INDEPENDENT AUDITORS' REPORT

Board of Trustees
Victor Elementary School District
Victorville, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Victor Elementary School District, as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Victor Elementary School District, as of June 30, 2024, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of proportionate share of the net pension liability, schedule of pension contributions, schedule of changes in the District's total OPEB liability and related ratios, schedule of the District's proportionate share of the net OPEB liability-MPP Program, and the notes to the required supplementary information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Expenditures of Federal Awards as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information, except for the Schedule of Charter Schools, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards and other supplementary information listed in the table of contents, except for the Schedule of Charter Schools, are fairly stated, in all material respects, in relation to the basic financial statements as a whole. The information in the Statistical Section of the audit report has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on it.

The Schedule of Charter Schools has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the LEA Organization Structure but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

VICTOR ELEMENTARY SCHOOL DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Fiscal Year Ended June 30, 2024

INTRODUCTION

This section of Victor Elementary School District's (VESD) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2024. Please read this analysis in conjunction with the District's audited financial statements.

- The District is currently operating sixteen schools and two charter schools. VESD has an enrollment of 12,321 students for October 2024 with enrollment projected to remain stable for 2025-26.

FINANCIAL HIGHLIGHTS

- Total net position increased 25.0% over the course of the year.
- The District's General Fund available reserves were 10.7% of total outgo.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts: management's discussion and analysis (this section), the basic financial statements, required supplementary information, and statistical information. The basic financial statements include two kinds of statements that present different views of the District:

- Government Wide Financial Statements – these district wide statements provide both short term and long-term information about the District's overall financial status.
- Fund Financial Statements – these focus on individual parts of the District, reporting the District's operations in more detail than the district wide statements.
- *Fiduciary funds* statement provides information about the financial relationships in which the District acts solely as a trustee or custodian for the benefit of others to whom the resources belong.
- Notes to the financial statements provide more detailed data and explain some of the information on the statements. The required supplementary information section provides further explanations and supports the financial statements with a comparison of the District's budget for the year.

District Wide Statements

The district wide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the 2023-24 revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district wide statements report the District's net position and how they have changed. Net position is the difference between the District's assets and liabilities and is one way to measure the District's financial health or position. However, to assess the overall health of the District, additional non-financial factors such as changes in the District's condition of school buildings and other facilities need to be considered.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds, not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and bond covenants.

VICTOR ELEMENTARY SCHOOL DISTRICT
Management's Discussion and Analysis (Unaudited)
For the Fiscal Year Ended June 30, 2024

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

VESD has two kinds of funds:

Governmental Funds – All of the District's basic services are included in governmental funds, which generally focus on:

1. How cash and other financial assets can readily be converted to cash flow in and out
2. The balances left at year end that are available for spending

Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

Fiduciary Funds – The District is a trustee, or fiduciary, for assets in relation to the CFDs. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the district wide financial statements because the District cannot use these assets to finance its operations.

THE SCHOOL DISTRICT AS A WHOLE

One of the frequent questions asked about the District's finances is, "Is the District better off or worse as a result of the year's activities?" The "Statement of Net Position" and the "Statement of Activities" report information about the District as a whole and about its activities in a manner that helps to answer this question.

Statement of Net Position and the Statement of Activities

VESD's combined net position was \$192.7 million as of June 30, 2024, \$38.5 million more than it was the year before. Current assets increased due to increased federal and state grants.

	Governmental Activities		Variance
	2024	2023	Increase (Decrease)
Assets			
Current assets	\$ 293,835,527	\$ 260,907,794	\$ 32,927,733

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds had combined fund balances of \$250.6 million, up \$20.1 million from 2022-23. The General fund increase is due primarily to increased federal and state grants. Refer to the table below for individual funds.

Fund	Fund Balances				
	July 1, 2023	Revenues	Expenditures	Other Sources and (Uses)	June 30, 2024
General Fund	\$ 131,009,966	\$ 274,821,040	\$ 261,521,295	\$ (18,207,951)	\$ 126,101,760
Charter School Fund	8,268,333	7,414,292	7,582,131	-	8,100,494
Cafeteria Fund	7,239,660	13,009,112	10,471,474	66,343	9,843,641
Deferred Maintenance Fund	2,516,584	41,202	(47,132)	-	2,604,918
Special Reserve Fund					
(Postemployment Benefits)	4,839,412	157,917	-	-	4,997,329
Capital Facilities Fund	3,817,077	454,723	225,251	-	4,046,549
County School Facilities Fund	-	127	-	(127)	-
Special Reserve Fund (Capital Outlay)	64,563,786	6,575,996	5,354,282	20,000,127	85,785,627
Capital Outlay Fund for Blended					
Component Units	2,021,023	655,438	218,198	-	2,458,263
Bond Interest and Redemption Fund	6,189,784	6,169,577	5,701,676	-	6,657,685
	<u>\$ 230,465,625</u>	<u>\$ 309,299,424</u>	<u>\$ 291,027,175</u>	<u>\$ 1,858,392</u>	<u>\$ 250,596,266</u>

The above funds are accounting devices the District uses to keep track of specific sources of funding and spending. The most significant budgeted fund is the General Fund.

In June of each year, a budget is adopted by the Victor Elementary School District's Board of Trustees, effective July 1 through June 30. The budget is based on year-end projections from the previous year's budget, the State of California's projected budget and projected District growth. As the school year progresses, the budget is revised and updated with financial reports made public outlining the revisions. Finally, in August of the following year, the books are closed for the July 1 through June 30 fiscal year and the results are audited, yielding actual final numbers.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (continued)

General Fund (continued)

General Fund revenues can be divided into four classifications. Below is a chart showing 2023-24 General Fund Revenues:

VICTOR ELEMENTARY SCHOOL DISTRICT
Management's Discussion and Analysis (Unaudited)
For the Fiscal Year Ended June 30, 2024

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

VESD's investment in net capital assets amounts to \$171.8 million. The table below shows the individualized amounts, net of depreciation.

	Governmental Activities		Variance
	2024	2023	Increase (Decrease)
Land	\$ 29,720,762	\$ 16,393,649	\$ 13,327,113
Improvement of sites	3,986,770	4,174,371	(187,601)
Buildings	115,129,834	119,644,311	(4,514,477)
Equipment	9,170,600	8,368,212	802,388
Construction in progress	9,925,338	239,926	9,685,412
Leased assets	380,604	610,788	(230,184)
Subscription assets	3,477,288	3,029,911	447,377
Total	<u>\$ 171,791,196</u>	<u>\$ 152,461,168</u>	<u>\$ 19,330,028</u>

The buildings consist of sixteen schools, two charter schools, the District office, maintenance and warehouse facility, cafeteria facilities, a Family Resource Center with meeting rooms, a transportation facility and a district office.

Long Term Debt

At year-end, the District had \$272.4 million in long term debt. The chart below describes the various debt vehicles and a comparison with last year.

	Governmental Activities		Variance
	2024	2023	Increase (Decrease)
General obligation bonds	\$ 68,786,338	\$ 71,105,002	\$ (2,318,664)
Compensated absences	801,933	863,789	(61,856)
Other postemployment benefits	59,986,596	58,334,976	1,651,620
Net pension liability	138,973,604	121,266,544	17,707,060
Equipment leases	381,341	611,341	(230,000)
Subscription based IT arrangements	3,443,339	2,867,717	575,622
Total	<u>\$ 272,373,151</u>	<u>\$ 255,049,369</u>	<u>\$ 17,323,782</u>

VICTOR ELEMENTARY SCHOOL DISTRICT
Management's Discussion and Analysis (Unaudited)
For the Fiscal Year Ended June 30, 2024

FACTORS BEARING ON THE DISTRICT'S FUTURE

State Budget

The Legislature passed an initial budget on June 15, 2024. The main structural difference between the legislative package and the May Revision was that the legislative package started the proposed limitation on NOLs and tax credits one year earlier—resulting in roughly \$5 billion in additional revenue. The Legislature's budget used that additional budget capacity to reject some of the Governor's spending solutions and/or provide other augmentations. The legislative package also included a large number of other smaller changes across a variety of programs. The legislative package used slightly more (nearly \$1 billion) in general purpose reserves than the May Revision.

