Special Note

The At-A-Glance School and District profiles tell a story about Oregon's schools and districts. The story is harder to tell this year as the COVID-19 pandemic significantly impacted our schools and the data we collect. As a result, statewide assessment and attendance data cannot be compared to prior years and are not shown here. We have included links to our website where you can view the 2020-21 statewide assessment and attendance data and read a detailed description of how these data were impacted. We're thankful for your partnership as we focus on care, connection and the creation of safe, inclusive and supportive learning environments.

District Goals

Our plan utilizes input from staff, students, families & community. Hearing all voices ensures we represent each student; It also helps adapt our plan & budget for the future. Our ultimate goal is to make PHSD better than ever!
Our top priorities for improvement are reducing academic disparities; meeting mental & behavioral health needs; establishing & strengthening partnerships; providing equitable access to education; & developing strategies ensuring at-risk students are on track to graduate. Finally, teachers & staff need sufficient time to collaborate & review student data related to these priorities.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.
