ADDENDUM A: CONTRACTOR SERVICES (Scope of Work)

This Addendum applies to **Contract #2025-00000014** between **Department** and **Contractor**. During the specified **Contract** term, **Contractor** shall provide the **Services** described below:

Family Support Partnership

2025 Scope of Work (Sumner Bonney Lake Family Resource Center)

Family Support Partnership Background

Established in 1994, Family Support Partnership (FSP) is a collaborative effort to support a network of family resource centers. Partners work to build resilient communities and help prevent Adverse Childhood Experiences (ACEs) and Adverse Community Environments (The Pair of ACEs) and other forms of trauma, which have a profound negative effect on lifelong health and opportunity. They weaken the healthy development of children, families, and communities.

Vision

Families are healthy and thriving in safe, stable nurturing relationships and environments.

Mission

Convene, mobilize, and leverage the collective impact of family resource centers to strengthen the protective factors of Pierce County families.

The FSP is a community effort that promotes safe, stable, nurturing relationships and environments for all children. Partners—including Family Resource Centers (FRCs) and Triple P providers—contract with us. We work with parents and caregivers, partners, and local leaders to help families. Research shows communities can strengthen families by building protective factors when they:

- Partner with parents and caregivers to overcome challenges and build resiliency and support healthy emotional and social development.
- Create opportunities to build strong support.
- Build networks through social connections.
- Connect families to basic needs when they need it.
- Provide families with parenting and health education.

Family Resource Centers are more than just a place but also represent a different philosophy and process than traditional approaches to providing services for families. They are proactive, accessible and parent/community informed. They provide services that strengthen and empower families in two-strategy areas: Systems Navigation Support and Family Management.

- **Systems Navigation Support:** training and support to help families learn how to access services and navigate systems on their own. These systems include but are not limited to DSHS Washington Connections, TPCHD, Pierce County Human Services, City and County, education, employment, housing, health, immigration, emergency response systems, state and federal social services, behavioral health and healing centered practices and services. This support should include at a minimum:
 - Information about the rights and responsibilities of families within systems
 - The purpose of systems, or what function they serve for families, referral process; and
 - When and how systems should be utilized.
- **Family Management:** training and support to help families build and maintain positive, healthy relationships within their family and with their communities. Examples of evidence-based programs and community services that could be covered under this strategy include but are not limited to the following:
 - Positive Parenting Program (Triple P)
 - NAMI Family Support Groups
 - NAMI Family to Family Group
 - Restorative Health/Peacebuilding Circles

- Empath Economic Mobility

The Family Resource Centers (FRCs) strengthen families' protective factors through partnerships and collaborations. This is accomplished by:

- Providing Family Support Services through the Family Resource Centers that strengthen Protective Factors.
- Transforming adverse community environments through cross-sector partnerships, strategic investments, community empowerment, and program alignment.
- Promoting healing-centered, grassroots, community-based programming designed to strengthen families, decrease risk factors, and mitigate the impact of trauma.
