

July 28-August 1, 2025
Pottersville, New Jersey

For Students entering
Grades 10-12

ENVIRONMENTAL LEADERS ACADEMY

A Watershed University Residential Summer Program

Join us for an enriching and immersive week-long residential program designed exclusively for high school students passionate about conservation. Our program offers a unique opportunity to learn directly from experts in the conservation field, fostering a deep understanding of environmental issues and innovative solutions.

Throughout the week, participants will engage in hands-on activities, field trips, workshops, and discussions led by leading professionals and researchers in conservation science, ecology, wildlife management, sustainability, and environmental policy. Connect with like-minded peers, get inspired, and have fun!

This program is scholarship-based*, all meals and lodging are provided!

*participants pay an optional fee on a sliding scale to attend the program
