3. Graduation Pathways
4. Review of ACT Programs in the FUHSD
5. Articulation Order of Events
6. FUHSD Residency Process
7. Articulation Process

What is Articulation?

Students who receive Special Education prepare for high school through the IEP process.

- Proposed services are driven by the current IEP.
- We hold an IEP to determine educational supports and services.

CUSD and SESD are not FUHSD

- The districts are different, but the services offered are comparable.
- Every high school site has Special Education services.
- The recommended program may not be at your home high school.
- If transportation is a provided service on your IEP, FUHSD will continue to provide the service or reimburse
 - \$ 375 per month, pro-rated for attendance

Continuum of Support

As per their IEP, students with Special Education services may receive:

Accommodations

- Accommodations provide access for a student with a disability to participate in a course/standard/test, which DO NOT fundamentally alter or lower the standard or expectations of the course/standard/test.
- Extra time on tests/assignments (define amount)
- Taking tests in alternate locations
- Audiobooks
- Access to computer
- Reducing the test items per page
- Environmental structuring
- Timing or scheduling

Modifications

- Modifications are changes in teaching strategies and curriculum, that fundamentally alter the expectations of the course/standard/test
- Retaking/correcting tests for credit
- Word bank for tests
- Notes for tests
- Shortened or other limits to homework/classwork
- Material presented at a lower readability level
- Unlimited time

Alternate Achievement Standards

- Adapts the curriculum to fundamentally alter the grade-level expectation, but does not fundamentally alter the state content standard.
- Alternate achievement standards lead to either an **Alternate Diploma** OR a **Certificate of Completion** (rather than a traditional high school diploma)
- Even though students have earned an Alternate Diploma or Certificate of Completion, they continue to be eligible for Post-Secondary supports and services (they can continue in Special Education until age 22).

Alternate Diploma (AB 154)

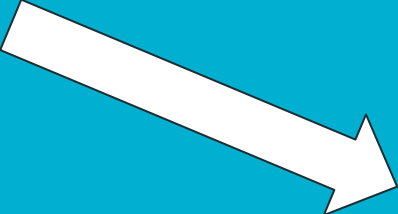

An individual with exceptional needs shall be eligible for the exemption and award if their individualized education program provides for all of the following:

(1) The pupil is required to take the alternate assessment aligned to alternate achievement standards in grade 11,

(2) The pupil is required to complete state standards aligned coursework to meet the statewide coursework requirements

(c) Before a pupil commences grade 10, the pupil's individualized education program team shall determine and notify the parent or guardian of the pupil of whether the pupil may be eligible to graduate pursuant to the exemption described in this section.

Three Graduation Pathways