K-14 Education

Funds Modest COLA and a Few Smaller Augmentations

For 2024-25, the budget provides \$1 billion to cover a 1.07 percent COLA for existing school and community college programs. For schools, the budget also provides an increase of \$300 million (\$179 million ongoing and \$121 million one time) to cover cost increases related to universal school meals. A small portion of the budget's remaining funds are allocated to cover enrollment- and caseload-driven increases in a few specific areas.

Implements Small Payment Deferral

The budget reduces spending in 2024-25 by deferring \$487 million in payments to 2025-26. Of this deferral, half applies to schools and half applies to community colleges. The state will implement the deferral by delaying a portion of the payment districts ordinarily would receive in June 2025 to July 2025. The law allows school districts to be exempt from this deferral (meaning they would receive all of their funding on time) if they can show the delay would cause fiscal insolvency. The purpose of the deferral is to reduce spending in 2024-25 to the minimum level required by Proposition 98.

Suspends Proposition 98 Requirement and Reduces Spending

For 2023-24, the budget invokes a provision allowing the state to suspend the minimum Proposition 98 requirement and reduce spending on schools and community colleges by \$8.3 billion relative to the level otherwise required that year. Separate from this action, the budget makes a \$2.6 billion reduction attributable to 2022-23. Both of these reductions lower the Proposition 98 requirement on an ongoing basis. The combined effect of these reductions is to reduce General Fund spending by \$12.7 billion over the 2022-23 through 2024-25 period. As required by the State Constitution, the budget also withdraws the entire balance from the Proposition 98 Reserve (\$8.4 billion) in 2023-24 to supplement the funding provided to schools and community colleges. In 2024-25, the budget begins to build back the Proposition 98 Reserve by making a discretionary deposit of nearly \$1.1 billion.

Bond Funds

The state is seeking approval of two bond measures on the November 2024 ballot: Proposition 2 and Proposition 4. Proposition 2 would allow the state to borrow \$10 billion to build new facilities and renovate existing facilities at school districts and community colleges. The cost to repay this bond would be about \$500 million each year for 35 years. Proposition 4 would allow the state to borrow \$10 billion to pay for various natural resources and climate activities. The cost to repay this bond would be about \$400 million each year for 40 years. The cost to repay both bonds would total about \$900 million each year.

VICTOR ELEMENTARY SCHOOL DISTRICT
Management's Discussion and Analysis (Unaudited)
For the Fiscal Year Ended June 30, 2024

FACTORS BEARING ON DISTRICT'S FUTURE (continued)

Scores Savings Related to Attendance and a Few Other Adjustments

In response to significant declines in attendance over the past several years, the state adopted a series of policies temporarily funding school districts based on the attendance they reported prior to the COVID-19 pandemic. For 2024-25, the budget assumes savings of \$1.8 billion as these higher pre-pandemic attendance levels phase out of district funding calculations. In addition, the budget obtains \$1.2 billion in savings by (1) deferring some payments from 2024-25 to 2025-26, (2) reducing funding for State Preschool that is expected to go unused, and (3) repurposing certain unspent appropriations from previous years. Under the Constitution, the state must dedicate all of these savings to other school and community college purposes.

All of these factors were considered in preparing the Victor Elementary School District budget for the 2024-25 fiscal year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Office at 12219 2nd Street, Victorville, California 92395.

VICTOR ELEMENTARY SCHOOL DISTRICT

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2024

Total fund balances - governmental funds \$ 250,596,266

In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets, leased assets, subscription assets, and accumulated depreciation and amortization.

Capital assets relating to governmental activities, at historical cost	281,277,663	
Accumulated depreciation	(113,344,359)	
Leased assets	795,625	
Subscription assets	5,096,880	
Accumulated amortization	<u>(2,034,613)</u>	
Net:		171,791,196

In governmental funds, interest on long-term debt is not recognized until the period in which it matures and is paid. In the government-wide statement of activities, it is recognized in the period that it is incurred. The additional liability for unmatured interest owing at the end of the period was:

(391,458)

Deferred amounts on refunding represent amounts paid to an escrow agent in excess of the outstanding debt at the time of the payment for refunded bonds which have been defeased. In the government-wide statements it is recognized as a deferred outflow of resources. The remaining deferred amounts on refunding at the end of the period were:

424,986

In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

General obligation bonds	68,786,338	
Compensated absences	801,933	
Equipment leases	381,341	
Subscription based IT arrangements	3,443,339	
Other postemployment benefits	59,986,596	
Net pension liability	<u>138,973,604</u>	
Total		(272,373,151)

In governmental funds, deferred outflows and inflows of resources relating to OPEB are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to OPEB are reported. Deferred outflows and inflows relating to OPEB for the period were:

Deferred outflows of resources relating to OPEB	9,549,404	
Deferred inflows of resources relating to OPEB	<u>(12,023,327)</u>	
Total		(2,473,923)

In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported. Deferred outflows and inflows relating to pensions for the period were:

Deferred outflows of resources relating to pensions	63,181,776	
Deferred inflows of resources relating to pensions	<u>(18,057,391)</u>	
Total		<u>45,124,385</u>

Total net position - governmental activities \$ 192,698,301

VICTOR ELEMENTARY SCHOOL DISTRICT

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities For the Fiscal Year Ended June 30, 2024

Total net change in fund balances - governmental funds \$ 20,130,641

Amounts reported for governmental *activities* in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation or amortization expense. The difference between capital outlay expenditures and depreciation and amortization expense for the period is:

Expenditures for capital outlay	28,264,660	
Depreciation expense	(7,374,138)	
Amortization expense	<u>(1,560,494)</u>	
Net expense adjustment:		19,330,028

In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long term debt are reported as a reduction of liabilities. Expenditures for repayment of the principal portion of long term debt were:

3,224,944

In governmental funds, proceeds from debt are recognized as other financing sources. In the government-wide statements, proceeds from debt are reported as an increase to liabilities. Amounts recognized in governmental funds as proceeds from debt, including premiums were:

(1,858,392)

The amounts paid to the refunded bond escrow agent in excess of the refunded bond at the time of payment are recorded as deferred amounts on the refunding and are amortized over the life of the liability. Deferred amounts on refunding exceeded the amount amortized during the year by:

(50,756)

In governmental funds, accreted interest on capital appreciation bonds is not recorded as an expenditure from current resources. In the government-wide statement of activities, however, this is recorded as interest expense for the period. The difference between accreted interest earned and paid for the period is:

405,136

In government funds, OPEB costs are recognized when employer contributions are made. In the statement of activities, OPEB costs are recognized on the accrual basis. This year, the difference between accrual-basis OPEB costs and actual employer contributions was:

(2,959,273)

In governmental funds, compensated absences are measured by the amount paid during the period. In the statement of activities, compensated absences are measured by the amounts earned. The difference between absences paid and compensated absences earned was:

61,856

In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period was:

4,709

In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount is amortized as interest over the life of the debt. Amortization of premium or discount for the period is:

201,354

In government funds, pension costs are recognized when employer contributions are made. In the statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and actual employer contributions was:

12,917

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Victor Elementary School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The following is a summary of the more significant policies:

A. Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student-related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

For financial reporting purposes, the component units have a financial and operational relationship which meets the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and No. 34*, and thus are included in the financial statements using the blended presentation method as if they were part of the District's operations because the Board of Trustees of the component units is essentially the same as the Board of Trustees of the District and because their purpose is to finance the construction of facilities to be used for the direct benefit of the District.

