

Presentation Tools – PowerPoint and Canva

January 15, 2025

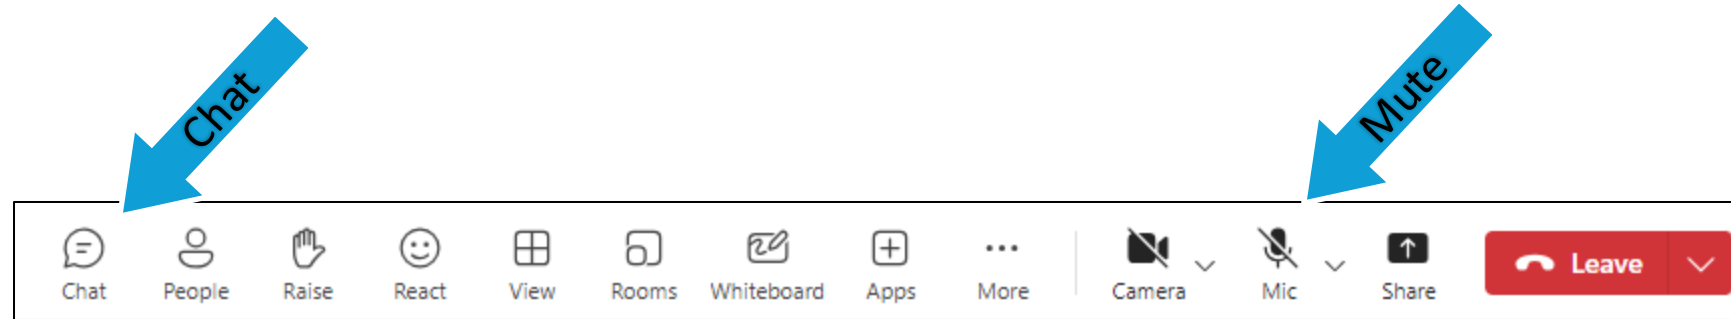

Session Description

In this session, you'll discover practical tips and hands-on demonstrations to help you make the most of these versatile tools. Whether you're a beginner or looking to refine your skills, this webinar will offer valuable insights to elevate your presentations and integrate these tools into your instructional practices.

What to Expect:

- PowerPoint Features Demo: Experience a live demonstration of PowerPoint's key features from both a teacher and student perspective, including templates, multimedia elements, the Designer tool, drawing annotations, narration capabilities, and screen capturing.
- Canva Features Hands-On: Explore Canva's design capabilities through a hands-on activity, including templates, graphics, and multimedia integration.
- Comparison and Integration: Participate in a collaborative activity to compare the strengths of PowerPoint and Canva and discuss best use cases.
- Q&A and Reflection: Engage in a Q&A session and reflect on how to apply the learning in your classroom.

Welcome and Norms

- Mute mic when not speaking
- Use the Chat area to ask questions or get help
- **Say Hello in our Chat Now:**
 - What presentation tools do you use in your instruction?
- Engage in the content and prompts

Why Use Presentation Tools with Students?

Fosters Future-Ready Skills

Engages Students and Enhances Learning

Additional Modalities for Showing what they Know

Collaboration and Reflection

Build Digital Literacy Skills in the area of Multimedia Design

Tech Scope and Sequence

Innovative Designer

Students use a variety of technologies within a design process to identify and solve problems by creating new, useful or imaginative solutions.

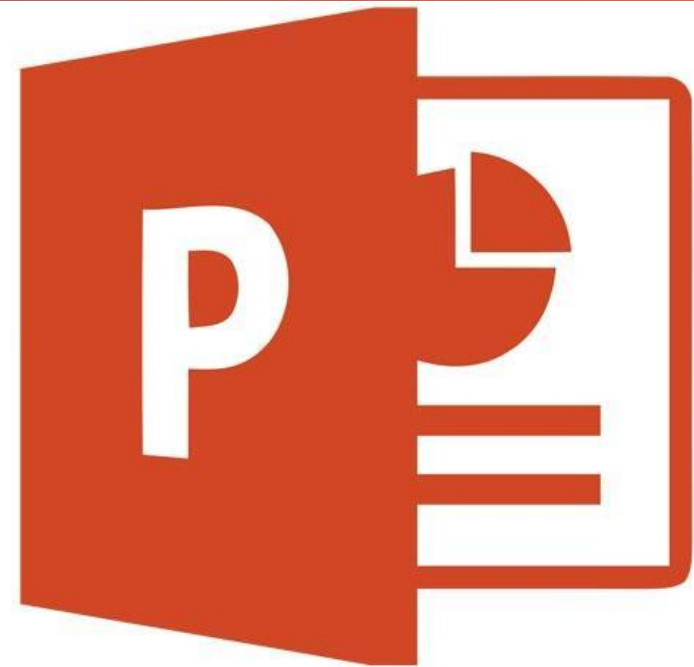

Students:

