Mr. Davis received his B.S. in Biology from the University of Texas Pan-American (now UTRGV) in South Texas and spent 6 years teaching at schools in that area. Time spent teaching students with both learning disabilities and language issues helped shape his belief that while the content of a science class can be difficult for some, with the right teaching approach any student can benefit and draw important lessons from time spent in that area. Now that he has transitioned to teaching Science at the Boerne Academy, he hopes to make a difference by assisting and guiding students to gain the mastery they need to meet their individualized education goals.