The Victor Elementary School District Community Facilities Districts (CFDs) financial activity is presented in the financial statements as the Capital Projects Fund for Blended Component Units and in the Fiduciary Funds Statement as the Debt Service Fund for Special Tax Bonds. Special Tax Bonds issued by the CFDs are not included in the long-term obligations of the *Statement of Net Position* as they are not obligations of the District. Individually prepared financial statements are not prepared for each of the CFDs.

B. Basis of Presentation, Basis of Accounting

1. Basis of Presentation

District-Wide Financial Statements

The Statement of Net Position and the statement of activities display information about the primary government (the District) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation, Basis of Accounting (continued)

1. Basis of Presentation (continued)

District-Wide Financial Statements

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary funds and blended component units. Separate statements for each fund category - *governmental* and *fiduciary* - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Major Governmental Funds

The District maintains the following major governmental funds:

General Fund: This is the chief operating fund for the District. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund. The District also maintains a Special Reserve Fund for Postemployment Benefits. The Special Reserve Fund for Postemployment Benefits is not substantially composed of restricted or committed revenue sources. Because this fund does not meet the definition of special revenue funds under GASB 54, the activity in the fund is being reported within the General Fund.

Special Reserve Fund for Capital Outlay Projects: This fund exists primarily to provide for the accumulation of general fund moneys for capital outlay purposes (*Education Code* Section 42840). This fund may also be used to account for any other revenues specifically for capital projects that are not restricted to the Building Fund, Capital Facilities Fund, State School Building Lease-Purchase Fund, County School Facilities Fund, or Capital Project Fund for Blended Component Units.

Non-Major Governmental Funds

The District maintains the following non-major governmental funds:

Special Revenue Funds: Special revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities, that compose a substantial portion of the inflows of the fund, and that are reasonably expected to continue. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation, Basis of Accounting (continued)

1. Basis of Presentation (continued)

Non-Major Governmental Funds

The District maintains the following non-major governmental funds:

Special Revenue Funds: (continued)

Charter School Fund: This fund is used to account for the operations of the Mountain View Montessori School and Sixth Street Preparatory Charter Schools.

Cafeteria Fund: This fund is used to account separately for federal, state, and local resources to operate the food service program (*Education Code* Sections 38090 and 38093).

Deferred Maintenance Fund: This fund is used to account separately for revenues that are restricted or committed for deferred maintenance purposes (*Education Code* Section 17582).

Capital Projects Funds: Capital projects funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

Capital Facilities Fund: This fund is used to primarily account separately for moneys received from fees levied on development projects as a condition of approval (*Education Code* sections 17620-17626 and *Government Code* Section 65995 et seq.).

County School Facilities Fund: This fund is used primarily to account for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070.10 et seq.).

Capital Project Fund for Blended Component Units: This fund is used to account for capital projects financed by Mello-Roos Community Facilities Districts and similar entities that are considered blended component units of the District under generally accepted accounting principles (GAAP).

Debt Service Funds: Debt service funds are established to account for the accumulation of resources for and the payment of principal and interest on general long-term debt.

Bond Interest and Redemption Fund: This fund is used for the repayment of bonds issued for the District (*Education Code* Sections 15125-15262).

Fiduciary Funds

Fiduciary funds are used to account for assets held in a trustee or custodial capacity for others that cannot be used to support the District's own programs. The key distinction between trust and custodial funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held. The District maintains the following fiduciary fund:

CFD Debt Service Fund: Debt service funds are established to account for the accumulation of resources for and the payment of principal and interest on special tax bonds.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation, Basis of Accounting (continued)

2. Measurement Focus, Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resource or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities for the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

As a general rule the effect of interfund activity has been eliminated from the District-wide financial statements. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

3. Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year. Generally, available is defined as collectible within 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to state-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Budgetary Data

The budgetary process is prescribed by provisions of the California *Education Code* and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes, on behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

D. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

1. Cash and Cash Equivalents

The District considers cash and cash equivalents to be cash on hand and demand deposits. In addition, because the Treasury Pool is sufficiently liquid to permit withdrawal of cash at any time without prior notice or penalty, equity in the pool is also deemed to be a cash equivalent.

2. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

3. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Description	Estimated Lives
Buildings and Improvements	25-50 years
Furniture and Equipment	15-20 years
Vehicles	8 years

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

4. Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

Certain grants received that have not met eligibility requirements are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

5. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

6. Compensated Absences

The liability for compensated absences reported in the District-wide statements consists of unpaid, accumulated vacation leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

7. Leases

Lessee:

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

7. Leases (continued)

Lessee (continued):

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

If material, lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor:

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

8. Subscription-Based Information Technology Arrangements

A SBITA is defined as a contract that conveys control of the right to use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction.

The subscription term includes the period during which the District has a noncancellable right to use the underlying IT assets. The subscription term also includes periods covered by an option to extend or to terminate.

If material, the District recognizes a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability. The District recognizes the subscription liability at the commencement of the subscription term, which is when the subscription asset is placed into service. The subscription liability is measured at the present value of subscription payments expected to be made during the subscription term. Future subscription payments are discounted using the interest rate the SBITA vendor charges the District which may be implicit, or the District's incremental borrowing rate if the interest rate is not readily determinable. The District recognizes amortization of the discount on the subscription liability as an outflow of resources (for example, interest expense) in subsequent financial reporting periods.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

9. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District Plan and CalSTRS Medicare Premium Payment (MPP) Program and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, the Plans recognize benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

10. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California State Teachers Retirement System (CalSTRS) and California Public Employees' Retirement System (CalPERS) plans and addition to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Fund Balances

The fund balance for governmental funds is reported in classifications based on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Nonspendable: Fund balance is reported as nonspendable when the resources cannot be spent because they are either in a nonspendable form or legally or contractually required to be maintained intact. Resources in nonspendable form include inventories and prepaid assets.

Restricted: Fund balance is reported as restricted when the constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provision or by enabling legislation.

Committed: The District's highest decision-making level of authority rests with the District's Board. Fund balance is reported as committed when the Board passes a resolution that places specified constraints on how resources may be used. The Board can modify or rescind a commitment of resources through passage of a new resolution.

Assigned: Resources that are constrained by the District's intent to use them for a specific purpose, but are neither restricted nor committed, are reported as assigned fund balance. Intent may be expressed by either the Board, committees (such as budget or finance), or officials to which the Board has delegated authority.

Unassigned: Unassigned fund balance represents fund balance that has not been restricted, committed, or assigned and may be utilized by the District for any purpose. When expenditures are incurred, and both restricted and unrestricted resources are available, it is the District's policy to use restricted resources first, then unrestricted resources in the order of committed, assigned, and then unassigned, as they are needed.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

12. Net Position

Net position is classified into three components: net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- **Net investment in capital assets** - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- **Restricted** - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position** - This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted".

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

F. Minimum Fund Balance Policy

The District has not adopted a formal minimum fund balance policy, as recommended by GASB Statement No. 54; however, the District follows the guidelines recommended in the Criteria and Standards of Assembly Bill (AB) 1200, which recommend a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of total General Fund expenditures and other financing uses.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed unless the governing board has provided otherwise in its commitment or assignment actions.

G. Property Tax Calendar

The County is responsible for the assessment, collection, and apportionment of property taxes for all jurisdictions including the schools and special districts within the County. The Board of Supervisors levies property taxes as of September 1 on property values assessed on July 1. Secured property tax payments are due in two equal installments. The first is generally due November 1 and is delinquent with penalties on December 10, and the second is generally due on February 1 and is delinquent with penalties on April 10. Secured property taxes become a lien on the property on January 1.

H. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Change in Accounting Principle

For the fiscal year ended June 30, 2024, the District implemented GASB Statement No. 100, *Accounting Changes and Error Corrections-an Amendment of GASB Statement No. 62*. This Statement defines *accounting changes* as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. This Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. This Statement also requires that the aggregate amount of adjustments to and restatements of beginning net positions, fund balance, or fund net position, as applicable, be displayed by reporting unit in the financial statements.

