

SAT

The SAT is an entrance exam used by most colleges and universities to make admissions decisions. The SAT is a multiple-choice test created and administered by the College Board. The purpose of the SAT is to measure a high school student's readiness for college and provide colleges with one common data point that can be used to compare all applicants. The SAT is a digital exam; it is scored on a 1600 Scale. Below is a breakdown of the SAT.

Breakdown of SAT Testing Modules

Component	Time Allotted	Number of Questions
Reading and Writing	64 (two 32 minute modules)	54
Math	70 (two 35 minute modules).	44
TOTAL	134 minutes (2 hours, 14 minutes)	98

The SAT is a digital adaptive test: The first module of each section contains a broad mix of easy, medium, and hard questions. Based on how students perform on the first module, the second module of questions will be more or less difficult.

The SAT is offered 7 times a year. [SAT Test Dates, Locations, & Registration](#).

If you do not have a College Board Account, you will need to create one in order to register for a test. If you took the PSAT previously, then you have a College Board account. If you do not know your login details, you will need to contact [College Board](#) for assistance. Counselors do not have access to this information. Do **NOT** create a second account.