- know and use a deliberate design process for generating ideas, testing theories, creating innovative artifacts or solving authentic problems
- select and use digital tools to plan and manage a design process that considers design constraints and calculated risks.
- develop, test and refine prototypes as part of a cyclical design process.
- exhibit a tolerance for ambiguity, perseverance and the capacity to work with open-ended problems.

Technology Targets: I = Introduce | D = Develop | P = Proficient

Technology Skills	TK	K	1	2	3	4	5	6	7	8	9	10	11	12
Add, edit and format text on a slide			I	D	P									
Create a series of slides and organize them to present research or convey an idea				I	D	D	P							
Copy and paste or import graphics; change their size and position on a slide (Succinct: Handle Graphics (Copy, Paste, Import, Resize))				I	D	D	P							
Use graphic design tools/ applications to create and edit work				I	D	D	P							
Create presentations for a variety of audiences and purposes with use of appropriate transitions and animations to add interest				I	D	D	P							
Apply review tools (e.g., spelling, thesaurus, grammar checker, calculator/graphing calculator) to maximize the accuracy and impact of work.					I	D	P							
Produce images/graphics with AI to express ideas or use in projects					I	D	P							
Use AI tools to enhance and expedite the look and feel of design projects					I	D	P							
Make strategic use of digital media to enhance understanding						I	D	P						
Select appropriate programs for a multimedia product. (Example: presentation, graphic design, video)						I	D	P						
Incorporate hyperlinks, multimedia, and apply transitions/animations in presentation software.						I	D	P						
Use note-taking skills while viewing online videos and using the play, pause, rewind and stop buttons.							I	D	P					
Use presentation software for presenting to an audience: create presentation notes, adjust timing.							I	D	P					
Independently use appropriate technology tools (e.g., graphic organizer, audio, visual) to define problems and propose hypotheses								I	D	P				

PowerPoint Teams Assignment Demo

The screenshot displays the Microsoft Teams 'Assignments' interface. On the left, a sidebar contains navigation icons for Activity, Chat (with a red notification badge), Assignments, Teams, OneDrive, Calendar, and Calls. The main area is titled 'Assignments' and shows a team named 'Schwartz P01'. Below the team name, there are links to 'Home page', 'Class Notebook', 'Classwork', 'Assignments' (which is highlighted), 'Grades', 'Reflect', and 'Insights'. The 'Assignments' section is titled 'New assignment' and includes dropdown menus for 'Add to calendars: None', 'Post notifications to: General', and 'Late turn in notifications: Off'. The assignment itself is titled 'Space Exploration' and contains a list of five tasks: 1. Open the PowerPoint file below; 2. Add images and videos related to key events such as the moon landing, Mars rovers, and the International Space Station; 3. Utilize the Designer tool to enhance the visual appeal of your slides; 4. Use the Rehearse Coach feature to practice your presentation; 5. Share your Presentation with your Partner to edit and improve each other's presentations in real-time. Below the tasks, there is a reminder to turn in the assignment when finished. At the bottom, there is a file attachment section showing 'Space Exploration Presentation.pptx' with options to 'Attach', '+ New', 'Apps', 'Learning Accelerators', and 'File limits'.

A scenic landscape featuring a calm lake in the foreground, reflecting the sky and surrounding mountains. The sky is a mix of soft pinks, oranges, and blues, suggesting a sunset or sunrise. In the background, there are dark, rugged mountains with patches of snow. The overall mood is serene and contemplative.

Comparison and Integration Breakouts

Participants process the tools in small groups using Teams Breakout Rooms.