NOTE 2 – DEPOSITS AND INVESTMENTS

Deposits and investments as of June 30, 2024 are classified in the accompanying financial statements as follows:

Governmental funds/activities	\$ 255,017,284
Fiduciary funds	<u>2,854,747</u>
Total deposits and investments	<u>\$ 257,872,031</u>

Deposits and investments as of June 30, 2024 consist of the following:

Cash on hand and in banks	\$ 5,000
Cash in revolving fund	60,000
Investments	<u>257,807,031</u>
Total deposits and investments	<u>\$ 257,872,031</u>

Pooled Funds

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest-bearing San Bernardino County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the San Bernardino County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the San Bernardino County Treasurer, which is recorded on the amortized basis.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. Cash balances held in banks are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC) and are collateralized by the respective financial institutions. In addition, the *California Government Code* requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit).

The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

As of June 30, 2024, none of the District's bank balance was exposed to custodial credit risk because it was insured by the FDIC.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 2 – DEPOSITS AND INVESTMENTS (continued)

Investments - Interest Rate Risk

The District's investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District's investment policy limits investment purchases to investments with a term not to exceed ten years. Investments purchased with maturity terms greater than ten years require approval by the Board of Education. Investments purchased with maturities greater than one year require written approval by the Superintendent prior to commitment. Maturities of investments held at June 30, 2024 consist of the following:

	Reported Amount	Less Than One Year	Through Five Years	Fair Value Measurement	Rating
Investments:					
County Pool	\$ 254,342,088	\$ 254,342,088	\$ -	Uncategorized	N/A
Investco Short-Term Treasury Portfolio	3,464,943	3,464,943	-	Level 1	AA-
Total Investments	<u>\$ 257,807,031</u>	<u>\$ 257,807,031</u>	<u>\$ -</u>		

Investments - Credit Risk

The District's investment policy limits investment choices to obligations of local, state and federal agencies, commercial paper, certificates of deposit, repurchase agreements, corporate notes, banker acceptances, and other securities allowed by State Government Code Section 53600. At June 30, 2024, all investments represented governmental securities which were issued, registered and held by the District's agent in the District's name.

Investments - Concentration of Credit Risk

The District does not place limits on the amount it may invest in any one issuer. At June 30, 2024, the District had the following investments that represent more than five percent of the District's net investments outside of the County treasury.

Investco Short-Term Treasury Portfolio	100%
--	------

Fair Value Measurements

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 – Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that date if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 2 – DEPOSITS AND INVESTMENTS (continued)

Fair Value Measurements (continued)

Uncategorized – Investments in the San Bernardino County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

All assets have been valued using a market approach, with quoted market prices.

NOTE 3 – ACCOUNTS RECEIVABLE

Accounts receivable as of June 30, 2024, consisted of the following:

	Governmental Funds			Totals
	General Fund	Special Reserve Fund for Capital Outlay	Non-Major Governmental Funds	
Federal Government:				
Categorical aid programs	\$ 27,171,382	\$ -	\$ 3,265,829	\$ 30,437,211

Total G.O. Bonds	71,105,002	2,632,691	4,951,355	68,786,338	5,246,356
Compensated Absences	863,789	-	61,856	801,933	-
Equipment Leases	611,341	-	230,000	381,341	196,114
Subscription-based IT Arrangements	2,867,717	1,858,392	1,282,770	3,443,339	1,021,739
Subtotals	<u>\$ 75,447,849</u>	<u>\$ 4,491,083</u>	<u>\$ 6,525,981</u>	<u>\$ 73,412,951</u>	<u>\$ 6,464,209</u>

Payments for general obligation bonds are made by the Bond Interest and Redemption Fund. Accumulated vacation will be paid for by the fund for which the employee worked. Subscription and equipment lease payments are made by the General Fund.

A. General Obligation Bonds

The District has issued general obligation bonds under different voter-approved measures, as described below. Bonds are payable solely from *ad valorem* taxes to be levied within the District pursuant to the California Constitution and other state law. The Board of Supervisors of the County is empowered and is obligated to levy *ad valorem* taxes upon all property subject to taxation by the District, without limitation as to rate or amount (except as to certain personal property which is taxable at limited rates), for the payment of principal of and interest on the Bonds.

Election of 2001

Bonds were authorized at an election of the registered voters of the District held on November 6, 2001 at which more than 55 percent of the persons voting on the measure voted to authorize the issuance and sale of \$30 million general obligation bonds. The bonds were issued to finance the improvement of real property in the District and to pay the costs of issuance of the bonds.

Election of 2008

On November 4, 2008, District voters approved Measure E, authorizing the District to issue up to \$150 million in general obligation bonds to maintain, upgrade, and construct school facilities.

VICTOR ELEMENTARY SCHOOL DISTRICT
Notes to Financial Statements
June 30, 2024

NOTE 7 – LONG-TERM DEBT OTHER THAN PENSIONS (continued)

A. General Obligation Bonds (continued)

Prior-Year Defeasance of Debt

In prior years, the District defeased certain general obligation bonds by placing the proceeds of new refunding bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2024, there was no principal balance outstanding on the defeased debt.

The difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the life of the new debt, whichever is shorter. At June 30, 2024, deferred amounts on refunding were \$424,986.

A summary of outstanding bonds is shown below:

Series	Issue Date	Maturity Date	Interest Rate	Original Issue	Balance, July 1, 2023	Additions	Deductions	Balance, June 30, 2024

NOTE 7 – LONG-TERM LIABILITIES OTHER THAN OPEB OR PENSIONS (continued)

B. Subscription-Based Information Technology Arrangements

The District is involved in several arrangements for subscription-based software. The initial terms for these subscriptions range from 24 to 72 months. There are no variable payments not included in the measurement of the lease liability, no residual value guarantees provided and no commitments before the commencement of the lease term. The District used either the stated interest rate or the State's incremental borrowing rate at inception to discount the subscription payments to the net present value. Other key assumptions and policies can be found in Note 1.E. The related asset disclosures are presented in Note 6.

Annual future payments are as follows:

Fiscal Year	Principal	Interest	Total
2024-25	\$ 1,021,739	\$ 108,798	\$ 1,130,537
2025-26	946,782	91,896	1,038,678
2026-27	887,565	68,589	956,154
2027-28	505,577	30,704	536,281
2028-29	81,676	-	81,676
	<u>\$ 3,443,339</u>	<u>\$ 299,987</u>	<u>\$ 3,743,326</u>

C. Equipment Leases

The District is involved in several leases for equipment. The initial terms for these leases are 60 months. There are no variable payments not included in the measurement of the lease liability, no residual value guarantees provided and no commitments before the commencement of the lease terms. The District used either the stated interest rate or the State's incremental borrowing rate at inception to discount the lease payments to the net present value. Other key assumptions and policies can be found in Note 1.E.7. The related asset disclosures are presented in Note 6.

Fiscal Year	Principal	Interest	Total
2024-25	\$ 196,114	\$ 612	\$ 196,726
2025-26	128,068	265	128,333

June 30, 2024

NOTE 7 – LONG-TERM LIABILITIES OTHER THAN OPEB OR PENSIONS (continued)

D. Non-Obligatory Debt

Non-obligatory debt relates to debt issuances by the Community Facility Districts, as authorized by the Mello-Roos Community Facilities Act of 1982 as amended, and the Marks-Roos Local Bond Pooling Act of 1985, and are payable from special taxes levied on property within the Community Facilities Districts according to a methodology approved by the voters within the District. Neither the faith and credit nor taxing power of the District is pledged to the payment of the bonds. Reserves have been established from the bond proceeds to meet delinquencies should they occur.

