Job Description
Prepared/Revised: **January 2025**

Job Title:	**Network/Systems Administrator I**	Job Code:	**090601**
Job Family:	**IT Administrative**	FLSA Status:	**Ex- C**
Pay Program:	**Administrative**	Pay Range:	**L04**
Typical Work Year:	**12 months**		

SUMMARY:

The Network/Systems Administrator I plays a crucial role in ensuring the functionality and operation of the District's IT networking systems and equipment. This position encompasses monitoring of network performance, assisting with deployment of solutions and equipment, maintaining system documentation, and managing hardware and software components. Working in close collaboration with other members of IT, assists with testing and resolving technical issues while adhering to the District's standards, security protocols, and operational procedures. With a strong emphasis on customer service, the Network/Systems Administrator I maintains effective communication to ensure the reliability, availability, and optimal performance of the network environment.

ESSENTIAL DUTIES AND RESPONSIBILITIES: *To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.*

Job Tasks Descriptions	Frequency	% of Time
1. Ensure the continuous operation of District network systems and environment, including monitoring, responding to incidents, and conducting routine maintenance tasks.	D	40%
2. Efficiently manage and respond to customer-generated incidents and service requests, addressing inquiries, and issues in a timely manner. Provide courteous and professional support to end-users, troubleshooting problems, and ensuring resolutions align with best practices.	D	25%
3. Administer, troubleshoot, implement, and maintain appropriate security measures to restrict unauthorized or inappropriate use of District resources and data.	D	10%
4. Collaborate with District and partner stakeholders to develop and support network infrastructure to meet IT Service Level Agreements allowing the District to meet its objectives and improve the customer experience with IT.	D	10%
5. Contribute to the development and execution of the District's network systems and equipment, aligning initiatives with organizational goals, and recommending strategic directions.	D	5%
6. Participate in the assessment of new technologies for potential security risks and benefits, providing valuable input to decision-making processes.	D	5%
7. Perform other duties as assigned.	D	5%
TOTAL		100%

EDUCATION AND RELATED WORK EXPERIENCE:

- Associates degree in information systems or a related field. Two years of similar and relevant experience may be substituted for this requirement.
- Basic knowledge of network protocols, hardware, and concepts.
- Familiarity with Windows and/or Linux operating systems.
- Zero to two year of experience in IT operations and support.

LICENSES, REGISTRATIONS or CERTIFICATIONS:

- Criminal background check required for hire.
- Preference for candidates with current certifications relevant to the Network/Systems Administrator role such as CompTIA Network+, Cisco CCNA, Cisco CCNP, etc.

TECHNICAL SKILLS, KNOWLEDGE & ABILITIES:

- Network Administration:
  - Monitor network performance and resolve connectivity issues to ensure optimal operation and minimal downtime.

- Perform regular system checks, updates, and patching to maintain system reliability, performance, and security.
- Assist with the configuration, installation, and maintenance of network hardware.
- Possess an understanding of VLANs, DHCP, and DNS for effective network management.
- Provide technical support to end-users, addressing hardware, software, and network-related issues with a focus on delivering high-quality customer service.
- Support IT-related concerns for employees, ensuring timely solutions and a high level of user satisfaction.
- Maintain documentation for network configurations, policies, and procedures to ensure accurate and up-to-date records.
- Create and update IT process documentation, helping standardize procedures.

- Security and Compliance:
  - Understand and apply cybersecurity principles, adhering to best practices for network security and data protection.
  - Assist in maintaining and improving security protocols, ensuring compliance with District and industry security standards.
  - Participate in security audits, helping ensure all network operations align with established security policies.
- General Administrative and Technical Skills and Abilities:
  - Communicate effectively with both technical and non-technical personnel to coordinating activities and deliver clear technical solutions.
  - Work collaboratively with diverse groups, fostering an inclusive environment that respects differences in culture and background.
  - Uphold confidentiality across all job functions, particularly when dealing with sensitive information.
  - Stay informed of District policies, standards, and training related to data quality, privacy, and cybersecurity, ensuring compliance with relevant guidelines for student and staff data.
  - Adhere to Board of Education and Superintendent Policies, as well as department and building procedures.
  - Recognize workplace safety as a priority, following safety protocols, using appropriate safety equipment, and reporting unsafe conditions to supervisors.
  -
