2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2024-25 School Description and Mission Statement

Stanislaus County Office of Education's (SCOE) Special Education programs serve students from birth to 22 years of age in severe and non-severe programs throughout the county in the following disability categories: intellectual disabilities, speech or language impairment, visual impairment, emotional disturbance, orthopedic impairment, other health impairment, specific learning disability, deafness, hard of hearing, deaf-blindness, multiple disabilities, autism, resource and traumatic brain injury.

The Early Start program (birth to age 3) serves 83 students in their natural environment; playgroups located within their community, in the home, and at the special education center.

2024-25 School Description and Mission Statement

SCOE has 2 special education centers; 1 with 10 Special Day Classes, serving Early Intervention students (ages 3-5), 1 with 15 Special Day Classes, serving moderate/severe behavioral and medically fragile students (ages 5-22) and 32 Special Day classrooms located on public integrated school sites.

All of our employees strive to provide rich and caring educational experiences in the least restrictive setting possible. SCOE's Special Education department has over 600 employees providing services in homes and on 23 school and community sites throughout the county to approximately 735 students, in addition to providing services for students in their home school district. Services provided include special day classes, speech and language therapy, occupational and physical therapy, adaptive PE, nursing and audiological services, services for the visually impaired, deaf and hard of hearing, orientation mobility, vocational training, inclusion, assistive technology, resource, counseling and assessments.

Mission Statement:

Through the caring and commitment of public education and effective leadership and instruction, we empower students and parents by supporting independence, providing opportunities through implementation of best practices, and establishing partnerships for life-long learning.

Vision Statement:

Our impact on individuals with disabilities and their families will provide independence, opportunity and hope for the future.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All students in our programs have goals written into their IEP's (Individual Education Plan) that align to the state standards. Each integrated classroom's curriculum aligns to the school district adopted materials of that school campus. Each classroom's instruction is designed on the results of formative and summative assessment and is implemented in alignment with standards based curriculum. Each classroom has the core curriculum of that school site for easy integration and inclusion opportunities. In addition to the standards-based materials adopted by the State Board of Education and the local governing board of our special day class sites that are integrated on to general education campuses across the county, the following is a list of supplemental materials and academic intervention programs used in the classrooms, adopted by the local governing board that are also in alignment with content standards and are core content connectors. There were zero percent of students who lacked their own assigned textbooks and/or instructional materials.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

The Stanislaus County Office of Education ensures parental involvement through the Individual Education Program (IEP) meeting process. Parents participate in not less than one IEP meeting per year with their child's full educational team and more if needed.

Parents play a vital role in the education of their children and we encourage participation in the local school site Parent Teacher Organization.

There are many opportunities for parental involvement in the educational settings that include: regularly scheduled parent trainings, regular home visits, assisting in classrooms, and attending group sessions with their children.

The SELPA Community Advisory Committee meets once a month to involve parents in a variety of special education issues and establish a network of support. The Stanislaus County Office of Education also holds training designed to educate, support, and empower parents in the journey of raising a child with special needs.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school Dropout Rates;
- High school Graduation Rates; and
- Chronic Absenteeism

2024-25 School Safety Plan

Facilities owned, operated, and utilized by the Stanislaus County Office of Education are maintained and reviewed regularly by our maintenance staff to ensure all facilities are safe and in good condition. A very high standard of classroom hygiene standards have been adopted throughout the County programs and daily custodial services guarantee sanitation and

2024-25 School Safety Plan

cleanliness in our restrooms and classrooms.

In June of 2012, a new special education facility was opened (JFK) serving our severe behavioral, medically fragile, and transition students. August 2013, the renovation of the special education facility (Margaret L. Annear) serving the Early Intervention students was completed on the same campus.

Every classroom and common area has a School Emergency Response- Procedures and Guidelines binder posted for easy access to assist in emergency situations. Our campus is wired with a Bogan Emergency Response System, which allows communication in emergency situations. Additionally, we have cameras outside of the facilities to assist with safety issues.

Our site receives annual safety reviews by the SCOE Safety Director, SCOE maintenance staff, the Ceres Fire Department, and a representative from our insurance carrier. All site concerns are handled immediately by our custodian, SCOE maintenance, administration or the safety team. Our Site Safety team meets twice a year, we have crisis simulation drills at least once per month, exceeding the requirements by law.

The comprehensive safe school site plan was reviewed and discussed with faculty by the regional health and safety plan coordinator after board approval for 22-23. The comprehensive safe school plan does and has always included students with disabilities, being that they are separate school sites to meet the needs of all students with disabilities and ensure their safety during drills and in the case of an emergency.

SELPA policy mandates that all SCOE classrooms operated on district sites will be included in their comprehensive school safety plans, crisis simulation and safety requirements per ed code, fire code and ADA regulations.

Professional Development

SCOE is committed to providing professional development opportunities for all staff. Four days of professional development are added to the certificated contract.

Most trainings are specific to the area of expertise and are offered as conferences and workshops. Some programs have weekly training components to support their specific programs.

A professional development plan was created to offer opportunities for certificated and non-certificated staff to choose from a variety of sessions, (in person or virtual format) by selecting one of four topics offered each month for professional growth.

We have also added a para educator training, sub training and an annual behavior intervention certification program.

This table displays the number of school days dedicated to staff development and continuous improvement.