If delinquencies occur beyond the amounts held in those reserves, the District has no duty to pay the delinquency out of any available funds of the District. The District acts solely as an agent for those paying taxes levied and the bondholders, and may initiate foreclosure proceedings. Special assessment debt of \$27,743,900 as of June 30, 2024, does not represent debt of the District and, as such, does not appear in the financial statements.

NOTE 8 – OTHER POST-EMPLOYMENT BENEFITS (OPEB)

For the fiscal year ended June 30, 2024, the District reported net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense for the following plans:

	OPEB Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	OPEB Expense
District Plan	\$ 59,469,343	\$ 9,549,404	\$ 12,023,327	\$ 5,769,466
MPP Program	517,253	-	-	(17,567)
Totals	<u>\$ 59,986,596</u>	<u>\$ 9,549,404</u>	<u>\$ 12,023,327</u>	<u>\$ 5,751,899</u>

The details of each plan are as follows:

District Plan

Plan Description

The District's single-employer defined benefit OPEB plan provides OPEB for eligible certificated, classified, and management employees of the District. The authority to establish and amend the benefit terms and financing requirements are governed by collective bargaining agreements with plan members. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided

The postretirement health plans and the District's obligation vary by employee group as described below.

	Certificated	Classified	Management
Benefit types provided	Medical only	Medical only	Medical only
Duration of Benefits	10 years but not beyond Medicare eligibility	10 years but not beyond Medicare eligibility	10 years but not beyond Medicare eligibility
Required Service	10 years	10 years	10 years
Minimum Age	55	55	55
Dependent Coverage	Yes	Yes	Yes
District Contribution %	100%	100%	100%
District Cap	Same as active	Same as active	Same as active

Cabinet members receive lifetime benefits subject to certain requirements.

NOTE 8 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) (continued)

District Plan (continued)

Employees Covered by Benefit Terms

As of the valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	90
Active employees	<u>1,049</u>
Total	<u><u>1,139</u></u>

Total OPEB Liability

The District's total OPEB liability of \$59,469,343 for the Plan was measured as of June 30, 2024 and was determined by an actuarial valuation as June 30, 2023.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	June 30, 2023
Inflation	2.50 percent
Salary increases	2.75 percent
Healthcare cost trend rates	4.00 percent

Discount Rate

The actuarial valuation used the Bond Buyer 20 Index at June 30, 2023 and rounded the rate resulting in a rate of 3.93%.

Mortality Rates

The mortality assumptions are based on the 2020 CalSTRS Mortality table created by CalSTRS and the 2021 CalPERS Retiree Mortality for Miscellaneous and Schools Employees table created by CalPERS.

Changes in the Total OPEB Liability

	Total OPEB Liability
Balance at July 1, 2023	<u>\$ 57,800,156</u>
Changes for the year:	
Service cost	3,649,863
Interest	2,125,350
Changes of assumptions	(1,313,399)
Benefit payments	<u>(2,792,627)</u>
Net changes	<u>1,669,187</u>
Balance at June 30, 2024	<u><u>\$ 59,469,343</u></u>

Medicare Premium Payment (MPP) Program

Plan Description

The MPP Program is a cost-sharing multiple-employer other postemployment benefit (OPEB) plan established pursuant to Chapter 1032, Statutes of 2000 (SB 1435). CalSTRS administers the MPP Program through the Teachers' Health Benefit Fund (THBF).

A full description of the MPP Program regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2022 annual actuarial valuation report, Medicare Premium Payment Program. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: <https://www.calstrs.com/general-information/gasb-6768>.

Benefits Provided

The MPP Program pays Medicare Part A premiums and Medicare Parts A and B late enrollment surcharges for eligible members of the DB Program who were retired or began receiving a disability allowance prior to July 1, 2012, and were not eligible for premium-free Medicare Part A. Members who retire on or after July 1, 2012, are not eligible for coverage under the MPP Program.

As of June 30, 2023, 4,457 retirees participated in the MPP Program; however, the number of retired members who will participate in the program in the future is unknown as eligibility cannot be predetermined.

The MPP Program is funded on a pay-as-you-go basis from a portion of monthly employer contributions. In accordance with Education Code section 22950, contributions that would otherwise be credited to the DB Program each month are instead credited to the MPP Program to fund monthly program and administrative costs. Total redirections to the MPP Program are monitored to ensure that total incurred costs do not exceed the amount initially identified as the cost of the program.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 8 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) (continued)

Medicare Premium Payment (MPP) Program (continued)

Total OPEB Liability

At June 30, 2024, the District reported a liability of \$517,253 for its proportionate share of the net OPEB liability for the MPP Program. The total OPEB liability for the MPP Program as of June 30, 2023, was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2022 and rolling forward the total OPEB liability to June 30, 2023. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportions of the net OPEB liability for the two most recent measurement periods were:

	<u>Percentage Share of MPP Program</u>		<u>Change Increase/ (Decrease)</u>
	<u>Fiscal Year Ending June 30, 2024</u>	<u>Fiscal Year Ending June 30, 2023</u>	
Measurement Date	<u>June 30, 2023</u>	<u>June 30, 2022</u>	
Proportion of the Net OPEB Liability	0.170465%	0.162356%	0.008108%

For the year ended June 30, 2024, the District reported OPEB expense of \$(17,567).

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Measurement Date	June 30, 2023
Valuation Date	June 30, 2022
Experience Study	June 30, 2015 through June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return	3.65%
Healthcare Cost Trend Rates	4.5% for Medicare Part A, and 5.4% for Medicare Part B

Assumptions were made about future participation (enrollment) into the MPP Program as CalSTRS is unable to determine which members not currently participating meet all eligibility criteria for enrollment in the future. Assumed enrollment rates were derived based on past experience and are stratified by age with the probability of enrollment diminishing as the members' ages increase. This estimated enrollment rate was then applied to the population of members who may meet criteria necessary for eligibility but are not currently enrolled in the MPP Program. Based on this, the estimated number of future enrollments used in the financial reporting valuation was 179 or an average of 0.13% of the potentially eligible population of 138,780.

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table issued by the Society of Actuaries.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 8 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) (continued)

Medicare Premium Payment (MPP) Program (continued)

Discount Rate

The MPP Program is funded on a pay-as-you-go basis with contributions generally being made at the same time and in the same amount as benefit payments and expenses coming due. Any funds within the MPP Program as of June 30, 2023, were to manage differences between estimated and actual amounts to be paid and were invested in the Surplus Money Investment Fund (SMIF), which is a pooled investment program administered by the California State Treasurer.

As the MPP Program is funded on a pay-as-you-go basis, the OPEB plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments. Therefore, the MPP Program used the Bond Buyer's 20-Bond GO Index from Bondbuyer.com as of June 30, 2023, as the discount rate, which was applied to all periods of projected benefit payments to measure the total OPEB liability. The discount rate as of June 30, 2023, was 3.65%, which is an increase of 0.11% from 3.54% as of June 30, 2022.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current discount rate:

		MPP OPEB
	Discount Rate	Liability
	1% decrease	\$ 562,148
	Current discount rate	\$ 517,253
	1% increase	\$ 478,216

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Medicare Costs Trend Rates

The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using Medicare costs trend rates that are one percentage-point lower or one percentage-point higher than the current rates:

		MPP OPEB
	Medicare Cost Trend Rates	Liability
	1% decrease	\$ 475,924
	Current trend rate	\$ 517,253
	1% increase	\$ 563,912

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 9 – PENSION PLANS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS), and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2024, the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

Pension Plan	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
CalSTRS	\$ 87,773,050	\$ 37,145,028	\$ 9,954,717	\$ 13,118,553
CalPERS	51,200,554	26,036,748	8,102,674	8,180,285
Totals	<u>\$ 138,973,604</u>	<u>\$ 63,181,776</u>	<u>\$ 18,057,391</u>	<u>\$ 21,298,838</u>

The details of each plan are as follows:

A. California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2022, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: <https://www.calstrs.com/general-information/gasb-6768>.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0% of final compensation for each year of credited service.

