Academic Supports at KHS

All students at KHS have a chance to make up credits and remediate their academic skills. The school does offer additional programs to help students close those larger skill and credit gaps they may have, however:

- Tutoring by CSUS math education students will begin in February 2025 during Per. 5 and 6 math classes to help students complete their coursework.
- Reading fluency tutoring in Room 4 is available for students recommended by their English teacher or case manager.
- On the second Thursday class of each three-week session, all teachers pause their teaching to allow students to practice skills and make-up assignments before the session ends.

For more information, email Academic Coach Ellen Chrismer at echrisme@fcusd.org.
