in business?
- How does employment law protect workers and employers?
- How can businesses manage and reduce risks?
- What are the essential elements of a contract?
- What are the rights and duties in a contract?
- How do property laws affect business transactions?
- What role does legal compliance play in maintaining ethical business practices?

### Unit 1: Overview of the Legal System (15 days)

#### Focus:

Welcome to the world of law and order, where every case tells a story. In this unit, students will step into the shoes of legal detectives, uncovering the secrets behind laws that shape the business world. From unraveling contract mysteries to decoding courtroom dramas, you will embark on a thrilling journey through the legal system. Get ready to unleash your inner legal eagle as we explore the exciting realm of business law.

### Unit 2: Criminal Law (15 days)

#### Focus:

Delve into the fascinating world of criminal law, where students will navigate the complexities of crimes and their implications. This unit offers an opportunity for you to analyze various types of criminal offenses, understand legal procedures, and explore the consequences of unlawful actions. Through case studies and discussions, you will develop a solid foundation in criminal law principles, preparing them for further studies in the field of law enforcement and justice.

### Unit 3: Civil Law (15 days)

#### Focus:

Prepare for an exciting journey into the world of civil law, where rules and regulations meet real-life scenarios! In this unit, you will embark on a captivating exploration of legal rights, responsibilities, and disputes that impact individuals and society. From engaging in mock trials to analyzing case studies, you will discover the thrill of advocating for justice in civil matters. Get ready as we make learning about civil law not just informative, but also a whole lot of fun!

### Unit 4: Business Law and Ethics (10 days)

#### Focus:

Explore the exciting world where ethics and business law meet! In this unit, you will uncover the connections between moral values and legal rules in the business environment. Through fun activities and discussions, you will learn how to navigate ethical challenges and understand the laws that govern business practices.
