

Writing: Read&Write

What is it?

Read&Write by Texthelp is an all-in-one digital tool designed to support reading, writing, studying, and research for students of all abilities. With features like text-to-speech, word prediction, speech-to-text, and text simplification, it empowers learners to access and engage with content in ways that work best for them. Perfect for students with disabilities, English language learners, or those needing extra support!

Why use it?

Read&Write empowers students of all abilities to read, write, and learn more independently, making it a powerful tool for inclusive education. With features like text-to-speech, word prediction, and text simplification, it supports diverse learning needs, fosters confidence, and ensures every student can access and engage with content. It's a game-changer for creating equitable, inclusive learning environments!

How to use it?

Explore Read&Write's features to support diverse learning needs! Use text-to-speech to read aloud digital text, PDFs, or inaccessible content, and try word prediction to help students write with ease. Highlight and collect key points for studying, or simplify and summarize web pages for clearer comprehension. Additional tools like audio maker, screen masking, and voice notes make it a versatile and powerful resource for creating an inclusive learning environment.

Inclusive classroom example

In Ms. Lopez's inclusive classroom, students use Read&Write to support their unique learning needs. While Emma listens to her science article with text-to-speech, Liam uses word prediction to draft his report on volcanoes. At the same time, Sofia highlights key points from a digital textbook to organize her notes. With Read&Write, every student engages with the content in a way that works best for them!