The STRP is a multiple-employer, cost-sharing defined benefit plan composed of four programs: Defined Benefit (DB) Program, Defined Benefit Supplement (DBS) Program, Cash Balance Benefit (CBB) Program and Replacement Benefits (RB) Program. A Supplemental Benefit Maintenance Account (SBMA) exists within the STRP and provides purchasing power protection for DB Program benefits. The STRP holds assets for the exclusive purpose of providing benefits to members of these programs and their beneficiaries. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor and obligor of the trust. In addition, the state is both an employer and non-employer contributing entity to the STRP.

NOTE 9 – PENSION PLANS (continued)

A. California State Teachers' Retirement System (CalSTRS) (continued)

Benefits Provided (continued)

The STRP provisions and benefits in effect at June 30, 2024, are summarized as follows:

	STRP Defined Benefit Program	
	On or before December 31, 2012	On or after January 1, 2013
Hire Date	December 31, 2012	January 1, 2013
Benefit Formula	2% at 60	2% at 62
Benefit Vesting Schedule	5 years of service	5 years of service
Benefit Payments	Monthly for life	Monthly for life
Retirement Age	60	62
Monthly Benefits as a Percentage of Eligible Compensation	2.0%-2.4%	2.0%-2.4%
Required Member Contribution Rate	10.25%	10.205%
Required Employer Contribution Rate	19.10%	19.10%
Required State Contribution Rate	10.828%	10.828%

Contributions

The parameters for member, employer and state contribution rates are set by the California Legislature and the Governor and detailed in the Teachers' Retirement Law. Current contribution rates were established by California Assembly Bill 1469 (CalSTRS Funding Plan), which was passed into law in June 2014 and established a schedule of contribution rate increases shared among members, employers and the state to bring CalSTRS toward full funding by 2046.

The contribution rates for each program for the year ended June 30, 2024, are presented above, and the District's total contributions were \$14,706,941.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of net pension liability	\$	87,773,050
State's proportionate share of the net pension liability associated with the District		42,054,536
Total	\$	129,827,586

The net pension liability was measured as of June 30, 2023. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportions of the net pension liability for the two most recent measurement periods were:

	Percentage Share of Risk Pool		Change Increase/ (Decrease)
	Fiscal Year Ending June 30, 2024	Fiscal Year Ending June 30, 2023	
Measurement Date	June 30, 2023	June 30, 2022	
Proportion of the Net Pension Liability	0.115247%	0.108180%	0.007066%

NOTE 9 – PENSION PLANS (continued)

A. California State Teachers' Retirement System (CalSTRS) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

For the year ended June 30, 2024, the District recognized pension expense of \$13,118,553. In addition, the District recognized pension expense and revenue of \$(610,718) for support provided by the State. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
Pension contributions subsequent to measurement date	\$ 14,706,941	\$ -
Net change in proportionate share of net pension liability	14,656,629	5,258,414
Difference between projected and actual earnings on pension plan investments	375,704	-
Changes of assumptions	508,238	-
Differences between expected and actual experience	6,897,516	4,696,303
Totals	<u>\$ 37,145,028</u>	<u>\$ 9,954,717</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 7 years.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows of Resources	Deferred Inflows of Resources
2025	\$ 2,776,296	\$ 2,627,682
2026	2,776,075	4,171,987
2027	9,906,376	1,051,683
2028	2,479,332	1,051,683
2029	1,737,514	1,051,682
Thereafter	2,762,494	-
Totals	<u>\$ 22,438,087</u>	<u>\$ 9,954,717</u>

VICTOR ELEMENTARY SCHOOL DISTRICT

NOTE 9 – PENSION PLANS (continued)

A. California State Teachers' Retirement System (CalSTRS) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The total pension liability for the STRP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2022, and rolling forward the total pension liability to June 30, 2023. Significant actuarial methods and assumptions used in the financial reporting actuarial valuation to determine the total pension liability as of June 30, 2023, include:

Valuation Date	June 30, 2022
Experience Study	July 1, 2015 through June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.00%
Inflation	2.75%
Payroll Growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table issued by the Society of Actuaries.

The long-term investment rate of return assumption was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS' independent consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of June 30, 2023, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Public Equity	38.0%	5.25%
Real Estate	15.0%	4.05%
Private Equity	14.0%	6.75%
Fixed Income	14.0%	2.45%
Risk Mitigating Strategies	10.0%	2.25%
Inflation Sensitive	7.0%	3.65%
Cash/Liquidity	2.0%	0.05%

Notes to Financial Statements

June 30, 2024

NOTE 9 – PENSION PLANS (continued)

A. California State Teachers' Retirement System (CalSTRS) (continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.10%, which was unchanged from the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers are made at statutory contribution rates in accordance with the rate increases. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return of 7.10% and assume that contributions, benefit payments and administrative expenses occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.10%)	\$ 147,232,287
Current discount rate (7.10%)	\$ 87,773,050
1% increase (8.10%)	\$ 38,385,223

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS pursuant to Sections 22954, 22955, and 22955.1 of the *Education Code* and *Public Resources Code* Section 6217.5. Under accounting principles generally accepted in the United States of America, these contributions are reported as revenues and expenditures in the fund financial statements. The total amount recognized by the District for its proportionate share of the State's on-behalf contributions is \$6,726,688.

B. California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the Schools Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2022 annual actuarial valuation report, Schools Pool Accounting Report. This report and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: <https://www.calpers.ca.gov/page/employers/actuarial-resources/gasb>.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 9 – PENSION PLANS (continued)

B. California Public Employees Retirement System (CalPERS) (continued)

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2024, are summarized as follows:

	Schools Pool (CalPERS)	
	On or before December 31, 2012	On or after January 1, 2013
Hire Date		
Benefit Formula	2% at 55	2% at 62
Benefit Vesting Schedule	5 years of service	5 years of service
Benefit Payments	Monthly for life	Monthly for life
Retirement Age	55	62
Required Employee Contribution Rate	7.00%	8.00%
Required Employer Contribution Rate	26.68%	26.68%

Contributions

The benefits for the defined benefit pension plans are funded by contributions from members, employers, non-employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer's benefit formulas. In some circumstances, contributions are made by the employer to satisfy member contribution requirements. Member and employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Non-employer contributions are not expected each year, but when provided they are accrued for. The contribution rates are expressed as a percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2024 are presented above, and the total District contributions were \$7,215,546.

VICTOR ELEMENTARY SCHOOL DISTRICT

June 30, 2024

NOTE 9 – PENSION PLANS (continued)

B. California Public Employees Retirement System (CalPERS) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2024, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$51,200,554. The net pension liability was measured as of June 30, 2023. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportions of the net pension liability for the two most recent measurement periods were:

	Percentage Share of Risk Pool		Change Increase/ (Decrease)
	Fiscal Year Ending June 30, 2024	Fiscal Year Ending June 30, 2023	
Measurement Date	June 30, 2023	June 30, 2022	
Proportion of the Net Pension Liability	0.141442%	0.133966%	0.007476%

For the year ended June 30, 2024, the District recognized pension expense of \$8,180,285. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
Pension contributions subsequent to measurement date	\$ 7,215,546	\$ -
Net change in proportionate share of net pension liability	2,985,352	1,176,652
Difference between projected and actual earnings on pension plan investments	11,608,608	6,139,657
Changes of assumptions	2,358,789	-
Differences between expected and actual experience	1,868,453	786,365
Totals	\$ 26,036,748	\$ 8,102,674

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.8 years.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 9 – PENSION PLANS (continued)

B. California Public Employees Retirement System (CalPERS) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows of Resources	Deferred Inflows of Resources
2025	\$ 7,001,501	\$ 3,905,610
2026	6,436,538	3,834,481
2027	4,764,352	362,583
2028	618,811	-
2029	-	-
Thereafter	-	-
Totals	<u>\$ 18,821,202</u>	<u>\$ 8,102,674</u>

