Statement of Purpose

"I am very honored to serve our community and the MSD of Lawrence Township on the Board of Education. Our local school system is a village of support for students and their families. As a parent of a special needs student, our family has experienced this village first hand! It is my imperative that we continue to equip our educators with the tools and resources they need to educate and engage our children. It is crucial to continue to engage and connect stakeholders and community partners in the support of our district. I will continue to work, along with my fellow board members, to shine the light on the work of our educators and advocate for the supports needed."
