As part of the school district's effort to publicize the achievements of our students and staff, Westport Community Schools encourages the publication of articles and photographs of some of our students' special events. Westport Community Schools has also entered the technology age by producing cablecasts and/or videotapes for educational purposes and by maintaining a district-wide website. From time to time, your child may be cablecast, videotaped or photographed during school hours or at school events for broadcast on our Educational Public Access Channel (Channel 16) or on our district's website. Any cablecast programming produced by or for Westport Community Schools is reviewed and approved by the Superintendent.

The publication or use of any student name or photograph in any media, including newspapers, magazines, journals, television, community cablecast or educational videos and our district website requires your explicit permission. Please complete the information below.

As this student's parent or legal guardian, **I authorize the release by Westport Community Schools** the use of my child's name and/or photographs in connection with school events in newspapers, magazines, journals, television, community cablecast or educational videos and our district website.

As this student's parent or legal guardian, **I DO NOT authorize the release by Westport Community Schools** the use of my child's name and/or photographs in connection with school events in newspapers, magazines, journals, television, community cablecast or educational videos and our district website.
