## THE CANDY CORN WHO CAME TO LIFE.

### **BY :THOR MUENCH AND TOMMY MARTIN**

It was Halloween night, and a kid was trick or treating. Somebody walked by him, and sprayed living spray in his candy basket. When he sprayed it in the kids candy basket the spray affected only the candy corns in the candy basket. The candy corns came out and ran out in the street. They found a kid, and they tapped them on their ankles and went into their basket and ate all their candy! The kids looked in their baskets, and there was no candy! "Where is my candy?",said the kids. The kids found the candy corn running and chased the candies. The kids went crying to their moms and dads saying the candy corns ate my candy. The parents said I don't believe it. The kids went trick-ortreating again and they got all the candy. THE END

# Mr. Durfee's Halloween By Leah Michaud

Have you ever wondered what Mr. Durfee's favorite candy is? It is indeed Reeses. And whenever you ask yourself I wonder who else goes trick or treating well now that you read this newspaper you will know Mr. Durfee goes every year and his favorite way to celebrate Halloween is to bob for apples with his kids. And "my favorite scary movie is The Great Pumpkin (Charlie Brown)" said Mr. Durfee. But although he goes trick or treating he has never participated in trunk or treat. And he celebrated Halloween as a kid. His favorite trick or treating memory is when he was 8 and his dad took his brother, his sister, and him trick or treating. He also really likes to watch Halloween movies with his kids and his family. His favorite time of October is the middle of the month.

# **Field Trip** By Kim Vino and Aurora Lima

The field trip is with a band. There are drums, trumpets, guitar, harp, oboe and a piano. It was AWESOME! Sitting far away is loud. It is loud because of the drums. The drums, piano, and harp are in the back because they are big and loud they will ask questions. We traveled through spacecraft and went to a different time. We had to go home. Plus there's magic.