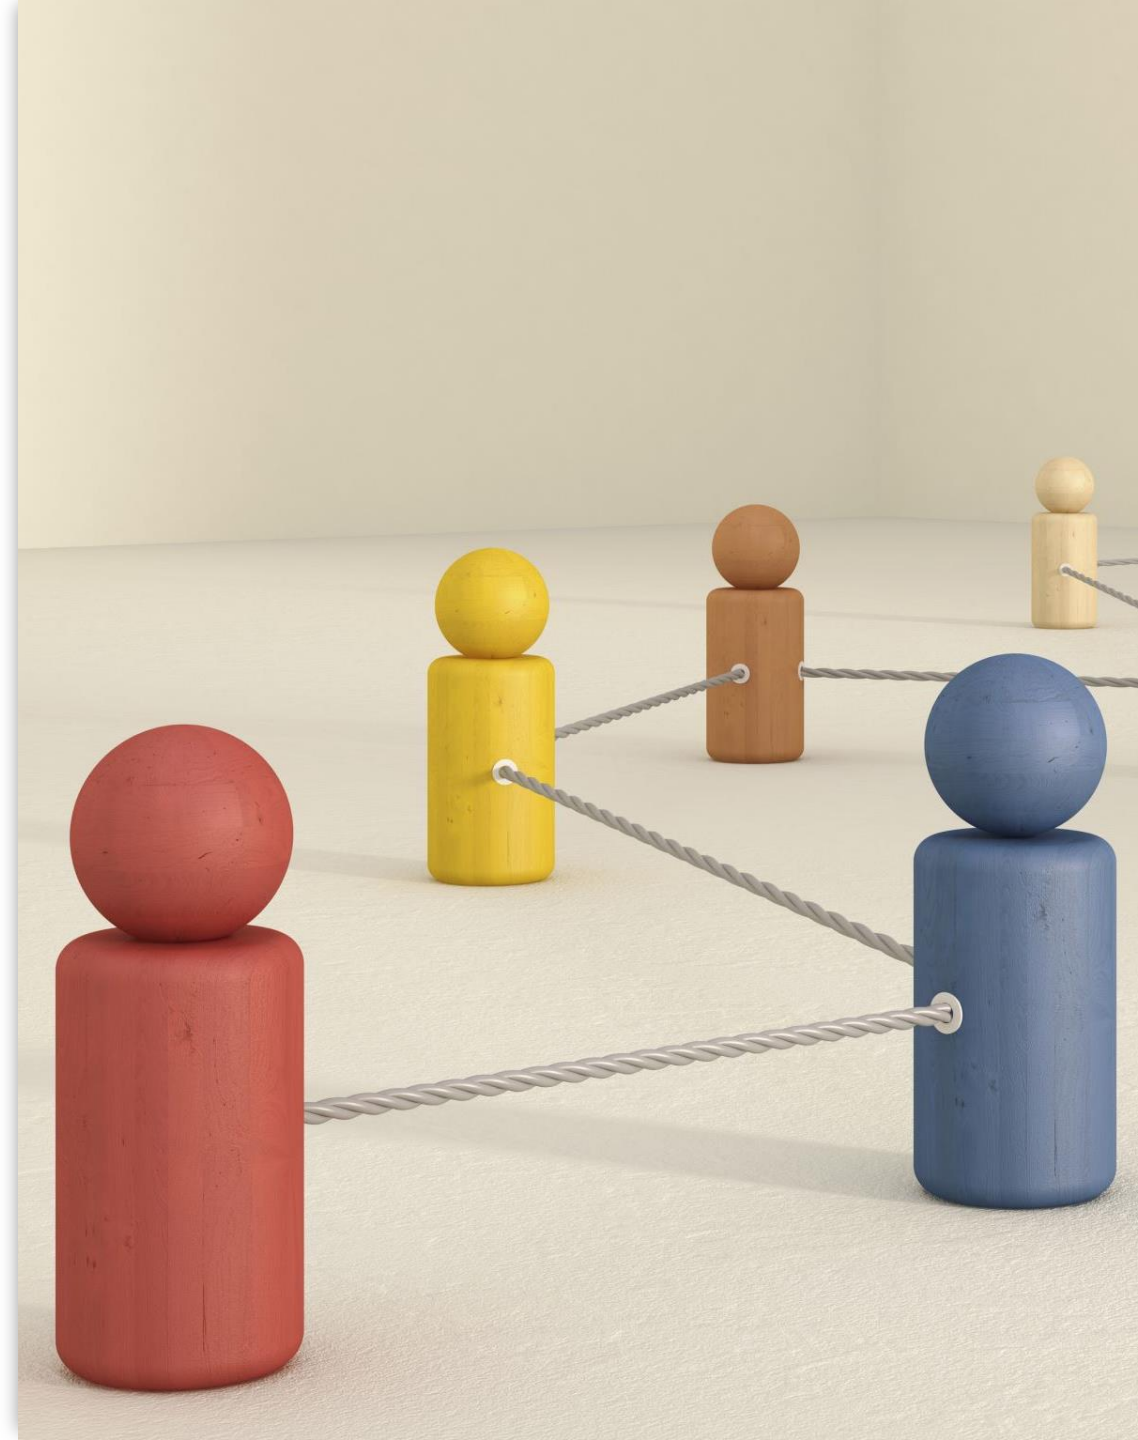

- Compare the strengths of PowerPoint and Canva.
- Discuss examples of when to use each tool.
- Identify at least two scenarios where each tool would be most effective.
- Share your findings with the larger group.

Comparison and Integration Breakouts

Criteria for Success:

- Participants will use the provided comparison chart and examples to discuss the strengths and best uses of PowerPoint and Canva.
- Each group will identify at least two scenarios where each tool would be most effective.
- Groups will share their findings with the larger group.

Q&A

Key Takeaways

You now have an understanding of the key features and benefits of both PowerPoint and Canva, enabling you to make informed choices about which tool to use for different purposes.

You have learned practical tips and techniques for effectively using PowerPoint and Canva to create engaging and visually appealing presentations.

You are now able to compare the strengths of PowerPoint and Canva and understand how to integrate elements from both tools to maximize their effectiveness in various educational contexts.

Through live demonstrations and activities, you have gained hands-on experience with Canva, allowing you to apply what you've learned in a practical setting.

You have discovered how to use PowerPoint and Canva to support and enhance student learning and engagement, making your instructional practices more dynamic and interactive.

Next Steps

How could you integrate Presentation Tools into your classroom in the next few weeks?

How do you think these tools will impact your students' learning experiences and outcomes?

How could you collaborate with your colleagues to maximize the benefits of these tools for your students?