Actuarial Methods and Assumptions

Total pension liability for the Schools Pool was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2022 and rolling forward the total pension liability to June 30, 2023. The financial reporting actuarial valuation as of June 30, 2022 used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2022
Experience Study	2000-2019
Actuarial Cost Method	Entry age normal
Discount Rate	6.9%
Inflation Rate	2.3%
Salary Increases	Varies by entry age and service

Post-retirement mortality rates are based on CalPERS' experience and include generational mortality improvement using 80 percent of Scale MP 2020 published by the Society of Actuaries. These tables are used to estimate the value of benefits expected to be paid for service and disability retirements. For disability retirements, impaired longevity is recognized by a separate table.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 9 – PENSION PLANS (continued)

B. California Public Employees Retirement System (CalPERS) (continued)

Actuarial Methods and Assumptions

The target asset allocation and best estimates of real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Real Return
Global Equity Cap-weighted	30.00%	4.54%
Global Equity Non-Cap-weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Assets	15.00%	3.21%
Leverage	(5.00%)	(0.59%)

Discount Rate

The discount rate used to measure the total pension liability was 6.9%. The discount rate is not adjusted for administrative expenses. The fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return for the pension plan's investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (5.9%)	\$ 74,022,766
Current discount rate (6.9%)	\$ 51,200,554
1% increase (7.9%)	\$ 32,338,515

C. Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by social security or an alternative plan. The District has elected to use the Social Security as its alternative plan.

D. Payables to the Pension Plans

At June 30, 2024, the District reported payables of \$2,335,131 and \$169,175 for the outstanding amount of legally required contributions to the CalSTRS and CalPERS pension plans, respectively, for the fiscal year ended June 30, 2024.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2024

NOTE 10 – JOINT VENTURES

The Victor Elementary School District participates in joint ventures under joint powers agreements with the High Desert and Inland Employee/Employer Trust (HDIEET), California Schools Employee Benefits Association (CSEBA), and California Schools Risk Management (CSRM). The relationships between the District and the JPAs are such that the JPAs are not a component unit of the District for financial reporting purposes.

The JPAs provide property and liability insurance coverage, health and welfare benefits coverage, and workers compensation insurance coverage. The JPAs are governed by a board consisting of a representative from each member district. The governing board controls the operations of its JPAs independent of any influence by the member districts beyond their representation on the governing board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionately to its participation in the JPAs.

Audited financial information is available from the respective JPAs.

NOTE 11 – RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2024, the District participated in the CSRM public entity risk pool for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2023-24, the District participated in the CSRM JPA for workers compensation, with excess coverage provided by the Schools Excess Liability Fund (SELF) public entity risk pool.

Employee Medical Benefits

The district has contracted with California School Employee Benefits Association to provide employee medical benefits for classified and management staff, and Self-Insured Schools of California (SISC) to provide employee medical benefits for certificated employees. The District also provides vision and life insurance benefits for all employees through HDIEET and dental insurance through CSEBA.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

A. State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

B. Construction Commitments

At June 30, 2024, the District had commitments with respect to unfinished capital projects of approximately \$11.4 million.

C. Litigation

The District is involved in certain legal matters that arose out of normal course of business. The District has not accrued a liability for any potential litigation against it because it does not meet the criteria to be considered a liability at June 30.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to the Required Supplementary Information

For the Fiscal Year Ended June 30, 2024

NOTE 1 – PURPOSE OF SCHEDULES

Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the *Governmental Accounting Standards Board* and provisions of the *California Education Code*. The governing board is required to hold a public hearing and adopt an operating budget no later than July 1 of each year. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoptions with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

This schedule presents information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations.

Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District.

Change in benefit terms – There were no changes in benefit terms since the previous valuations for either CalSTRS and CalPERS.

Change of assumptions - There were no changes in economic assumptions since the previous valuations for either CalSTRS or CalPERS.

Schedule of District Contributions

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution.

Schedule of Changes in the District's Total OPEB Liability and Related Ratios

This schedule presents information on the District's changes in the total OPEB liability, including beginning and ending balances, and the total OPEB liability. In the future, as data becomes available, ten years of information will be presented.

Change in benefit terms – There were no changes in benefit terms since the previous valuation.

Change of assumptions – Liability changes resulting from changes in economic and demographic assumptions are deferred based on the average working life. The discount rate was changed from 3.65 percent to 3.93 percent since the previous valuation.

VICTOR ELEMENTARY SCHOOL DISTRICT

Notes to the Required Supplementary Information

For the Fiscal Year Ended June 30, 2024

NOTE 1 – PURPOSE OF SCHEDULES (continued)

Schedule of the District's Proportionate Share of the Net OPEB Liability – MPP Program

This schedule presents information on the District's proportionate share of the net OPEB liability – MPP Program and the plans' fiduciary net position. In the future, as data becomes available, ten years of information will be presented.

Change in benefit terms – There were no changes in benefit terms since the previous valuation.

Change of assumptions – The discount rate was changed from 3.54 percent to 3.65 percent since the previous valuation.

Schedule of Financial Trends and Analysis
For the Fiscal Year Ended June 30, 2024

General Fund	(Budget) 2025 ³	2024 ²	2023	2022
Revenues and other financing sources	\$ 234,352,925	\$ 276,679,432	\$ 256,406,915	\$ 190,471,252
Expenditures	253,743,823	261,521,295	200,060,678	173,189,392
Other uses and transfers out	-	20,066,343	2,500,000	5,000,000
Total outgo	253,743,823	281,587,638	202,560,678	178,189,392
Change in fund balance (deficit)	(19,390,898)	(4,908,206)	53,846,237	12,281,860
Ending fund balance	\$ 106,710,862	\$ 126,101,760	\$ 131,009,966	\$ 77,163,729
Available reserves ¹	\$ 17,755,965	\$ 29,804,740	\$ 29,367,901	\$ 14,659,327
Available reserves as a percentage of total outgo	7.0%	10.6%	14.5%	8.2%
Total long-term debt	\$ 265,908,942	\$ 272,373,151	\$ 255,049,369	\$ 211,015,108
Average daily attendance at P-2	11,160	10,970	10,857	10,598

The General Fund balance has increased by \$48.9 million over the past two years. The fiscal year 2024-25 adopted budget projects a decrease of \$19.4 million. For a district of this size, the state recommends available reserves of at least 3% of total general fund expenditures, transfers out, and other uses (total outgo).

The District has incurred an operating deficit in the one of the past three years and anticipates incurring one during the 2024-25 fiscal year. Long-term debt has increased by \$61.4 million over the past two years.

Average daily attendance has increased by 372 since the 2021-22 year. ADA is projected to increase by 190 in 2024-25.

¹ Available reserves consist of all unassigned fund balances in the General Fund.

² The actual amounts reported in this schedule are for the General Fund only, and do not agree with the amounts reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances because the amounts on that schedule include the financial activity of the Special Reserve Fund for Postemployment Benefits, in accordance with the fund type definitions promulgated by GASB Statement No. 54.

³ As of September, 2024.

VICTOR ELEMENTARY SCHOOL DISTRICT

Note to the Supplementary Information

June 30, 2024

NOTE 1 – PURPOSE OF SCHEDULES

Combining Financial Statements

These financial statements report the financial activity of the individual non-major funds.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

This schedule presents information on the number of instructional days offered by the District and whether the District complied with Article 8 (commencing with Section 46200) of Chapter 2 Part 26 of the *Education Code*.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual financial report to the audited financial statements.

Schedule of Charter Schools

This schedule lists all charter schools chartered by the District, and displays information for each charter school and whether or not the charter school is included in the District audit.

Schedule of Expenditures of Federal Awards

The schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements. The District did not elect to use the ten percent de minimis indirect cost rate.

