

Teen Parent Specialists

Specialist Support Services

Provide assistance and intervention to pregnant and parenting students and families while removing barriers to school readiness, attendance, and ensuring student retention, recovery and resiliency.

- Develop intervention plans to prevent dropout through provision of academic and social emotional supports
- Offer academic alternatives for students that cannot follow traditional school setting or schedules
- Advocate for student needs by building a team of campus staff, teachers, and families working together towards a common goal of high school graduation.
- Coordinate homebound services (CEHI) while the student is bedridden or postpartum
- Monitor attendance and academic standing to ensure accountability and success of graduating prepared to be life ready.
