2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

LEADERSHIP | ENGINEERING | ART DESIGN

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement
By blending Leadership and STEAM (Science, Technology, Engineering, Art and Math) curriculum with project-based learning, students of Phillips Magnet School obtain an enriched and foundational experience needed to embrace their higher education. Our team of hard-working teachers inspires creativity and enthusiasm in our students, making the Phillips community a particularly special one to be a part of. At Phillips Magnet School, we nourish the growth of our students' leadership skills through project-based learning, after school clubs and activities, and a supportive network of educators. The Phillips staff creates an environment that encourages a passion for leading. By incorporating an engineering-based curriculum, Phillips students develop an aptitude for logic and problem solving, as well as receive an early introduction to 21st-century skills.

2024-25 School Description and Mission Statement

Technology and Engineering will play a significant role in our world's future, and we want Phillips students to be prepared. Children have a natural tendency toward creativity that we highlight at Phillips Magnet Elementary. By engaging students in art design and creative activity, we exercise their imagination and reveal their natural talents. A focus on art-design helps students identify their interests at a young age that they can then develop all the way through their higher education.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Phillips Magnet is a Success for All school using this curriculum for our reading program and whole school reform. We use Bridges in Mathematics for our math curriculum, Scott Foresman History-Social Science for California, and Discovery Education Science Techbook. In addition we support students with Imagine Learning English and Dreambox math as two of our online platforms. Multi-language learners receive designated English Language Development using Educeri.

School Facility Conditions and Planned Improvements

Phillips Elementary School's facilities, constructed in 1953, consist of a main building housing the office, multiuse room, and nurse's office, four permanent classroom wings, thirteen modern portables classrooms, a family resource center, and library. Some heating and air-conditioning units have been upgraded. The entire school is connected to the Internet through the NVUSD central technology network. New asphalt was laid on our playground in September 2024.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement	State Priority: Parental Involvement The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.
---------------	---

2024-25 Opportunities for Parental Involvement
Phillips Magnet school is a Community School. Parents are educated about programs and their roles through participation in the School Site Council, English Learner Parent Advisory Committee, and Parent University Classes. Parents are encouraged to volunteer by assisting in classrooms, supporting school-wide activities, through our parent education evenings, and on field trips. In addition to bilingual information that is shared regularly through the ParentSquare portal, the school marquee carries event information 24 hours per day. Our school website provides information about events, our instructional programs, and links to contact staff. Our school sponsors several events throughout the year including fundraisers, the Celebration of Learning in the Spring and Phillips Family Fun Night in May. We also have weekly Cafecitos to allow for social interaction and connecting to the community. The school also provides a variety of supports for our families through our Family Resource Center and provides after school intervention and childcare through the NCOE run Cool School program. Phillips has partnered with Queen of the Valley in continuing to offer on-site courses through the Napa Valley Parent University. Parents are invited to attend classes on such topics as health, leadership, volunteering at school, and being an informed parent who is able to navigate through the school system.

C. Engagement

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

2024-25 School Safety Plan

A schoolwide focus on safety, health and well being has resulted in a campus that is safe for all students. Grounds are kept litter-free and supervised by a full-time custodian. Inspections by the Napa Fire Department address code compliance and assure that facilities are safe for students and staff. Phillips Comprehensive School Safety Plan (CSSP), addresses all components of SB187 including Student Discipline, Sexual Harassment, and Crisis Response Plan. The CSSP is reviewed annually by the School Site Council and was approved this year on October 17th. It was sent to the NVUSD School Board for approval on December 12, 2024. Emergency equipment has been supplied for each classroom, including classroom telephones, as well as school-wide safety/emergency backpacks. Evacuation drills, as well as those for a variety of other emergency situations, are held monthly. During the first weeks of school, teachers and the administration explain policies about student safety, the uniform dress code, playground rules, classroom behavior, bullying, and harassment. A comprehensive BEST system is used to reinforce positive behavior, explain behavior expectations, and work to make students responsible citizens both on and off-campus. Positive conflict resolution is enforced through Getting Along Together lessons taught weekly in classrooms as well as the Toolbox Tools which teach students coping skills to build resilience, self-mastery and empathy for others. This active focus on positive behavior has shown a decrease in the number of school suspensions and has helped to increase student safety. Many of the staff are certified for first aid by the Red Cross.

Professional Development

The primary areas of focus for professional development are Magnet theme-related topics, Rigorous PBL and Visible Learning strategies, ELL/ELD Framework, SFA, Benchmark, Bridges, and assessment tools available to guide instruction. All professional development is based on ensuring teachers are well prepared to meet the needs of a broad spectrum of learners including, English Language Learners, ALPS students, and students with special needs. The following student achievement data is used to make decisions about professional development needs: CAASPP, STAR Early Literacy, STAR Reading, STAR Math, ESGI, Key Phonics, curriculum embedded assessments and ELPAC. The majority of professional development is delivered on Wednesday afternoons from 1:45-4:10 when all staff members come together for professional learning and collaborative work. There are additional opportunities for professional development outside of the contract day. In addition to the Principal, a full-time academic specialist supports teacher implementation of professional learning, as well as a Community Schools Administrator. An SFA coach provides coaching and professional development to staff throughout the year.