Tech Training Evaluation Form - 2025

Please Complete the Feedback Form

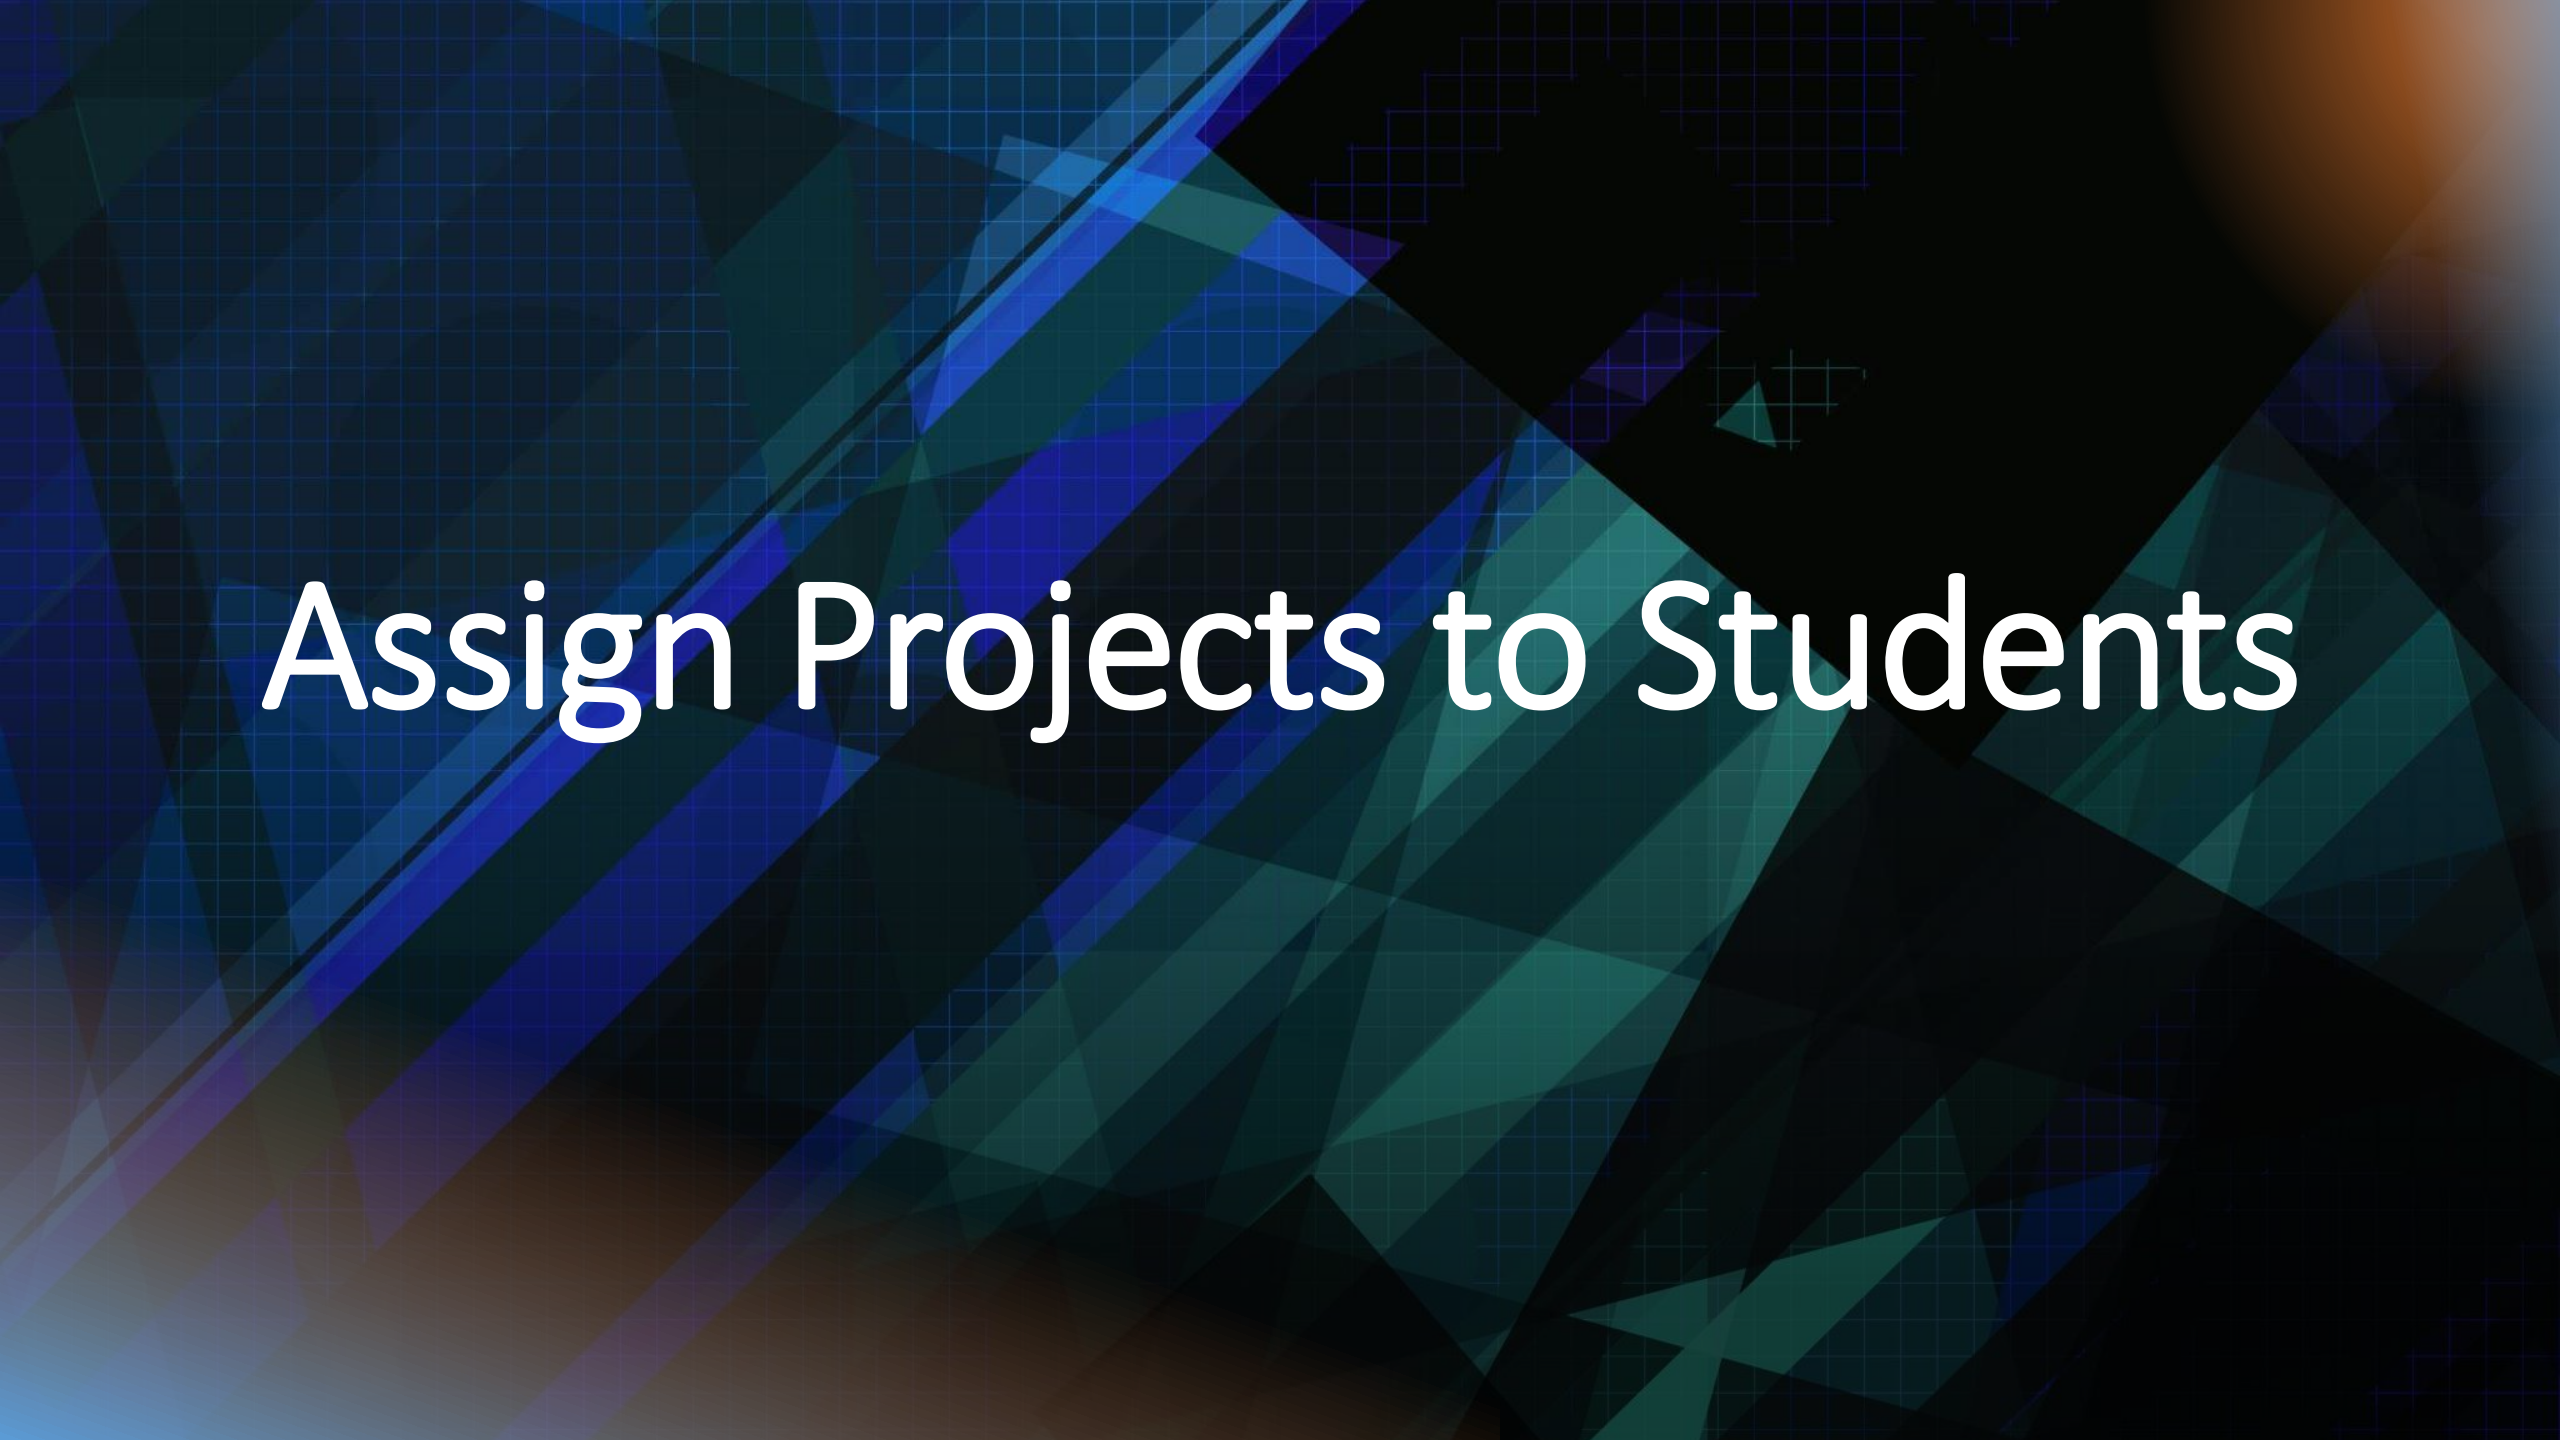

- Your feedback informs what types of trainings we may offer
- Your feedback can help us improve our training
- We will send a follow-up form
- We would love to visit your classroom and see how you're using AI

