

## Eighth Grade Scheduling

Dear Rising Eighth Grade Students and Families,

As we begin the second semester, it is time to focus on scheduling for the 2025-2026 school year. Our [2025-2026 Program of Studies](#) is available for families and students through our website. Within the document, you will find essential information detailing curricular offerings, key contacts, course selection, and scheduling. In addition, we have included information on Career Education and Work Standards. This is an area of focus for the district as we work to help all students identify their plans after high school. We encourage you to use this as a guide throughout the scheduling process.

In the coming weeks, a Course Request form will be made available to you through your parent account in the Sapphire Community Portal. Once you receive the form, please review the information with your student, choose any eligible elective courses, and submit the form as soon as possible.
