Sustainability Advisory Committee

Lake Washington
School District

Agenda

5:00 – 5:20 Welcoming Activity

5:20 – 5:40 Purpose Background

5:40 – 5:55 Break

5:55 – 6:55 Activity

6:55 – 7:00 Closure

Welcome:

Your name

School Affiliation

What interests you in
joining this committee

One resolution for this
year

Committee Purpose:

Explore

Explore the progress that LWSD is making in relation to the four focus areas of its sustainability policy.

Discuss

Discuss recommendations and considerations for ongoing improvement related to sustainable practices.

Assist and guide

Assist and guide LWSD in assessing courses of action moving forward.

Committee Expectations:

Attend all meetings or
inform prior

Actively participate and
listen

Approach topics with a
broad perspective

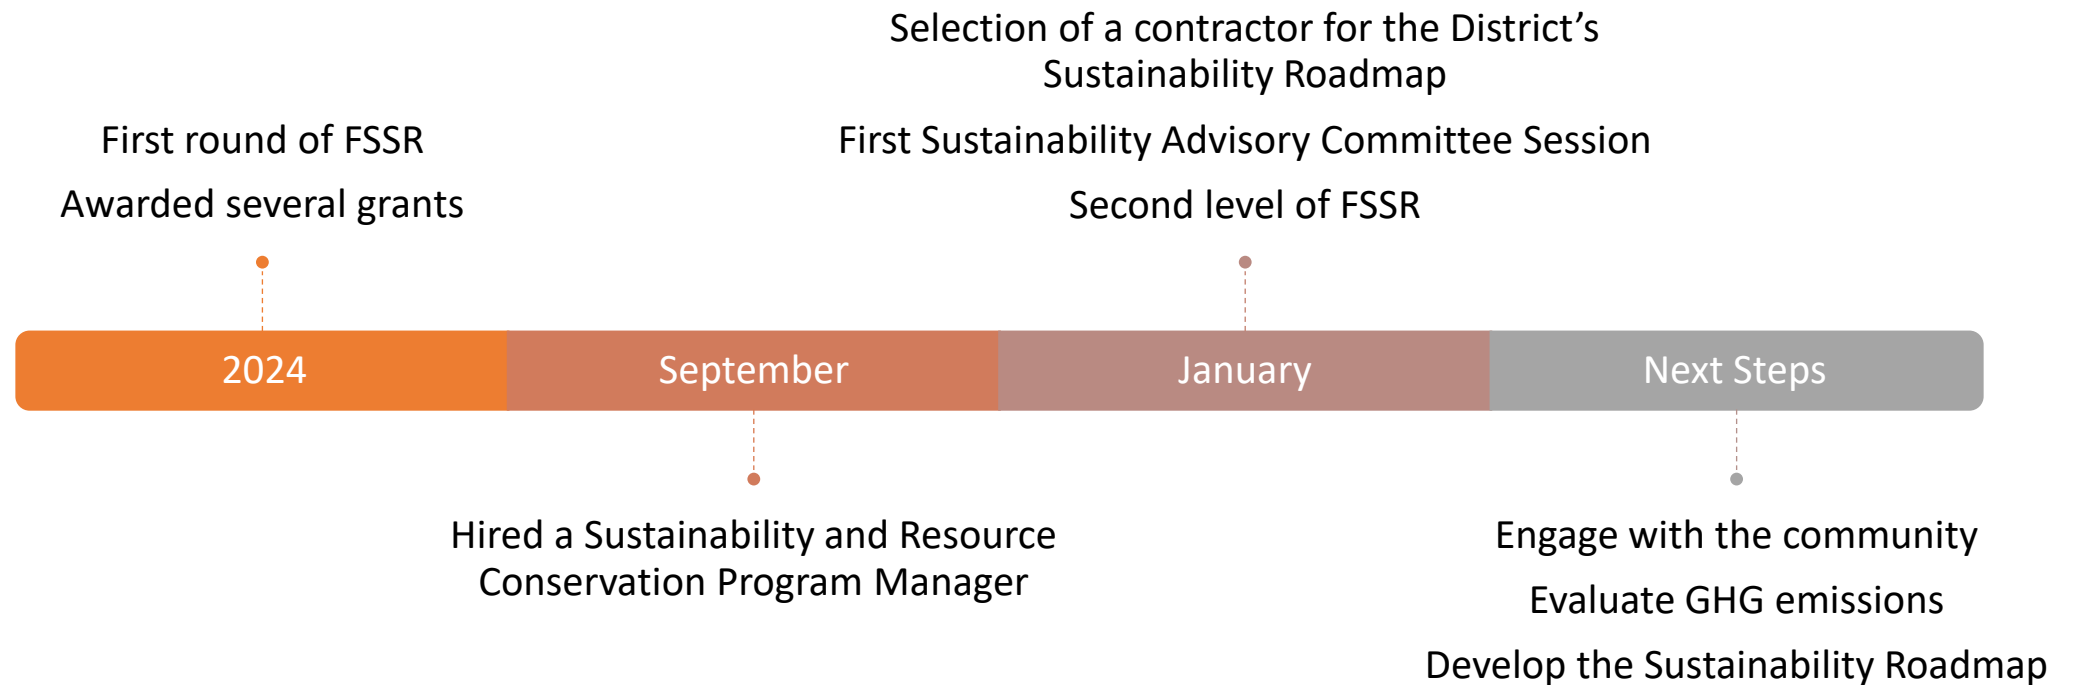

What do you believe our
expectations should be?

Background:

- In 2024, LWSD adopted Operational Expectation Policy 9: Sustainability to:
 1. Reduce and/or mitigate the environmental impact of District operations,
 2. Enhance the resiliency of the District towards future environmental impacts,
 3. Prepare students to graduate ready for a future where they are equipped to understand and address the complex and challenging interrelationships between humans and the environment, and
 4. Equip staff to appropriately support District efforts related to this policy.

Progress:

Break

Please be back in
15 minutes

How we are measuring progress:

1. The school district has a written plan that articulates the goals and strategies related to sustainability and resource conservation management.
2. The school district has a written plan that articulates the goals and strategies related to the reduction and sequestration of greenhouse gas emissions.
3. The school district has a written plan that articulates the goals and strategies related to waste reduction.
4. Coordinate district goals and plans with local entities such as city/county government, local businesses, and other groups with sustainability/climate action plans.
5. Ensure compliance with state legislation/code as it relates to sustainability such as clean buildings, composting, etc.

Today's Focus:

- The focus for this meeting will be on 9.1: **Reduce and/or mitigate the environmental impact of District operations**

What should
we be
focusing on?

Split into 5 groups

Spend 5 minutes on each prompt

Rotate

Group discussion