Canva Resources

Assign Projects to Students

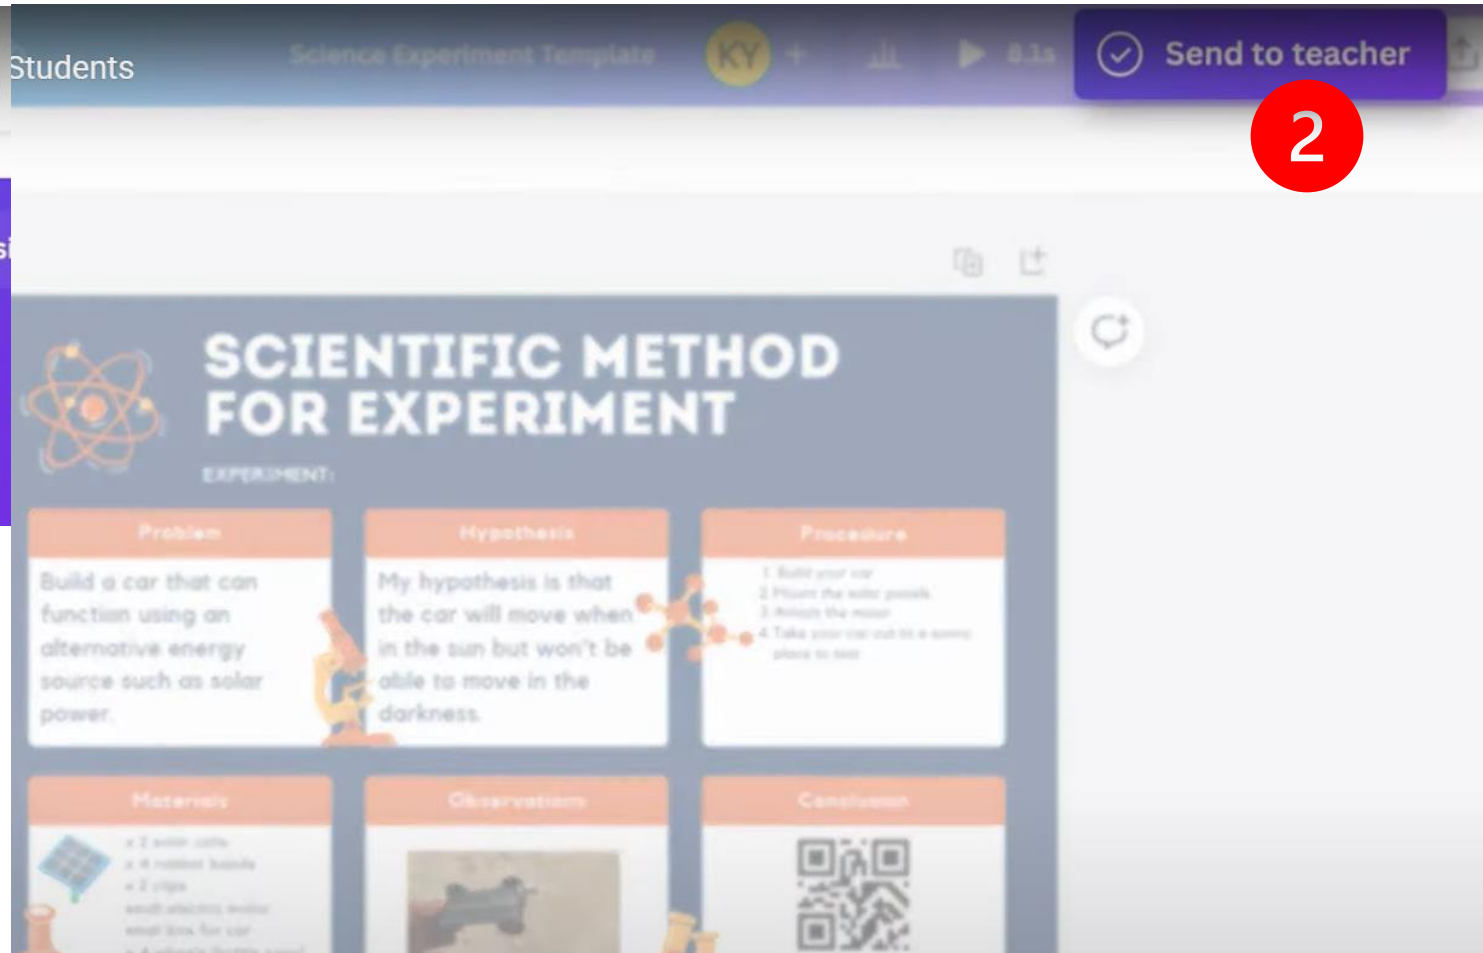

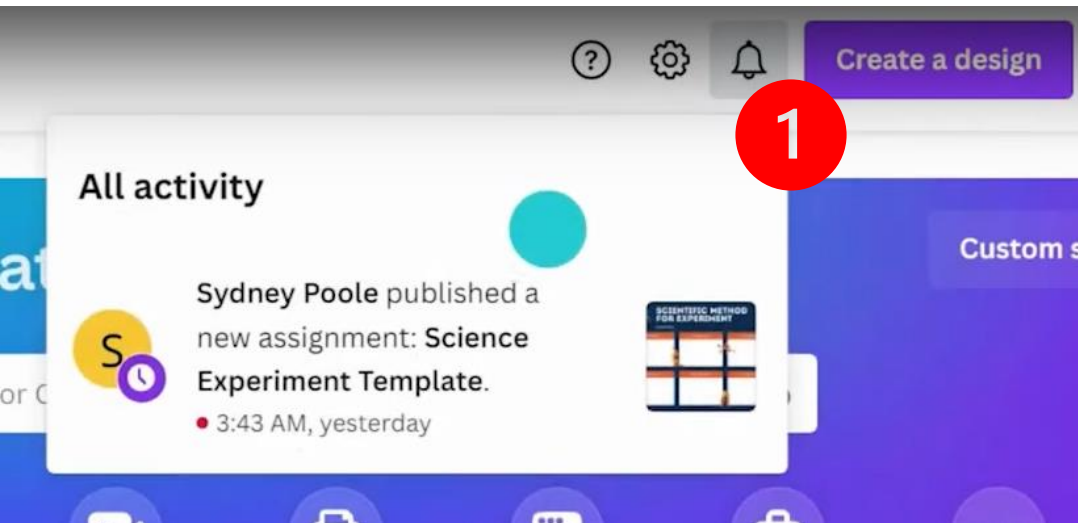

Assign to Students

The image displays a sequence of four screenshots illustrating the process of assigning a Canva design to students, with numbered red circles highlighting key steps:

- Step 1:** The 'Share this design' panel is shown. The 'Assignment' icon (a document with a checkmark) is highlighted with a red circle labeled '1'.
- Step 2:** The 'Assignment' panel is shown. Under 'Choose where students should submit work', 'Canva' is selected from the dropdown menu, highlighted with a red circle labeled '2'.
- Step 3:** The 'Assignment' panel is shown. The 'Instructions' text area contains the text 'Please complete the infographic with yo', highlighted with a red circle labeled '3'.
- Step 4:** The 'Assignment' panel is shown. The 'Who is this assignment for?' dropdown menu is open, showing 'history group 1' selected, highlighted with a red circle labeled '4'.

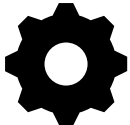

The final 'Assignment' panel also shows a notification: 'Students will be notified about this work after publishing.' and a 'Publish' button at the bottom.
