

**Sunday  
March 9,  
2025  
9am – 4pm**

**Harper Junior High  
Gymnasium**

**4000 E. Covell Blvd.  
Davis, CA 95816**

**Anyone Aged 12 – 25**

**Cost: FREE**

**Parking: FREE**

**We need medical and  
general volunteers  
for this event!**

**Register in advance  
to volunteer or to be  
screened at:**

**[www.kylejtaylor.org/  
screenings](http://www.kylejtaylor.org/screenings)**

## **Free Youth EKG Heart Screening**

### **Prevent Sudden Cardiac Arrest (SCA) in Sacramento Youth**

**One in 300 youth have an undiagnosed heart condition  
that puts them at risk for SCA**

**#1 cause of death of student athletes**

**#1 cause of death on school campuses**

**23,000 people under 18 are afflicted by SCA annually in  
the United States**

Regular check-ups and sports physicals miss about 85-90% of the issues that can cause SCA in children and young adults. Most conditions must be seen on an electrocardiogram (EKG) because they are structural or electrical issues that cannot be heard through a stethoscope. This is a simple test that records the electrical activity of the heart using small sticky electrode patches that are attached to the skin of the chest. EKG testing is quick and painless. We will also have echocardiogram available onsite upon request from the physicians.

The screening includes cardiac risk assessment, EKG, and doctor review, which takes about 40 minutes.

*To learn more about SCA in youth and what happens at the heart screening please visit [www.kylejtaylor.org](http://www.kylejtaylor.org), or contact Project ADAM Coordinator Rebecca McCormac at 916-627-9533 or [rmccormac@ucdavis.edu](mailto:rmccormac@ucdavis.edu).*
