

Sexting

Tips for Parents & Youth

During this pandemic there has been a dramatic increase in our nation's youth online activities. The ICAC Task Forces are seeing a rise in self-generated sexually explicit material by children... from some younger than 8-years old. This material is also known as sexting, nudes or Child Sexual Abuse Material (childpornography). With a generation of youth as online content creators, it is important for parents to have open communication with their children about content sharing. With both boys and girls involved in sexting behaviors, parents need to have age appropriate conversations with their children, beginning as soon as they have access to any technological device. Conversations with youth should include these sentiments with a clear follow up explanation as to why it is so important to NOT SEND, NOT ask others and NOT share sexually explicit images or videos.

JAMA Pediatrics, Prevalence of Multiple Forms of Sexting Behavior Among Youth, April 2018:

14.8% teens sent and 27.4% received a sext

12% forwarded a sext without consent

- Support friends that don't ask, share or forward images / videos
- Show respect & avoid blaming or bullying others
- Report incident to CyberTipline, School Resource Officer, Law Enforcement, Counselor & social media provider / host