VICTOR ELEMENTARY SCHOOL DISTRICT

Local Educational Agency Organization Structure

June 30, 2024

The Victor Elementary School District was established as a separate school district in 1947. The District encompasses approximately 43 square miles in some unincorporated areas of San Bernardino County as well as the city of Victorville. During the year, the District operated sixteen elementary schools (kindergarten through grade 6) and two charter schools. There were no changes to District boundaries during the year.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Victor Elementary School District
Victorville, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Victor Elementary School District as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 13, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Murrieta, California
December 13, 2024

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Trustees
Victor Elementary School District
Victorville, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Victor Elementary School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Victor Elementary School District's major federal programs for the year ended June 30, 2024. The Victor Elementary School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Victor Elementary School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Victor Elementary School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Victor Elementary School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Victor Elementary School District's federal program.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Victor Elementary School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Victor Elementary School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Victor Elementary School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Victor Elementary School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Victor Elementary School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Nigro + Nigro, PC

Murrieta, California
December 13, 2024

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE AND ON INTERNAL CONTROL OVER COMPLIANCE

Board of Trustees
Victor Elementary School District
Victorville, California

Report on Compliance

Opinion

We have audited the Victor Elementary School District's (District) compliance with the requirements specified in the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* applicable to the District's state program requirements identified below for the year ended June 30, 2024.

In our opinion, Victor Elementary School District complied in all material aspects, with the laws and regulations of the state programs noted in the table below for the year ended June 30, 2024.

Basis for Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above, and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Victor Elementary School District's state programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the state programs as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards* and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we consider necessary in the circumstances;
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, but not for the purpose of expressing an opinion on the effectiveness of the District's internal controls over compliance. Accordingly, we express no such opinion; and
- Select and test transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

Description	Procedures Performed
Local Education Agencies Other Than Charter Schools:	
Attendance	Yes
Teacher Certification and Misassignments	Yes
Kindergarten Continuance	Yes

Areas marked as “Not Applicable” were not operated by the District.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identify in the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are described in the accompanying schedule of findings and questioned costs as Findings 2024-001 and 2024-002. Our opinion on each state program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the District’s response to the noncompliance findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District’s response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention from those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor’s Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

Summary of Auditors' Results

For the Fiscal Year Ended June 30, 2024

Financial Statements

Type of auditors' report issued	<u>Unmodified</u>
Internal control over financial reporting:	
Material weakness(es) identified?	<u>No</u>
Significant deficiency(s) identified not considered to be material weaknesses?	<u>None reported</u>
Noncompliance material to financial statements noted?	<u>No</u>

Federal Awards

Internal control over major programs:	
Material weakness(es) identified?	<u>No</u>
Significant deficiency(s) identified not considered to be material weaknesses?	<u>None reported</u>
Type of auditors' report issued on compliance for major programs:	<u>Unmodified</u>
Any audit findings disclosed that are required to be reported in accordance with the Uniform Guidance, Section 200.516 (a)?	<u>No</u>
Identification of major programs:	
<u>Assistance Listing Numbers</u>	<u>Name of Federal Program or Cluster</u>
<u>84.010</u>	<u>Title I, Part A</u>
<u>84.425, 84.425U</u>	<u>Education Stabilization Fund</u>
Dollar threshold used to distinguish between Type A and Type B programs:	<u>\$ 1,475,287</u>
Auditee qualified as low-risk auditee?	<u>Yes</u>

State Awards

Type of auditors' report issued on compliance for state programs:	<u>Unmodified</u>

Financial Statement Findings

For the Fiscal Year Ended June 30, 2024

This section identifies the significant deficiencies, material weaknesses, and instances of noncompliance related to the financial statements that are required to be reported in accordance with *Government Auditing Standards*. Pursuant to Assembly Bill (AB) 3627, all audit findings must be identified as one or more of the following categories:

Five Digit Code	AB 3627 Finding Types
10000	Attendance
20000	Inventory of Equipment
30000	Internal Control
40000	State Compliance
42000	Charter School Facilities Programs
43000	Apprenticeship: Related and Supplemental Instruction
50000	Federal Compliance
60000	Miscellaneous
61000	Classroom Teacher Salaries
62000	Local Control Accountability Plan
70000	Instructional Materials
71000	Teacher Misassignments
72000	School Accountability Report Card

There were no financial statement findings in 2023-24.

VICTOR ELEMENTARY SCHOOL DISTRICT

Federal Award Findings and Questioned Costs

For the Fiscal Year Ended June 30, 2024

This section identifies the audit findings required to be reported by the Uniform Guidance, Section 200.516 (e.g., significant deficiencies, material weaknesses, and instances of noncompliance, including questioned costs).

There were no federal award findings or questioned costs in 2023-24.

VICTOR ELEMENTARY SCHOOL DISTRICT

State Award Findings and Questioned Costs

For the Fiscal Year Ended June 30, 2024

This section identifies the audit findings pertaining to noncompliance with state program rules and regulations.

Finding 2024-001: Immunizations (40000)

Repeat Finding? Yes

Criteria: Title 17, California Code of Regulations section 6025 requires that that each kindergarten pupil have two doses of a varicella vaccine and two doses of a measles vaccine prior to admission or have a current medical exemption from varicella and measles immunization on file.

Condition: One kindergarten student was found that did not receive their second dose of both vaccines within four calendar months.

Context: The kindergarten student exception was isolated to one student in a sample of twenty-five students tested at one school site.

Cause: The District failed to monitor the immunization requirements at all schools.

Effect: The District claimed 0.11 excess ADA for this pupil at P-2 and 0.30 ADA at Annual, which must be disallowed. The questioned cost based on the derived value of ADA is \$1,662.

Recommendation: The District needs to assign appropriate staff familiar with the immunization requirements to ensure that every student in kindergarten meet all of the requirements prior to enrolling.

Views of Responsible Officials: Site LVNs/HAs will monitor due dates for immunizations to remain compliant on a weekly basis. Students who are homeless will be placed on a "watchlist" notating the deadline for immunizations. Each week, parents will be contacted to remind them of the upcoming due date for immunizations and that the student will not be able to attend school beyond that date. LVNs/HAs will also inform site principal of the upcoming deadlines. If deadline is not met, the student will be removed from school and/or offered long term independent study.

Finding 2024-002 : Expanded Learning Opportunities Program (40000)

Repeat Finding? No

Criteria: California Education Code Section 46120(b)(2)(D) states that the administrator shall ensure that the program maintains a pupil-to-staff member ratio of no more than 20 to 1, except programs serving transitional kindergarten or kindergarten pupils shall maintain a pupil-to-staff member ratio of no more than 10 to 1.

Condition: It was noted that out of the six sites we tested, five were out of compliance with the pupil-to-staff ratio.

Cause: Class sizes and staffing sizes were overlooked by the district.

Effect: There is no financial penalty associated with noncompliance.

Recommendation: We recommend that the District ensure that every group at each site operating the expanded learning opportunities program is properly staffed to meet the required ratios.

VICTOR ELEMENTARY SCHOOL DISTRICT

State Award Findings and Questioned Costs

For the Fiscal Year Ended June 30, 2024

Finding 2024-002: Expanded Learning Opportunities Program (40000) (continued)

Views of Responsible Officials: Our analysis indicates that our third-party providers are aware of and comply with the required student to adult ratios of 1:10 for TK and Kinder students and 1:20 for all other elementary grades. Unfortunately, their methods of documenting this were insufficient to prove compliance. As such, we are working with our providers to properly document the adults assigned to the students on the attendance sheets by grade level and by class, and not simply through an adult to student ratio for the day by program. These ratios are critical, and we understand the documentation process on attendance and adult supervision must be accurate and clear. We are in the process of training our teams on the proper documentation techniques. We will be reviewing their documentation in the Spring to check for understanding and compliance.
